Religious Entrepreneurism in China's Urban House Churches Li Ma, 2019-06-27 This book offers a unique historical documentation of the development of the ambitious religious entrepreneurship by leaders of the Early Rain church and later Western China Presbytery leadership in an effort to gain social influence in China through local institution building and global public image management It unravels the social processes of how this Christian community with a public image of defending religious freedom in China was undermined by an internal loss of moral authority Based on publicly available texts from Chinese social media that aren't readily available in the West as well as in depth interviews it is framed by existing scholarship in social theories of the public sphere charismatic domination in social transition and the role of power in organizational behaviour These churches stories show how Christianity which has long been politically marginalized in communist China has not only adapted and challenged the socio political status quo but how it was also ironically shaped by the political culture This is an insightful and critical ethnographic study of one of modern China's most famous house churches As such it will be of great interest to scholars of Religion in China as well as those working in Religious Studies Asian studies Chinese studies and Mission Studies more generally

World Christianity, Urbanization and Identity, 2021-02-09 *World Christianity Urbanization and Identity* argues that urban centers particularly the largest cities do not only offer places for people to live shop and seek entertainment but deeply shape people's ethics behavior sense of justice and how they learn to become human Given that religious participation and institutions are vital to individual and communal life particularly in urban centers this interdisciplinary volume seeks to provide insights into the interaction between urban change religious formation and practice and to understand how these shape individual and group identities in a world that is increasingly urban *World Christianity Urbanization and Identity* is part of the multi volume series *World Christianity and Public Religion* The series seeks to become a platform for intercultural and intergenerational dialogue and to facilitate opportunities for interaction between scholars across the Global South and those in other parts of the world

The Registered Church in China Wayne Ten Harmsel, 2021-03-09 In *The Registered Church in China* Wayne Ten Harmsel pulls back for Western readers the shroud of mystery surrounding Chinese registered churches Through interviews with Chinese pastors evangelists and lay Christians he provides a rare view of what it means to live in the shadow of both the government and the well known house churches Registered churches have received criticism from both of these sources as well as from many churches in other countries particularly the United States Ten Harmsel examines the charges leveled against registered churches and presents a balanced picture of the complexity of the church situation in China Such complexity arises for instance in the registered churches struggle to respond to new religious

regulations and the controversy over Sinicization China has become a major center of twenty first century Christianity and despite how little is known about registered churches in the West these congregations play a significant role in shaping Chinese Christianity today **Christianity and Transforming States** David Emmanuel Singh,2024-10 Christians can be both victims and victimizers and herein lies this volume s unique contribution Offering a two sided approach this book examines what it means to live as a Christian minority both in non Christian societies and in societies where other forms of Christianity are dominant Digital Humanities and Christianity Tim Hutchings,Claire Clivaz,2021-09-20 This volume provides the first comprehensive introduction to the intersections between Christianity and the digital humanities DH is a well established fast growing multidisciplinary field producing computational applications and analytical models to enable new kinds of research Scholars of Christianity were among the first pioneers to explore these possibilities using digital approaches to transform the study of Christian texts history and ideas and innovative work is taking place today all over the world This volume aims to celebrate and continue that legacy by bringing together 15 of the most exciting contemporary projects grouped into four categories Canon corpus and manuscript examines physical texts and collections Words and meanings explores digital approaches to language and linguistics Digital history uses digital techniques to explore the Christian past and Theology and pedagogy engages with digital approaches to teaching formation and Christian ideas This volume introduces key debates shares exciting initiatives and aims to encourage new innovations in analysis and communication Christianity and the Digital Humanities is ideally suited as a starting point for students and researchers interested in this vast and complex field **Christian Social Activism and Rule of Law in Chinese Societies** Fenggang Yang,Chris White,2021-06-10 The historical analysis theological reflections and sociological observations found in the chapters of Christian Social Activism and Rule of Law in Chinese Societies reveal the vibrant influence of Christian individuals and groups on social political and legal activism in mainland China Taiwan Hong Kong and diasporic communities Chinese Public Theology Alexander Chow,2018 It has been widely recognized that Christianity is the fastest growing religion in one of the last communist run countries of the world the People s Republic of China Yet it would be a mistake to describe Chinese Christianity as merely a clandestine faith or as hoped by the Communist Party of China a privatized religion Alexander Chow argues that Christians in mainland China have been constructing a more intentional public theology to engage the Chinese state and society since the end of the Cultural Revolution 1966 76 Chinese Public Theology recalls the events which have led to this transformation and examines the developments of Christianity across three generations of Chinese intellectuals from the state sanctioned Protestant church the secular academy and the growing urban renaissance in Calvinism Moreover Chow shows how each of these generations have provided different theological responses to the same sociopolitical moments of the last three decades This study illustrates how a growing understanding of Chinese public theology has been developed through a subconscious intermingling of Christian and Confucian understandings of public

intellectualism These factors result in a contextually unique understanding of public theology but also one which is faced by contextual limitations as well With this in mind Chow draws from the Eastern Orthodox doctrine of theosis and the Chinese traditional teaching of the unity of Heaven and humanity Tian ren heyi to offer a way forward in the construction of a Chinese public theology

