*Germany 1945* Richard Bessel, 2012-09-27 In 1945 Germany experienced the greatest outburst of deadly violence that the world has ever seen *Germany 1945* examines the country's emergence from the most terrible catastrophe in modern history When the Second World War ended millions had been murdered survivors had lost their families cities and towns had been reduced to rubble and were littered with corpses Yet people lived on and began rebuilding their lives in the most inauspicious of circumstances Bombing military casualties territorial loss economic collapse and the processes of denazification gave Germans a deep sense of their own victimhood which would become central to how they emerged from the trauma of total defeat turned their backs on the Third Reich and its crimes and focused on a transition to relative peace Germany's return to humanity and prosperity is the hinge on which Europe's twentieth century turned For years we have concentrated on how Europe slid into tyranny violence war and genocide this book describes how humanity began to get back out

**Demobilized Veterans in Late Stalinist Leningrad** Robert Dale, 2015-10-29 This book investigates the demobilization and post war readjustment of Red Army veterans in Leningrad and its environs after the Great Patriotic War Over 300 000 soldiers were stood down in this war ravaged region between July 1945 and 1948 They found the transition to civilian life more challenging than many could ever have imagined For civilian Leningraders reintegrating the rapid influx of former soldiers represented an enormous political economic social and cultural challenge In this book Robert Dale reveals how these former soldiers became civilians in a society devastated and traumatized by total warfare Dale discusses how and how successfully veterans became ordinary citizens Based on extensive original research in local and national archives oral history interviews and the examination of various newspaper collections *Demobilized Veterans in Late Stalinist Leningrad* peels back the myths woven around demobilization to reveal a darker history repressed by society and concealed from historiography While propaganda celebrated this disarmament as a smooth process which reunited veterans with their families reintegrated them into the workforce and facilitated upward social mobility the reality was rarely straightforward Many veterans were caught up in the scramble for work housing healthcare and state hand outs Others drifted to the social margins criminality or became the victims of post war political repression *Demobilized Veterans in Late Stalinist Leningrad* tells the story of both the failure of local representatives to support returning Soviet soldiers and the remarkable resilience and creativity of veterans in solving the problems created by their return to society It is a vital study for all scholars and students of post war Soviet history and the impact of war in the modern era

*The Greater Second World War* Andrew N. Buchanan, Ruth Lawlor, 2025-04-15 *The Greater Second World War* challenges the traditional temporal and geographic frameworks of World War II expanding the timeline to include a series of regional conflicts and revolutions that began in 1931 and continued into the mid 1950s These conflicts bookended a central paroxysm defined by the intervention of the United States into every theater of the war rendering it genuinely global The essays within this volume bring top level

accounts of US European and Axis strategic maneuvering into conversation with social histories of bottom up agency in ways that destabilize conventional narratives Working with novel and overlapping scales of time and space and attuned to ongoing and lively debates about the place of the nation state in global history after 1945 the scholars featured in *The Greater Second World War* seek to not only describe the war's beginnings in Asia and Africa rather than in Europe but also trace its ends to the shatter zones of the Soviet frontier the struggles for sovereignty in contested spaces and the long reaches of US imperialism well into the late twentieth century Together their contributions reveal how the cascading imperial and economic crises of the mid twentieth century triggered a series of discrete local and regional struggles that took on the character of a singular unified world war after the entry of the United States into every theater and almost every corner of the world Contributors Marco Maria Aterrano Th W Bottelier Pablo del Hierro Alexandre Fortes Kelly A Hammond Ashley Jackson Naina Manjrekar David Motadel Tejasvi Nagaraja Martin Thomas **A World at War, 1911-1949**, 2019-03-27 In *A World At War 1911 1949* leading and emerging scholars of the cultural history of the two world wars begin to break down the traditional barriers between the historiographies of the two conflicts identifying commonalities as well as casting new light on each as part of a broader mission in honour of Professor John Horne to expand the boundaries of academic exploration of warfare in the 20th century Utilizing techniques and approaches developed by cultural historians of the First World War this volume showcases and explores four crucial themes relating to the socio cultural attributes and representation of war that cut across both the First and Second World Wars cultural mobilization the nature and depiction of combat the experience of civilians under fire and the different meanings of victory and defeat Contributors are Annette Becker Robert Dale Alex Dowdall Robert Gerwarth John Horne Tom's Irish Heather Jones Alan Kramer Edward Madigan Anthony McElligott Michael S Neiberg John Paul Newman Catriona Pennell Filipe Ribeiro de Meneses Daniel Todman and Jay Winter See inside the book

