Focus on Grammar and Meaning Luciana C. de Oliverira, Mary J. Schleppegrell, 2016-06-28

Focus on Grammar and Meaning explores how to teach grammar effectively to second or foreign language learners aged 5-18. It provides teachers with research insights that will help them to reflect on their classroom practice and enable them to experiment with different ways of teaching grammar. Taking a systemic functional approach, the authors emphasize the importance of linking language and meaning in teaching. Key research studies on grammar instruction are featured; examples from real classroom practice are examined, and activities are provided to help teachers relate the content to their own teaching context. Additional online resources at www.oup.com/elt/teacher/fogm. Luciana C. de Oliveira is Associate Professor of TESOL and Applied Linguistics at Teachers College, Columbia University, New York. Mary J. Schleppegrell is Professor of Education at the University of Michigan, Ann Arbor.

Essentials of Middle and Secondary Social Studies William B. Russell III, Stewart Waters, Thomas N. Turner, 2013-10-15. Building on the success of a much-loved elementary text, *Essentials of Middle and Secondary Social Studies* focuses on the key issues central to the actual teaching of middle and high school social studies, including lesson planning and inclusive instructional strategies. Written in an engaging conversational style, the text encourages teachers in their development as professionals and enables them to effectively use creative and active learning strategies in the everyday classroom. Features of the book include: A full chapter on lesson plans designed to provide middle and secondary social studies teachers with classroom-tested lesson plans. The chapter includes two classroom-tested lessons for each social science discipline: U.S. History, World History, Geography, Government, Economics, Psychology, Sociology. A chapter on technology that is designed to better prepare middle and secondary social studies teachers to effectively teach social studies with technology. Attention is given to digital history, media literacy, teaching with film and music, and numerous other types of impactful technology. Each teaching methodology and lesson plan discusses how the strategy can be used to meet the individual needs of diverse learners, including English Language Learners and exceptional education students. A section in each chapter provides various resources for further development. The section includes articles, books, and web resources. Each chapter includes an Extension activity offering readers with the opportunity to extend the learning experience with relevant and meaningful real-life scenarios. Focus activities give readers the opportunity to prepare for the learning experience with relevant and meaningful scenarios. Covers current topics such as NCSS Standards, Common Core State Standards, Technology, Media Skills, Character Education, and Literacy.

Meeting the Challenges to Measurement in an Era of Accountability Henry Braun,2016-01-29 Under

pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4-8 Teachers in these subject areas however constitute less than thirty percent of the teacher workforce in a district Comparatively little has been written about the measurement of achievement in the other grades and subjects This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas with particular attention to their use in the evaluation of teachers and schools in all It addresses traditional end of course tests as well as alternative measures such as portfolios exhibitions and student learning objectives In each case

issues related to design and development psychometric considerations and validity challenges are covered from both a generic and a content specific perspective The NCME Applications of Educational Measurement and Assessment series includes edited volumes designed to inform research based applications of educational measurement and assessment Edited by leading experts these books are comprehensive and practical resources on the latest developments in the field The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
