Transnational Protest, Australia and the 1960s Jon Piccini, 2016-05-09 Australia is rarely considered to have been a part of the great political changes that swept the world in the 1960s the struggles of the American civil rights movement student revolts in Europe guerrilla struggles across the Third World and demands for women s and gay liberation This book tells the story of how Australian activists from a diversity of movements read about borrowed from physically encountered and critiqued overseas manifestations of these rebellions as well as locating the impact of radical visitors to the nation It situates Australian protest and reform movements within a properly global and particularly Asian context where Australian protestors sought answers utopias and allies Dramatically broadens our understanding of Australian protest movements this book presents them not only as manifestations of local issues and causes but as fundamentally tied to ideas developments and personalities overseas particularly to socialist states and struggles in near neighbours like Vietnam Malaysia and China Jon Piccini is Research and Teaching Fellow at The University of Queensland Brisbane Australia His research interests include the history of human rights and social histories of international student migration

The Other '68ers Anna Von der Goltz, 2021 This is a history of 1968 written from a new perspective that of center right student activists in West Germany Based on oral history interviews and new archival sources it examines the ideas experiences and repertoires of center right students in this age of protest Writing these activists back into the history of 1968 and its afterlives including student protest cultural revolt internationalism debates about left wing violence and the terror of the Red Army Faction the memory wars of the 1980s and beyond reveals that this was a broader more versatile and ultimately more consequential phenomenon than the traditionally narrower focus on a left wing minority allows Other 68ers demonstrates that we need a more nuanced history of the 1968 generation and of generational conflict during these years Student activists comprised individuals from across the political spectrum who often had very different

ideas about what kind of a society they envisaged and how to address the shortcomings of West German democracy 1968 was a moment of intense political conflict but it also played out within the student body and nurtured contrasting identities This book shows that the center right involvement in 1968 had real consequences Many of the protagonists of this book would go on to pursue high profile political careers and leave their mark on West German political culture Other 68ers therefore sheds fresh light on how West Germany's center right dealt with the crisis of hegemony and political identity it experienced in the wake of 1968 how it coped with generational change how it transformed and modernized after losing power at the national level for the first time in 1969 and how it managed to re emerge so successfully in the 1980s

The Fate of Third Worldism in the Middle East Rasmus C. Elling, Sune Haugbolle, 2024-01-04 In the latter half of the twentieth century a revolutionary idea promised to upend the global order Anti imperialist militancy bolstered by international solidarity would lead to not only the national liberation of oppressed peoples but universal emancipation shattering the division between the prosperous nations of the capitalist West and the poorer countries of the Global South The idea was Third Worldism and among others it inspired struggles in Iran and Palestine By the early 1980s however progressive visions of independence and freedom had fallen to the reality of an oppressive Islamic theocracy in Iran while the Palestinian Revolution had been eclipsed by civil war in Lebanon Israeli aggression and intra Arab conflict This thought provoking volume explores the dramatic decline of Third Worldism in the Middle East It reveals the lived realities of the time by focusing on the key protagonists from student activists to guerrilla fighters and from volunteer nurses to militant intellectuals and juxtaposes the Iranian and Palestinian cases to offer a riveting re examination of this defining era Ultimately it challenges us to reassess how we view the end of the long 1960s prompting us to reconsider perennial questions concerning self determination emancipation change and solidarity

Decolonizing 1968 Burleigh Hendrickson,2022-11-15 *Decolonizing 1968* explores how activists in 1968 transformed university campuses across Europe and North Africa into sites of contestation where students administrators and state officials collided over definitions of modernity and nationhood after empire Burleigh Hendrickson details protesters versions of events to counterbalance more visible narratives that emerged from state controlled media centers and ultimately describes how the very education systems put in place to serve the French state during the colonial period ended up functioning as the crucible of postcolonial revolt Hendrickson not only unearths complex connections among activists and their transnational networks across Tunis Paris and Dakar but also weaves together their overlapping stories and participation in France s May 68 Using global protest to demonstrate the enduring links between France and its former colonies *Decolonizing 1968* traces the historical relationships between colonialism and 1968 activism examining transnational networks that emerged and new human and immigrants rights initiatives that directly followed As a result Hendrickson reveals that 1968 is not merely a flashpoint in the history of left wing protest but a key turning point in the history of decolonization Thanks to generous funding from Penn State and its participation in TOME Toward an Open Monograph Ecosystem the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories
