Creating and Promoting Lifelong Learning in Public Libraries Donna L. Gilton,2016-06-21 Creating and Promoting Lifelong Learning in Public Libraries Tools and Tips For Practitioners is the sequel to Lifelong Learning in Public Libraries Principles Programs and People On the one hand Lifelong Learning in Public Libraries focuses on the information needs and the developmental and psychological characteristics of diverse library users of all ages It endorses the use of ILI to promote

lifelong learning in public libraries both by borrowing techniques from academic and school libraries and by building on existing public library traditions of programming and outreach This book also compares lifelong learning in public libraries to informal and nonformal education in museums community organizations and agencies places of worship and other organizations In addition Lifelong Learning in Public Libraries describes basic steps that librarians can execute in order to get started On the other hand Creating and Promoting Lifelong Learning in Public Libraries focuses much more on how public librarians can specifically plan and implement their instruction with chapters on planning for instruction using teaching methodologies teaching with and about technology and bringing ILI together with more traditional public library services programming and activities such as reference and Readers Advisory services bibliotherapy and cultural and literacy programming Changes in ILI standards and comparisons of ILI with basic reading media digital and cultural literacies are also described Both books together should act as basic manuals for public librarians who promote lifelong learning Creating and Promoting Lifelong Learning in Public Libraries also have helpful teaching hints for all librarians and other professionals who teach in a variety of settings

Lifelong Learning in Public Libraries Donna L. Gilton, 2012 Lifelong Learning in Public Libraries demonstrates that public librarians can promote learning by combining the elements of Information Literacy Instruction ILI with traditional practices of public libraries This approach contributes to the information enfranchisement of patrons and enhances the fulfillment of the traditional goals and purposes of libraries Donna L Gilton provides background on ILI and current developments in public library instruction and also examines educational theories and practices derived from the fields of behaviorism cognitive psychology constructivism and educational humanism Additional chapters delve into practices developed to deal with diverse groups and translate the theories and practices that have been outlined into a well coordinated plan The final chapters survey the role of libraries as cultural institutions This book introduces the field of ILI to public librarians in the context of their own traditions and shows the unique ways that ILI can be implemented in public library settings It encourages librarians to rethink practices to incorporate the principles of ILI and will enable public librarians to extend and enrich their instruction on information use Lifelong Learning in Public Libraries is a valuable resource for librarians educators and leaders of public organizations

Aging Sue V. Saxon, Mary Jean Etten, Elizabeth A. Perkins, 2009-11-09 This book has been honed into an elegant compendium. This outstanding work should be widely read; it is perhaps the best example of an integrative approach to gerontology. Score 94 4 stars Doody's. This book serves as an authoritative textbook and guide to the physical changes and common pathologies associated with the aging process, with special emphasis on the psychological and social implications of these changes in the lives of older adults. This fifth edition presents the newly available research findings that differentiate normal aging from actual pathology. The authors provide a thoroughly updated and expanded review of important topics in aging, including death and grieving, complementary and alternative therapies, nutrition, exercise, and much more. The book also demonstrates how the elderly population can gain greater personal control over aging through lifestyle modifications and preventive health strategies. Key topics introduced and discussed: Psychosocial theories of aging; Changes and disorders in the skeletal, nervous, cardiovascular, and respiratory systems; Dementia, delirium, and mild cognitive impairment; Aging in persons with lifelong disabilities. This volume serves as a comprehensive textbook for students studying to become health care professionals and is also a fundamental resource for gerontologists, nurses, social workers, psychologists, rehabilitation specialists, clergy, and counselors.

Distant Voices Near Forest Greenpath, AI, 2025-02-27 *Distant Voices Near* delves into the complex relationship between technology and social connection, exploring whether digital communication truly bridges divides or paradoxically deepens social isolation in the digital age. The book highlights how, despite offering unprecedented opportunities for connection, the uncritical adoption of technology can exacerbate existing inequalities, leading to social fragmentation. It addresses the critical need for targeted communication and community outreach to foster genuine social connection, emphasizing that while digital platforms can connect, they may also contribute to feelings of disconnect if not used thoughtfully. The book progresses by first establishing the historical context of communication technologies and reviewing sociological theories of social connection. It then explores practical applications of communication tools to combat isolation, including leveraging social media and designing inclusive online platforms. Finally, it proposes a framework for implementing community outreach strategies that complement digital efforts, connecting social science with technology. The book provides actionable guidance for individuals and organizations seeking to promote digital inclusion and bridge digital divides.
