**Foreign Oil Dependence** James Haley,2004 Nearly 60 percent of the oil needed to keep the U S economy running is imported from foreign suppliers many of which are located in the unstable Persian Gulf region of the Middle East America s heavy reliance on imported oil has caused some observers to argue that the nation s security has been compromised and that measures must be taken to increase domestic oil exploration and production The most effective ways to address foreign oil dependence are debated and discussed in this timely anthology     **Oil and American Identity** Sebastian Herbstreuth,2014-09-10 American dependence on foreign oil has long been described as a serious threat to U S national security and continues to be a political flashpoint even as domestic fracking eases the US reliance on imported energy Oil and American Identity offers a fresh perspective on the subject by reframing energy dependency as a cultural discourse with intimate connections to American views on independence freedom consumption abundance progress and American exceptionalism Through a detailed reading of primary literature Sebastian Herbstreuth also shows how the dangers of foreign oil are linked to American descriptions of foreign oil producers as culturally different und thus undependable Herbstreuth shows how even reliable imports from the Middle East are portrayed as dangerous and undesirable because this region is particularly foreign from an American point of view while oil from friendly countries like Canada is cast as a benign form of energy trade Oil and American Identity rewrites the history of U S foreign oil dependence as a cultural history of the United States in the 20th century
