Caffie Greene and Black Women Activists Kofi-Charu Nat Turner,2021-09-20 This book uses the life and work of Caffie Greene one of the most influential grassroots community activists and public health educators in twentieth century Los Angeles as a platform to examine the wider story of Black women activists in recent United States history Caffie Greene worked to foster the development of unions Black elected officials and Black youth leaders within the Black Panthers and worked with a legion of women leaders to further progress in the fields of health care education youth employment welfare rights public transportation police reform and electoral politics The book traces Greene s journey from her childhood plantation life in Arkansas to her emergence as one of the most distinguished civil rights activists in Los Angeles history It provides in depth meticulously researched archival material to amplify the voice of a pivotal woman and analyzes how her contributions impacted the movements of the postwar era Examining the pedagogical aspects of social protest as the main resource for consciousness raising among historically marginalized youth and adults Caffie Greene and Black Women Activists asks the essential question What can we learn about

grassroots community organizing that we do not yet know by centering a Black woman like Caffie Greene's life. What are the continuities in Greene's political work between Cold War radicalism, Black Power, and Black feminism, and that strict binaries like integrationist and Black separatist nationalism and socialism and feminism and Black Power obscure? This book will be of key interest to students and scholars studying Black activist history, Black feminism, and twentieth-century United States history.

Advances in Medical Education A.J.J.A. Scherpbier, Cees P.M. van der Vleuten, J.J. Rethans, A.F.W. van der Steeg, 2012-12-06 About 550 registrants from 51 different countries attended the Seventh Ottawa Conference on Medical Education and Assessment in Maastricht. We received 525 abstracts for the conference, divided in thematic poster sessions and platform presentations. Organising the conference was an honour, and we tried to meet the high standards of a friendly and relaxed atmosphere, which has characterized previous Ottawa conferences. During and after the conference, about 250 papers were submitted for publication in the conference proceedings, leaving us little time for a post-conference depression. Despite the large number of papers, the editors have attempted to review and edit the papers as carefully as possible. Occasionally, however, correspondence exceeded reasonable deadlines, preventing careful editing of a small number of the papers. Although we felt that our editorial task was not quite finished, we nevertheless decided to include these papers. We thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests. We are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education. The editors want to thank Jocelyn Flippo Berger, whose expertise with desktop publishing and perseverance was a great help.

EBOOK: A Postgraduate's Guide to Doing a Literature Review in Health and Social Care Helen Aveyard, Sheila Payne, 2016-01-16 This text is a comprehensive, highly readable guide to how to undertake a literature review in health and social care, tailored specifically for postgraduate study. Essential reading for all those undertaking any study at postgraduate level, the book provides clarity and a step-by-step approach to doing a literature review from start to finish, which will enable you to identify which type of review is appropriate for your study. Select the literature that you need to include in your review. Search for, appraise, and analyse relevant literature. Write up your review. Crucially, the book explores the common features of a broad range of types of literature review, which serve different functions, including the literature review that is a prerequisite prior to a larger empirical study and the literature review that is a study in its own right. With real-life examples of written research and succinct summaries at the end of each chapter, *A Post Graduate's Guide to Doing a Literature Review in Health and Social Care* is the ideal text for students wanting to get the very most from their study. Consistently clear and concise, and using contemporary examples of research applied to the descriptions of methodology, this guide will be useful and accessible at whichever stage in your postgraduate project you come across it. For those people pondering the most suitable approach to literature reviewing, to use it provides answers to fundamental and technical questions. For those already immersed in their chosen approach, the style and layout will make it a refreshing resource. The breadth of content will

Proceedings of the International Assembly of the Inter-state Post-Graduate Medical Association of North America Interstate Postgraduate Medical Association of North America. International Assembly,1941 **British Medical Journal** ,1925 **From Kamptee to Dallas** Zahiruddin Khurshid,2013-06-28 Web Text Introduction There is a general perception about the authors of autobiographies that they tell truth about other people while they need to tell truth about themselves I have tried to be objective throughout my book and highlighted my failures and mistakes too The present book is an account of my life that began on February 8 1947 when I was born in the Sarpanch Mohammad Khurshid Haq family in a small town on the banks of the river Kanhan known as Kamptee in India Sarpanch is a title used for the head of Panchayat The title remained in our family for three generations After my father died Anis bhaijan elder brother would have become the next sarpanch but he had already migrated to Pakistan in 1947 and later we all left I take great pride to be part of the Khurshid family which has its roots in Kamptee but now known internationally through the contributions of several family members not only in library and information science but also in physics business administration computer engineering medicine and biology During my sixty six years of life I migrated or relocated to four different countries and benefitted from their rich cultures When I look back into the history I find the following four distinct periods each representing the years that I spent in one country before migration or relocation to another 1947-1964 India 1964-1974 Pakistan 1974-2011 Saudi Arabia 2011-present United States The culture social system history tradition arts language literature education system and others will definitely influence anybody who has spent ten years or more in a country Some may adopt a particular part of the local culture quickly such as clothing language food and so on It is very common to see nurses from the Philippines learn Arabic in a few months and start talking to Saudi patients or visitors in Arabic with fluency because of the demand of their jobs I feel sorry that I cannot speak Arabic as good as those Asian workers speak However their languages and scripts are completely different from Arabic Now one can understand that having lived in three countries for ten years or more I have enriched my knowledge and skills and enhanced other capabilities as information professional I believe in the principle of give and take I have benefitted from world knowledge all my life now it is my turn to give something to the seekers of knowledge in return Life is not about just take take and take it is about both give and take I find writing about myself as the most difficult job During my professional career I have worked with so many bosses including deans directors and heads of departments

Before they left KFUPM or went back to their departments on the completion of their term I requested recommendation letters from each one of them Except my American bosses all Saudi bosses asked me to first prepare a draft and show it to them so that they could make any changes if needed I had to be a little modest in preparing those drafts I always felt that if the bosses had written those letters themselves they would have used more superlatives for me Therefore I am already feeling a little uncomfortable writing my own biography I will try to make this volume an objective and fair account of my personal and professional life
