Get A Great Job When You Dont Have A Job:

Dreamcrafting Paul Levesque, Art McNeil, 2003-02-16 Many people set out to achieve a dream starting a business or learning to play the piano or publishing a book but they don't succeed and the dream fizzles away. In many cases these people have lots of skills and expertise such as deep knowledge of the business or career they are interested in so why don't they succeed? Paul Levesque and Art McNeil have discovered that making a dream come true requires cultivating skills of a higher order: macroskills that inevitably spell the difference between success and failure no matter what the specifics of a person's dreams are. These are the skills Dreamcrafting outlines in detail.

Over time depending on the mix of our choices we are either headed for breakdowns or breakthroughs. Our power is in how we choose to lead ourselves within the breakdown or the breakthrough and in order to lead in business we must be clear on the leadership we provide to ourselves.