Latter Rain Vanessa Miller,2012-04-24 Hustling wasn't easy but Isaac did his best He ruled the underworld like a predator a self made CEO of the streets But one woman dared to show him a better way Her way changed all the rules Now all Isaac wants is to live for God and win back his baby's mama Nina Lewis But when the past catches up with Isaac and tragedy creeps in his back door all bets are off Can a hustler change his ways or will tragedy cause Isaac to turn back to his former condition

The Oxford Handbook of Calvin and Calvinism Bruce Gordon,Carl R. Trueman,2021-07-28 The Oxford Handbook of Calvin and Calvinism offers a comprehensive assessment of John Calvin and the tradition of Calvinism as it evolved from the sixteenth century to today Featuring contributions from scholars who present the latest research on a pluriform religious movement that became a global faith The volume focuses on key aspects of Calvin's thought and its diverse reception in Europe the transatlantic world Africa South America and Asia Calvin's theology was from the beginning open to a wide range of interpretations and was never a static body of ideas and practices Over the course of his life his thought evolved and deepened while retaining unresolved tensions and questions that created a legacy that was constantly evolving in different cultural contexts Calvinism itself is an elusive term bringing together Christian communities that claim a shared heritage but often possess radically distinct characters The Handbook reveals fascinating patterns of continuity and change to demonstrate how the movement claimed the name of the Genevan reformer but was moulded by an extraordinary range of religious intellectual and historical influences from the Enlightenment and Darwinism to indigenous African beliefs and postmodernism In its global contexts Calvinism has been continuously reimagined and reinterpreted This collection throws new light on the highly dynamic and fluid nature of a deeply influential form of Christianity

Christian Women and Modern China Li Ma,2021-01-28 Christian Women and Modern China presents a social history of women pioneers in Chinese Protestantism from the 1880s to the 2010s The author interrupts a hegemonic framework of historical narratives by exploring formal institutions and rules as well as social networks and social norms that shape the lived experiences of women This book achieves a more nuanced understanding about the interplays of Christianity gender power and modern Chinese history It reintroduces Chinese Christian women pioneers not only to women's history and the history of Chinese Christianity but also to the history of global Christian mission and the global history of many modern professions such as medicine education literature music charity journalism and literature

China's Urban Christians Brent Fulton,2016-12-29 China's Urban Christians A Light at Cannot Be Hidden looks at how massive urbanization is redrawing not only the geographic and social landscape of China but in the process is transforming China's growing church as well The purpose of this book is to explore how Christians in China perceive the challenges posed by their new

urban context and to examine their proposed means of responding to these challenges Although not primarily political in nature these challenges nonetheless illustrate the complex interplay between China's Christian community and the Chinese party state as it comes to terms with the continued growth and increasing prominence of Christianity in modern China

Christian Values in Communist China Gerda Wielander, 2013-10-08 This book argues that as new political and social values are formed in post socialist China Christian values are becoming increasingly embedded in the new post socialist Chinese outlook It shows how although Christianity is viewed in China as a foreign religion promoted by Christian missionaries and as such at odds with the official position of the state Christianity as a source of social and political values rather than a faith requiring adherence to a church is in fact having a huge impact The book shows how these values inform both official and dissident ideology and provide a key underpinning of morality and ethics in the post socialist moral landscape Adopting a variety of different angles the book investigates the role Christian thought plays in the official discourse on morality and love and what contribution Chinese Christians make to charitable projects It analyses key Christian publications and dedicates two chapters to Christian intellectuals and their impact on political liberal thinking in China The concluding chapter highlights gender roles the role of the Chinese diaspora and the overlap of the government and Christian agenda in China today The book challenges commonly held views on contemporary Chinese Christianity as a movement in opposition to the state by showing the diversity and complexity of Christian thinking and the many factors influencing it

