## PREFACE

THIS little book is intended to meet the special needs of American students as a background for all courses in German literature. Five years of experiment at Tassar College, each year with a different book, have proved to us that there is no history of German literature in German suited to the use of our students. Those published in this country have sacrificed everything to simplicity of style and of vocabulary. Those issued in Germany and for Germans are written in very difficult and condensed language and they also assume in those who use them a knowledge of German history and German social conditions which we cannot expect our students to have. The features which will especially recommend this book to those teachers who believe that the foreign tongue should be the language of the class-room and the medium of instruction in all modern language courses are the following: First, the style and vocabulary are so simple that the book can be used by Freshmen entering college with German as Major, also in the third year by those who begin German in college and in the fourth year in the High School by those who study it there. Second, while the literature is treated as an organic whole and its development followed from its origin to the present time, the emphasis is laid on the most important periods and authors and all names which have significance only for the specialist are omitted. Third, brief introductory chapters show the historical events and the changes in economic and social conditions