Johnson, 2017-05-18 In 1983 then US Vice President George H W Bush delivered a speech in London He had just been in West Berlin and spoke about his first visit to the Berlin Wall Bush then

went on to describe another German wall he saw after Berlin if anything that wall was an even greater obscenity than its eponym to the north The story of that wall is a fascinating and valuable slice of the history of post war Europe That wall had gone up nearly two hundred miles southwest of Berlin at the edge of divided Germany in the tiny remote farming village of M dlareuth For nearly half the twentieth century the Iron Curtain divided M dlareuth in two In this little valley surrounded by forests and fields the villagers of M dlareuth found themselves on the literal front line of the Cold War The East German state gradually militarized the border through the community while eastern villagers exhibited a range of responses to cope with their changing circumstances reflective of the variable nature of the Cold War border through Germany along the Iron Curtain the size and isolation of the divided place influenced the local character of the division *The Geography of War and Peace : From Death Camps to Diplomats* Colin Flint Professor of Geography Pennsylvania State University,2004-09-24 How and why war and peace occur cannot be understood without realizing that those who make war and peace must negotiate a complex world political map of sovereign spaces borders networks and scales This book takes advantage of a diversity of perspectives as it analyzes the political processes of war and their spatial expression Topics include terrorism nationalism religion drug wars water conflicts diplomacy peace movements and post war reconstruction The Geography of War and Peace Colin Flint,2005 Our world of increasing and varied conflicts is confusing and threatening to citizens of all countries as they try to understand its causes and consequences This book takes advantage of a diversity of geographic perspectives as it analyzes the political processes of war and their spatial expression **The Ethics of Seeing** Jennifer Evans,Paul Betts,Stefan-Ludwig Hoffmann,2018-01-09 Throughout Germany s tumultuous twentieth century photography was an indispensable form of documentation Whether acting as artists witnesses or reformers both professional and amateur photographers chronicled social worlds through successive periods of radical upheaval The Ethics of Seeing brings together an international group of scholars to explore the complex relationship between the visual and the historic in German history Emphasizing the transformation of the visual arena and the ways in which ordinary people made sense of world events these revealing case studies illustrate photography s multilayered role as a new form of representation a means to subjective experience and a fresh mode of narrating the past War and Peace in the Altmark Michael Göllnitz,Eckart Reihlen,Lutz Buchmann,2024-11-15 In 1607 the wealthy childless Prussian lawyer Nicolaus III Gercken dedicated his estate to support the academic education of his grandfather s descendants The Nicolaus Gercken Family Foundation still distributes land lease income to studying family members every year The foundation s successes and crises reflect German history from the 16th to the 21st century War and Peace in the Altmark is a richly illustrated German history book that describes the end of feudalism the development of modern political philosophy and the impact of technological progress on human collaboration up to the 21st century The survival of the foundation despite war confiscation and repression in Germany is a fascinating tale

**Aftershocks** Seva Gunitsky,2017-03-28 Over the past century democracy spread around the world in turbulent bursts of

change sweeping across national borders in dramatic cascades of revolution and reform Aftershocks offers a new global oriented explanation for this wavelike spread and retreat not only of democracy but also of its twentieth century rivals fascism and communism Seva Gunitsky argues that waves of regime change are driven by the aftermath of cataclysmic disruptions to the international system These hegemonic shocks marked by the sudden rise and fall of great powers have been essential and often neglected drivers of domestic transformations Though rare and fleeting they not only repeatedly alter the global hierarchy of powerful states but also create unique and powerful opportunities for sweeping national reforms by triggering military impositions swiftly changing the incentives of domestic actors or transforming the basis of political legitimacy itself As a result the evolution of modern regimes cannot be fully understood without examining the consequences of clashes between great powers which repeatedly and often unsuccessfully sought to cajole inspire and intimidate other states into joining their camps

*Postnational Memory, Peace and War* Nigel Young,2019-11-26 This book examines the phenomenon of modern memory as a reaction to total war an aspiration to truth seeking provoked by the independent forces of modern war and collective violence which is transnational or postnational in character Using examples from prose and poetry film and theatre painting and photography and music and the popular arts the author traces a narrative path through the events of the twentieth century defining the tradition of modern memory in terms of its essentially anti militaristic anti war character as expressed in the manner in which it represents recalled violence and atrocity Through a series of thematic discussions of two world wars the Shoah urbicide and nuclear weapons Postnational Memory explores the formation of transnational memory drawing on examples from industrialized societies with a focus on memory of real events and their reproduction in literature and the arts often including personal recollections that link the self to the represented past As such by asking how the concept of modern memory is constructed through the victims of war and
