West Germany (RLE: German Politics) David Childs, Jeffrey Johnson, 2014-12-17 This book originally published in 1981 provides the student and general reader alike with a fascinating account of the dynamic re-emergence of Germany after the Second World War as one of the world's leading and most powerful states. The book gives extensive coverage to all aspects of the former West Germany's political, social and economic arrangements. As well as dealing with the Basic Law, political parties, Bundestag and government, it also discusses neglected subjects such as education, the armed forces, welfare services, the role of women, the economy and industrial relations and the mass media.

Militarization and Democracy in West Germany's Border Police, 1951-2005 David M. Livingstone, 2024 A social history of West Germany's Bundesgrenzschutz (BGS) Federal Border Police that complicates the telling of the country's history as a straightforward success story. The 2020 murder of George Floyd by Minneapolis police officers shows that police violence is still a problem in Western democracies. Floyd's murder prompted some critics to hail the German police as a model of democratic policing that should be emulated. After 1945, Germany's police forces had supposedly shed the militarization and authoritarian impulses still prevalent in other nations' forces. These uncritical appraisals, however, deserve closer analysis. This book is a social history of West Germany's Bundesgrenzschutz (BGS), a federal border guard established in 1951 that became reunified Germany's first national police force. It argues that the BGS revived authoritarian traditions of militarized policing and kept them alive long into the postwar era, even though the country was supposedly consigning these problematic legacies to its past. The BGS was staffed and led by Wehrmacht and SS veterans until the late 1970s, and while West Germany was democratizing, BGS commanders were still planning to fight wars and were teaching its officers street fighting tactics. While the end outcome was positive, the study contributes to the growing body of recent research that complicates the writing of the Federal Republic's history as a success story. Dealing explicitly with post-fascist West Germany's struggle to establish a democratic police force, the book enters a conversation with studies concerned with democratization, security and Germany's effort to overcome its Nazi past. DAVID M. LIVINGSTONE holds a PhD in History from the University of California, San Diego. He is retired as Chief of Police of Simi Valley, California, and is an adjunct professor at California Lutheran University.

Penslar, 2015-10-27 A historical reevaluation of the relationship between Jews military service and war Jews and the Military is the first comprehensive and comparative look at Jews involvement in the military and their attitudes toward war from the 1600s until the creation of the state of Israel in

1948 Derek Penslar shows that although Jews have often been described as people who shun the army in fact they have frequently been willing even eager to do military service and only a minuscule minority have been pacifists Penslar demonstrates that Israel's military ethos did not emerge from a vacuum and that long before the state's establishment Jews had a vested interest in military affairs Spanning Europe North America and the Middle East Penslar discusses the myths and realities of Jewish draft dodging how Jews reacted to facing their coreligionists in battle the careers of Jewish officers and their reception in the Jewish community the effects of World War I on Jewish veterans and Jewish participation in the Spanish Civil War and World War II Penslar culminates with a study of Israel's War of Independence as a Jewish world war which drew on the military expertise and financial support of a mobilized global Jewish community He considers how military service was a central issue in debates about Jewish emancipation and a primary indicator of the position of Jews in any given society Deconstructing old stereotypes Jews and the Military radically transforms our understanding of Jews historic relationship to war and military power *Literature at War, 1914-1940* Wolfgang G. Natter, 1999-01-01 This examination of German texts written about World War I offers an understanding of the relationship between culture and warfare It focuses not only on the literary voices of German authors but also on the wartime agencies institutions and individuals that produced material during the War Transregional versus National Perspectives on Contemporary Central European History Michal Vít, Magdalena M. Ahuja, 2006 *The Defeat of the Damned* Douglas E Nash, 2023-10-15 Doug Nash addresses a crucial period of December 1944 This latest of his works which all stand on their own merits is the

