Porcelain Analysis and Its Role in the Forensic Attribution of Ceramic Specimens Howell G. M. Edwards, 2021-11-09 The material for this book arose from the author's research into porcelains over many years as a collector in appreciation of their artistic beauty as an analytical chemist in the scientific interrogation of their body paste enamel pigments and glaze compositions and as a ceramic historian in the assessment of their manufactory foundations and their correlation with available documentation relating to their recipes and formulations A discussion of the role of analysis in the framework of a holistic assessment of artworks and specifically the composition of porcelain namely hard paste soft paste phosphatic bone china and magnesian is followed by its growth from its beginnings in China to its importation into Europe in the 16th Century A survey of European porcelain manufactories in the 17th and 18th Centuries is followed by a description of the raw materials minerals and recipes for porcelain manufacture and details of the chemistry of the high temperature firing processes involved therein The historical backgrounds to several important European factories are considered highlighting the imperfections in the written record that have been perpetuated through the ages The analytical chemical information derived from the interrogation of specimens from fragments shards or perfect finished items is reviewed and operational protocols established for the identification of a factory output from the data presented Several case studies are examined in detail across several porcelain manufactories to indicate the role adopted by modern analytical science with information provided at the quantitative elemental oxide and qualitative molecular spectroscopic levels where applicable The attribution

of a specimen to a particular factory is either supported thereby or in some cases a potential reassessment of an earlier attribution is indicated Overall the information provided by analytical chemical data is seen to be extremely useful for porcelain identification and for its potential attribution in the context of a holistic forensic evaluation of hitherto unknown porcelain exemplars of questionable factory origins A Forger's Tale ,2015 Global Dilemmas Malcolm Hardman, 2017-10-06 No more than there can be time without space can there be history without locality This book takes a road less traveled into a locality that provides fresh insights into our global dilemmas Bolton le Moors was a global center of cotton coal and engineering whose factory engines were the beating heart of the Victorian world Commanding the widest range of trades of any town in the Empire it specialized in papermaking from pawn tickets to banknotes via newspapers and syndicated fiction Responsive to locality yet world aware its many independent writers shared a creative forum with authors like Wordsworth Tennyson Ruskin Gaskell Charlotte Bront Tolstoy Whitman Thomas Hardy T S Eliot Virginia Woolf Other locals include mathematician Thomas Kirkman father of design theory Thomas Moran painter of the American New West Charles Holden the Empire's leading Modern architect Bolton's printed culture was founded on traditions that made it a bulwark of parliamentary puritanism in the days of Reformation and Civil War These traditions increasingly confronted global dilemmas that the town s own inventiveness and entrepreneurship had helped create yet its high moorlands also provided a breathing space to generate imaginative spiritual political and practical remedies Global Dilemmas completes the account of Bolton writing initiated in A Kingdom in Two Parishes and continued in Classic Soil an arc of discourse from Thomas Lever 1521 77 whose social experiments provided the model for the Protestant colonization of the New World to his kinsman W H Lever Lord Leverhulme sincere Christian world capitalist progressive social thinker and pursuing the logic of profit exploiter of Conrad s African heart of darkness Corrupt Cultures: Cheating In Science And Society Roy Yorke Calne, 2021-10-04 This book is concerned with cheating in Science and the harm that it does concentrating on three disasters in cell culture which caused international concern and personal tragedy for the perpetrators There is an overview of plant animal and human cheating providing a background to the focus on Science This demands a special form of truth in that claims need to be substantiated by repetition in independent laboratories to confirm that the claims work The nature of originality is examined in art and Science An attempt has been made to determine the background and motives for cheating in Science in the certain knowledge that it will be unmasked leading to scandal Advice is given to the young Scientist and suggestions have been made as to how fraud in Science could be reduced by more regulated supervision. There is a need to revise the regulations and assessment of claims of originality and the whole review process of journals to avoid publishing fake data This text is unusual in focusing on three well documented cases The data should not have been published in high impact journals if more rigorous review had been made Journals should require independent repetition of claims that seem to be too good to be true This little book should be of considerable interest to young scientists historians of science and editors of

scientific journals The general reader might find it fascinating to learn how science works or does not work Dark Tides Philippa Gregory, 2020-11-24 1 New York Times bestselling author of Tidelands the searing portrait of a woman that resonates across the ages People returns with an evocative historical novel tracking the rise of the Tidelands family in London Venice and New England Midsummer Eve 1670 Two unexpected visitors arrive at a shabby warehouse on the south side of the River Thames The first is a wealthy nobleman seeking the lover he deserted twenty one years earlier Now James Avery has everything to offer a fortune a title and the favor of the newly restored King Charles II He believes that the warehouse s poor owner Alinor has the one thing he cannot buy his son and heir The second visitor is a beautiful widow from Venice in deepest mourning She claims Alinor as her mother in law and tells her of the death of Rob Alinor s son drowned in the dark tides of the Venice lagoon Meanwhile Alinor's brother Ned in faraway New England is making a life for himself between in the narrowing space between the jarring worlds of the English newcomers and the American Indians as they move towards inevitable war Alinor writes to him that she knows without doubt that her son is alive and the widow is an imposter But how can she prove it Set in the poverty and glamour of Restoration London in the golden streets of Venice and on the tensely contested frontier of early America this is a novel of greed and desire for love for wealth for a child and for Lancastrians Paul Salveson, 2023 In the early morning the mill girls clumping down the cobbled street all in clogs making a curiously formidable sound like an army hurrying into battle I suppose this is the typical sound of Lancashire George Orwell The Road to Wigan Pier This popular history explores the cultural heritage and identity of Lancashire stretching from the Mersey to the Lake District Paul Salveson charts the county's transformation from a largely agricultural region noted for its religious learning into the Industrial Revolution's powerhouse as an emerging self confident bourgeoisie drove economic growth This capital boom came with a cultural blossoming creating today's Lancashire Industrialists strongly committed to the arts endowed galleries and museums producing a diverse world of science technology music and literature Lancashire developed a distinct business culture but this was also the birthplace of the world co operative movement and the heart of democracy campaigns including Chartism and women s suffrage Lancashire has generally welcomed incomers who have long helped to inform its distinctive identity fourteenth century Flemish weavers nineteenth century Irish immigrants and Jewish refugees and more recently New Lancastrians from Asia Africa and Eastern Europe This long overdue book explores contemporary Lancastrian culture following modern upheavals and Lancashire's fragmentation compared with its old rival Yorkshire What future awaits the 6 million people of this rich historic region True Crime Stories Iamie King, 2023-10-12 Filled with terrifying tales of gruesome murders grand theft and kidnappings this compendium of the worst side of humanity is guaranteed to chill the blood Did you hear about London's Victorian all female gang What about the Great Canadian Maple Syrup Heist Do you know the story of the killer nun Prepare yourself for the urge to sleep with the light on and to double check you ve locked the door because this collection of True Crime Stories is not for the faint hearted
