

Austin Community College

Core Curriculum Requirements

(Effective Fall 2014)

Your first two years of study at a four-year college or university are spent completing the core curriculum and pre-major classes that prepare you for an intended major field of study.

If completed in its entirety, the 42-credit core curriculum ACC can replace the core curriculum in your bachelor's degree when you transfer. You can even earn a degree along the way. Students are strongly encouraged to complete the associate degree at ACC before transfer.

Choosing the right classes

Depending on your major, you may have to take specific core curriculum classes. Check your degree plan to make sure the classes you pick match your major's requirements. If you plan to transfer, contact your future institution to ask if your core curriculum classes fulfill your transfer plan.

Core curriculum requirements

To complete core curriculum you must earn a certain amount of credits per subject area, listed in the table below. These are the requirements for transfer degrees.

Applied science majors: Follow general education requirements for the Associate of Applied Science or credit certificates.
