House or legitimate theatre necessarily meant it was of low cultural and artistic merit Here Alexandra Carter identifies the traditional marginalization of the working class female participants in ballet historiography and moves on to reinstate the lost period of the music hall ballet and to apply a critical account of that period Carter examines the working conditions of the dancers the identities and professional lives of the ballet girls and the ways in which the ballet of the music hall embodied the sexual psyche of the period particularly in its representations of the ballet girl and the ballerina By drawing on newspapers journals theatre programmes contemporary fiction poetry and autobiography Carter firmly locates the period in its social economic and artistic context The book culminates in the argument that there are direct links between the music hall ballet and what has been termed the birth of British ballet in the 1930s a link so long ignored by dance historians This work will appeal not only to those interested in nineteenth century studies but also to those working in the fields of dance studies gender studies cultural studies and the performing arts
