Segregation in Language Education Ann Wand, 2023-10-18 This book sets out to try to understand why segregated schooling still exists especially in northern Italy in South Tyrol where they practice separate but equal education Supported by the UN the Austrian and Italian governments the province is considered a peace model due to its consociational approach to dealing with the region s Nazi and Fascist past

which has led to a negative peace The autonomy statutes which derived from this peace resulted in an education system that is linguistically segregated for the purposes of protecting South Tyrol's ethnolinguistic minorities Broken into two parts the book begins with the background history of the province before describing the region's geographical layout demographics local identity and its three part schooling system By examining responses to South Tyrol's education system and its impact on local group dynamics this book explores the implications that segregated schooling may have on second language acquisition This case study will be of interest to students and scholars of Italian studies anthropology linguistic ethnography sociolinguistics and second language education

Second Language Acquisition Theory and Pedagogy Fred R. Eckman, Jean Mileham, Rita Rutkowski Weber, Diane Highland, Peter W. Lee, 2013-10-08 A volume on second language acquisition theory and pedagogy is at the same time a mark of progress and a bit of an anomaly The progress is shown by the fact that the two disciplines have established themselves as areas of study not only distinct from each other but also different from linguistic theory This was not always the case at least not in the United States The anomaly results from the fact that this book deals with the relationship between L2 theory and pedagogy despite the conclusion that there is currently no widely accepted theory of SLA Grouped into five sections the papers in this volume consider questions about L2 theory and pedagogy at the macro level from the standpoint of the L2 setting consider input in terms of factors which are internal to the learner examine the question of external factors affecting the input such as the issue of whether points of grammar can be explicitly taught deal with questions of certain complex linguistic behaviors and the various external and social variables that influence learners and discuss issues surrounding the teaching of pronunciation factors that affect a non native accent

The Many Voices of Contemporary Piedmontese Writers Andrea Raimondi,2016-12-14 What do Cesare Pavese Beppe Fenoglio and Primo Levi have in common Apart from their obvious Piedmontese origins they and other writers coming from this Italian region share a certain tendency towards multilingualism which is a characteristic that has not been comprehensively investigated over the years This study presents a linguistic analysis of a group of modern and contemporary

narratives written by Piedmontese authors The novels and short stories here examined are notable for the intriguing way in which they move between a variety of idioms Standard Italian regional vernaculars English and pastiches with rare excursions into French With the support of linguistic and philosophical theories on the relation between identity alterity and language the book demonstrates how the use of non standard parlances is fundamental in both reinforcing the sense of belonging to specific social groups and highlighting the presence of dissimilar identities and other cultures A sociolinguistic study and an analysis of the political and historical context of the region are also provided in order to illustrate how the combination of different varieties in literature reflects the region s peripheral position as well as the political and social changes that have occurred in Piedmont since the nineteenth century This book fills a notable gap and casts new light on Piedmontese literature
