the cards a lot to make sure the basics are implanted in your mind as you go I m really hoping that this new book gets some of you on the road to giving proper and interesting readings with cards instead of just thinking about it There s a lot more information hidden in those fifty two bits of paper than you probably realise

REVIEWS I got this yesterday and have started the study and have to say it s quite brilliant I ve read cards of one form or another for 20 years after learning initially from the Joe Riding course but for various reasons I was looking for something to help me sharpen my skills and this more than does the trick For anyone who might feel that they d rather this was on tarot I think it s worth pointing out that when I started doing readings many moons ago a number of clients would tell me of this mystical sounding old man who read from ordinary cards It was clear that the impression given to these women was that reading ordinary cards was somehow more skillful and impressive than tarot cards I guess the pictures on the cards might make it obvious to some astute clients that there are highly visible cues on the cards Playing card readings rock and playing cards predate tarot and are thus in my book purer and more mysterious than tarot

David Numen I purchased this ebook What a great system Always in the easily understood clear writing format you d expect from Julian This is of a quality you would expect to find in a book store I have in the past purchased Julian s James Bond Cold Reading book and his Palm Reading book For me this is one of the best I find I am more in tune with numbers than the others I always have a deck of cards and certainly the places I frequent there are cards as well The fact that you can use a few cards a few more to create a simple or more complex reading is terrific Make it as long or short as you d like Julian s audio book available for free from his site is also top notch Lots of valuable audio files to use while driving or sitting in a Doctor s office Certainly worth the asking price If you have any of Julian s other offerings you know what I mean If you don t have any of Julian s other offerings don t hesitate His metaphors and memory links make sense and they work