Babel Church Li Ma, 2021-03-16 Assisted by a diverse mass media industry American evangelicalism has been long plagued by consumerism entrepreneurism and social engineering Churches and movements that carry the name of Christ have become projects of ambition and scandals in the public eye Without fixing its dysfunctions these ministry models have expanded to other parts of the world reaping similar fruits of corruption prejudice and abuses The alarm call of MeToo and ChurchToo movements since 2017 made it more urgent for the global body of Christ to inspect its pathological patterns What kind of response does the MeToo movement require of our public theology and leadership ethics Sociologist Li Ma invites us to re engage with biblical exegesis while being attentive to new mandates of God revealed from MeToo A creative Ellulian integration of sociological analysis and theology Babel Church incisively reveals why American evangelicalism and its global projects have succumbed to the temptations of worldly power at the expense of vulnerable members in the body of Christ

Protest and Resistance in the Chinese Party State Hank Johnston, Sheldon Zhang, 2022-02-24 Although contemporary China is a repressive state protests and demonstrations have increased almost tenfold between 2005 and 2015 This is an astounding statistic when one considers that Marxist Leninist regimes of the past tolerated little or no public dissent How can protests become so common in an autocratic state What are the trends of repression and mobilization This collection helps to answer these compelling questions through in depth analyses of several Chinese protest movements and state responses The chapters examine the opportunities and constraints for protest mobilization and explains their

importance for understanding contemporary Chinese society *Exploring Religious Diversity and Covenantal Pluralism in Asia* Dennis R. Hoover, 2022-12-26 This book examines the growing diversity of religions and worldviews across East Southeast Asia and the factors affecting prospects for covenantal pluralism in these regions According to the Pew Religious Diversity Index half of the world's most religiously diverse countries are in Asia The presence of deep religious worldview difference is often seen as a potential threat to socio political cohesion or even as a source of violent conflict Yet in Asia as elsewhere the degree of this diversity is not consistently associated with socio political problems Indeed while religious difference is implicated in some social challenges there are also many instances of respectful multi faith engagement practical collaboration and peaceful debate Whether or not religious worldview difference is part of a positive pluralism depends on a complex array of legal and cultural conditions This book explores these dynamics and contingencies in Asia structuring the inquiry according to the theory of covenantal pluralism Covenantal pluralist theory calls for a constitutional order characterized by freedom of religion conscience and equality of rights and responsibilities combined with a culture of practical religious literacy and virtues of mutual respect and protection Volume I offers a pioneering exploration of the prospects for this robust and non relativistic type of pluralism in East Southeast Asia Volume II examines South Central Asia The chapters in these volumes originally appeared as research articles in a series on covenantal pluralism published by The Review of Faith International Affairs **Christianity, Femininity and Social Change in Contemporary China** Li Ma, 2019-12-11 Women make up the vast majority of Protestant Christians in China a largely faceless majority as their stories too often go untold in scholarly research as well as popular media This book writes Protestant Chinese women into the history of twenty first century China It features the oral histories of over a dozen women highlighting themes of spiritual transformation politicized culture social mobility urbanization and family life Each subject narrates not only her own story but that of her mother as well revealing a deeply personal dimension to the dramatic social change that has occurred in a matter of decades By uncovering the stories of Christian women in China Li Ma offers a unique window onto the interactions between femininity and Christianity and onto the socioeconomic upheavals that mark recent Chinese history **When Rain Falls** Tyora Moody, 2012-04-24 First her mother then her detective husband Frank and now her best friend Pamela Coleman Murder keeps striking down those who Candace Johnson loves most and now she faces a terrible crisis of faith Enter Detective Darnell Jackson He's determined to track down Pamela's killer but he's going to need Candace's help In Darnell she sees a chance for justice in Candace he sees a beautiful dynamic woman who desperately needs God in her life As Candace reluctantly opens up about some unsavory aspects of her friend's life Darnell starts to see disturbing connections between Pamela's killing and Frank's But the culprit is still out there and if Candace and Darnell can't put the pieces together soon they may be the next victims *#MeToo and Cyber Activism in China* Li Ma, 2021-11-15 This book focuses on the MeToo movement in China critically examining how three competing ideologies have worked in co-opting MeToo activism

China's official communism Western neoliberalism and an emerging Chinese cyber feminism In 2018 China's MeToo cyber activism initially maintained its momentum despite strict censorship presenting women's voices against gendered violence and revealing scripts of power in different sectors of society Eventually though it lost impetus with sloganization and stigmatization under a trio of forces of pressures corporate corruption over politicization by Western media and continued state censorship The book documents the social events and gendered norms in higher education nongovernmental organizations NGOs business and religious circles that preceded and followed high profile cases of alleged sexual abuses in mainland China engaging with sociological scholarship relating to demoralization and power media studies and gender studies Through these entwined theories the author seeks to give both scholars and the general audience in gender studies a window into the ongoing tension in the power spheres of state market and gendered hierarchy in contemporary Chinese society This book will be of interest to students of gender studies China studies media studies and cultural studies