best read to date Marine Corps Gazette One of the most notorious yet least understood body of troops that fought for the Third Reich during World War II was the infamous *Sondereinheit Dirlewanger* or the Dirlewanger Special Unit Formed initially as a company sized formation in June 1940 from convicted poachers it served under the command of SS Obersturmführer Oskar Dirlewanger one of the most infamous criminals in military history First used to guard the Jewish ghetto in Lublin and support security operations carried out in occupied Poland by SS and Police forces the unit was soon transferred to Belarus to combat the increasingly active Soviet partisan movement After assisting in putting down the Warsaw Uprising during August September 1944 by November of that year it had been enlarged and retitled as the 2 SS Sturmbrigade Dirlewanger One month later it fought one of its most controversial actions near the town of Ipolysag Hungary now known by its Slovak name of Ipoly between 13 and 18 December 1944 As a result of its overly hasty and haphazard deployment lack of heavy armament and a confusing chain of command it was virtually destroyed by two Soviet mechanized corps Consequently the Wehrmacht leadership blamed Dirlewanger and the performance of his troops for the encirclement of the Hungarian capital of Budapest during late December 1944 that led to the annihilation of its garrison two months later The brigade's defeat at Ipolysag also led to its compulsory removal from the front lines by General der Panzertruppe Hermann Balck and its eventual shipment to a rest area where it would be completely rebuilt so thorough was its destruction Despite its lackluster performance the brigade was rebuilt once again and sent to East Prussia in February 1945 but never recovered from the thrashing it received at the hands of the 6th Guards Army in December

Hitler's Home Front Don A Gregory, Wilhelm R Gehlen, 2016-09-30 A candid and revealing memoir shows a normal boy and a family at war and in its aftermath determined to do what it took to survive fascinating The Great War When Adolf Hitler and the Nazi Party came into power in 1933 he promised the downtrodden demoralized and economically broken people of Germany a new beginning and a strong future Millions flocked to his message including a corps of young people called the Hitlerjugend the Hitler Youth By 1942 Hitler had transformed Germany into a juggernaut of war that swept over Europe and threatened to conquer the world It was in that year that a nine year old Wilhelm Reinhard Gehlen took the Jungvolk oath vowing to give his life for Hitler This is the story of Wilhelm Gehlen's childhood in Nazi Germany during World War II and the awful circumstances which he and his friends and family had to endure during and following the war Including a handful of recipes and descriptions of the strange and sometimes disgusting food that nevertheless kept people alive this book sheds light on the truly awful conditions and the twisted mistaken devotion held by members of the Hitler Youth that it was their duty to do everything possible to save the Thousand Year Reich

[Transforming Warriors](#) Peter Haldén, Peter Jackson, 2016-05-12 This volume offers an interdisciplinary study of how different cultures have sought to transform individuals into warriors War changes people however a less explored question is how different societies want people to change as they are turned into warriors When societies go to war they recognize that a boundary is being crossed The participants are expected to do things that are

otherwise prohibited or at least governed by different rules This edited volume analyses how different cultures have conceptualized the transformations of an individual passing from a peacetime to a wartime existence to become an active warrior Despite their differences all societies grapple with the same question how much of the individual's peace self should be and can be retained in the state of war The book explores cases such as the Nordic berserkers the Japanese samurai and European knights as well as modern soldiers in Germany Liberia and Sweden It shows that archaic and modern societies are more similar than we usually think both kinds of societies use myths symbols and rituals to create warriors Thus this volume seeks to redefine theories of modernization and secularization It shows that military organizations need to take myths symbols and rituals seriously in order to create effective units This book will be of much interest to students of military studies war studies sociology religion and international relations in general

Women, Children, and the Collective Face of Conflict in Europe, 1900-1950 Nupur Chaudhuri, Sandra Trudgen Dawson, 2023-10-17 Europe was in turmoil during the first half of the twentieth century The political stability that emanated from nineteenth century political liberalism began to break down reaching climaxes in the Great War the Spanish Civil War and the Second World War Revolutions in Russia and Spain threatened parliamentary governments and the Armenian genocide that began in 1915 foreshadowed the systematic destruction of European Jews in the 1930s and 1940s Dictators seized power and established authoritarian regimes that stymied democratic expression and censored the press Much of the scholarship on each of the conflicts has tended to focus on the military male and the civilian female binary Women and children experienced every conflict during this tumultuous period as civilians consumers victims exiles and combatants As histories of women and war suggest there are exciting new areas of research and scholarship that resist simplistic binaries Women were not simply civilians or victims They were actors in the minutiae of wars revolutions dictatorships and genocides Children were present in these conflicts and not invisible as many histories suggest They too were actors and often politicized by propagandist literature and sectarian education through their own experiences and the politics of their families This collection seeks to complicate the child adult distinction and examine the experiences of women and children as lenses to view a more collective face of conflict While the volume brings to attention conflicts in Europe the editors acknowledge the global ramifications of the revolutions wars and genocides as well as the multitude of individual experiences This collection seeks to expand understanding of the personal as the political in European conflicts from 1900 1950 We believe the focus on women and children offers a diverse perspective on five tumultuous decades of European history
