The Collected Works of W.B. Yeats Volume IV: Early Essays William Butler Yeats, Richard J. Finneran, George Bornstein, 2007-03-06 The Collected Works of W B Yeats Volume IV Early Essays is part of a fourteen volume series under the general editorship of eminent Yeats scholars George Bornstein and George Mills Harper. These volumes include virtually all of the Nobel laureate's published work in authoritative texts with extensive explanatory notes. Early Essays, edited by the internationally esteemed Yeats scholars George Bornstein and the late Richard J Finneran, includes the contents of the two most important collections of Yeats's critical prose: *Ideas of Good and Evil* 1903 and *The Cutting of an Agate* 1912 1919. Among the seminal essays are considerations of Blake, Shakespeare, Shelley, Spenser, and Synge, as well as an extended discussion of the Japanese Noh theatre. The first scholarly edition of these materials, Early Essays offers a corrected text and detailed annotation of all allusions. Several appendices gather materials from early printings which were later excluded, as well as illuminating black and white illustrations. Early Essays is an essential sourcebook for understanding Yeats's career as both writer and literary critic and for the development of modern poetry and criticism. Here Yeats works out many of his key ideas on poetry, politics, and the theater. He gives interpretations of writers critical to his development and presents a compelling vision of Ireland and the modern world during the last decade of the nineteenth century and first two decades of the twentieth. As T S Eliot remarked, Yeats was one of those few whose history is the history of their own time, who are a part of the consciousness of an age which cannot be understood without them. This volume displays a crucial part of that history.

The Cutting of an Agate William Yeats, 2016-11-18 In *The Cutting of an Agate* W B Yeats starts with

thoughts on Lady Gregory's translations and tells of his experiences. He writes about meeting fellow student J.M. Synge for the first time putting on a play in a small town in the west of Ireland and how to make his work appreciated by his audience. He then writes at length about Synge and others of his time. He describes his observations of people he encounters. He discusses the merits of modern plays and how a character in an epic novel will stay with us longer than one in a play. He describes the first time he took Indian hemp and how that changed the way he saw things at the time. He finishes with several chapters dedicated to J.M. Spenser. He is a fellow poet, specific parts of whose poetry Yeats liked to carry around with him. I have put into this book only those passages from Spenser that I want to remember and carry about with me. I have not tried to select what people call characteristic passages for that is I think the way to make a dull book. I have taken out of *The Shepherds Calendar* only those parts which are about love or about old age and I have taken out of the *Faerie Queene* passages about shepherds and lovers and fauns and satyrs and a few allegorical processions. There is an old saying that God is a circle whose centre is everywhere. If that is true, the saint goes to the centre, the poet and artist to the ring where everything comes round again. The poet must not seek for what is still and fixed for that has no life for him. Yet perhaps he must endure the impermanent a little for these things return but not wholly for no two faces are alike and it may be had we more learned eyes no two flowers. Is it that all things are made by the struggle of the individual and the world of the unchanging and the returning and that the saint and the poet are over all and that the poet has made his home in the Serpent's mouth? **The**

The Classical Influence in English Literature in the Nineteenth Century William Chislett, 1918 *The Yale Review* George Park Fisher, George Burton Adams, Henry Walcott Farnam, Arthur Twining Hadley, John Christopher Schwab, William Fremont Blackman, Edward Gaylord Bourne, Irving Fisher, Henry Crosby Emery, Wilbur Lucius Cross, 1913

Early Modern English Literature and the Poetics of Cartographic Anxiety Chris Barrett, 2018-03-23 The Cartographic Revolution in the Renaissance made maps newly precise, newly affordable and newly ubiquitous. In sixteenth-century Britain, cartographic materials went from rarity to household décor within a single lifetime and they delighted, inspired and fascinated people across the socioeconomic spectrum. At the same time, they also unsettled, upset, disturbed and sometimes angered their early modern readers. *Early Modern English Literature and the Poetics of Cartographic Anxiety* is the first monograph dedicated to recovering the shadow history of the many anxieties provoked by early modern maps and mapping in the sixteenth and seventeenth centuries. A product of a military arms race often deployed for security and surveillance purposes and fundamentally distortive of their subjects, maps provoked suspicion, unease and even hostility in early modern Britain in ways not dissimilar from the anxieties provoked by global positioning enabled digital mapping in the twenty-first century. At the same time, writers saw in the resistance to cartographic logics and strategies the opportunity to rethink the way literature represents space and everything else. This volume explores three major poems of the period: Edmund Spenser's *The Faerie Queene* (1590, 1596), Michael Drayton's *Poly Olbion* (1612, 1622) and John Milton's *Paradise Lost* (1667, 1674) in terms of their vexed and vexing relationships with cartographic materials and shows how the productive protest staged by these texts redefined concepts of allegory, description, personification, bibliographic materiality, narrative temporality, analogy and other elemental components of literary representations.

Preface

The British and American Drama of Today Barrett H. Clark, 1921

The Varieties of Metaphysical Poetry T. S. Eliot, 2014-03-11 The famed series of Trinity College and Johns Hopkins lectures in which the Nobel Prize winner explored history, poetry and philosophy. While a student at Harvard in the early years of the twentieth century, T. S. Eliot immersed himself in the verse of Dante, Donne and the nineteenth-century French poet Jules Laforgue. His study of the relation of thought and feeling in these poets led Eliot, as a poet and critic living in London, to formulate an original theory of the poetry, generally termed metaphysical, philosophical and intellectual poetry, that revels in startlingly unconventional imagery. Eliot came to perceive a gradual disintegration of the intellect following three metaphysical moments of European civilization: the

thirteenth seventeenth and nineteenth centuries The theory is at once a provocative prism through which to view Western intellectual and literary history and an exceptional insight into Eliot s own intellectual development This annotated edition includes the eight Clark Lectures on metaphysical poetry that Eliot delivered at Trinity College in Cambridge in 1926 and their revision and extension for his three Turnbull Lectures at Johns Hopkins University in Baltimore in 1933 They reveal in great depth the historical currents of poetry and philosophy that shaped Eliot s own metaphysical moment in the twentieth century
