González,2017-09-05 How Bill de Blasio s mayoral victory triggered a seismic shift in the nation s urban political landscape and what it portends for our cities in the future In November 2013 a little known progressive stunned the elite of New York City by capturing the mayoralty by a landslide Bill de Blasio s promise to end the Tale of Two Cities had struck a chord among ordinary residents still struggling to recover from the Great Recession De Blasio s election heralded the advent of the most progressive New York City government in generations Not since the legendary Fiorello La Guardia in the 1930s had so many populist candidates captured government office at the same time Gotham in other words had been suddenly reclaimed in the name of its people How did this happen De Blasio s victory journalist legend Juan Gonz lez argues was not just a routine change of government but a popular rebellion against corporate friendly policies that had dominated New York for decades Reflecting that broader change liberal Democrats Bill Peduto in Pittsburgh Betsy Hodges in Minneapolis and Martin Walsh of Boston also won mayoral elections that same year as did insurgent Ras Baraka in Newark the following year This new generation of municipal leaders offers valuable lessons for those seeking grassroots reform Kindergarten Panic

Bailey A. Brown,2025-08-19 How school choice reproduces inequality by creating gendered and socioeconomic decision making labor for parents School choice policies have proliferated in recent years with parents forced to navigate complex admission processes In New York City families have more options than ever before but the search for the right school has proven to be time consuming painstaking and anxiety provoking work In Kindergarten Panic Bailey Brown examines the experiences of parents as they search for elementary schools finding that socioeconomic inequalities and persistent disparities in resources information access and decision making power contribute to broad variation in how families develop and manage their school choice labor strategies The labor that parents invest in searching for schools is unevenly distributed and shaped by gender socioeconomic background and neighborhood contexts Drawing on interviews with more than a

hundred parents of elementary school students in New York City Brown shows how inequality manifests itself as parents and students deal with the uncertainties of the school choice process By conceptualizing school decision making as labor she makes visible the often unseen work that goes into making educational decisions for children Brown argues that recognizing school choice as labor both deepens our theoretical understanding of the challenges families confront and identifies vast disparities in parents labor across socioeconomic and gender divisions If parents continue to be charged with searching for schools we must take seriously how school choice policies reproduce the kind of inequality they are intended to reduce and we must invest in providing equitable access to high quality public schooling for all families

The Meritocracy Trap Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people
