Getting Others To Do What You Want:

Get People to Do What You Want Gregory Hartley, Maryann Karinch, 2008-01-01 Presents ways to use methods of negotiation to gain personal and career benefit **Manipulation** Christian Coons, Michael Weber, 2014 A great deal of scholarly attention has been paid to coercion Less attention has been paid to what might be a more pervasive form of influence manipulation The essays in this volume address this relative imbalance by focusing on manipulation examining its nature moral status and its significance in personal and social life *Leadership Tips* Gary Young, 2008-12-01

Micropolitics in the Multinational Corporation Florian A. A. Becker-Ritterspach, Susanne Blazejewski, Christoph Dörrenbächer, Mike Geppert, 2016-05-26 This book offers the first comprehensive discussion of the foundations applications and new directions of politics perspectives in MNCs *The 10 Cardinal Sins of Leadership* Casey J. Bedgood, 2022-06-07 Why do some leaders succeed and others fail Is there a magic ingredient that the leaders must consider in their career journey to ensure the joy ride does not turn into a nightmare What is the key to maximizing leaders success in ways that are sustainable long term The purpose of this book is to provide a simple road map for leaders aspiring leaders students and anyone interested in the art of leadership to succeed in high risk environments Often leaders don t know what they don t know One main culprit is the lack of assessing measuring analyzing and addressing risk Simply put we don t know what we don t measure What is not known can and will eventually harm leaders organizations and their customers Change is the new normal and only constant As change grows so does risk Risk can be a friend or foe to thought leaders It all depends on perspective insight and knowledge Ignorance is never bliss and leaders must leverage knowledge to mitigate risks at every turn In *The 10 Cardinal Sins of Leadership* What Thought Leaders Must Never Do to Succeed in High Risk Environments readers will learn How to identify measure analyze and address various types of risk How to determine if risk is a friend or a foe Strategic planning concepts that will allow leaders to magnify plan for leverage and marginalize risks long term Methods to ensure that inclusion efforts do not become overly exclusive thus excluding key stakeholders and creating new levels of organizational risk Techniques for looking back at organizational yesteryears to create a high performing journey map for the road ahead The value of perspective how we view things determines how we respond or wait to be disrupted unknowingly

Practical Principles of Persuasion Kathryn Sue Young, 2021-09-29 How do you convince someone to agree with you What persuasive elements are required to elicit compliance This interactive accessible approach looks at principles of persuasion as they apply to everyday lives Framing persuasion from an intrapersonal and interpersonal perspective captures reader interest and makes the subtlety of social influence understandable The importance of building and maintaining personal credibility is reinforced throughout the text Ethical issues are raised as persuasive strategies are discussed Clear practical suggestions for effective persuasion are presented in an engaging fashion and encourage the application of meaningful insights for stronger interpersonal relationships Learning the skills that motivate people to change behavior

vastly improves the reader's ability to persuade others effectively The discussion also facilitates critical thinking for recipients of persuasive messages Practical Principles of Persuasion is ideal for classroom or online learning because of its concise lessons and interactive approach The workbook provides a solid foundation for the key concepts and practices of persuasive communication

The Rhetorical Turn Herbert W. Simons, 2011-02-15 We have only recently started to challenge the notion that serious inquiry can be free of rhetoric that it can rely exclusively on hard fact and cold logic in support of its claims Increasingly scholars are shifting their attention from methods of proof to the heuristic methods of debate and discussion the art of rhetoric to examine how scholarly discourse is shaped by tropes and figures by the naming and framing of issues and by the need to adapt arguments to ends audiences and circumstances Herbert W Simons and the contributors to this important collection of essays provide impressive evidence that the new movement referred to as the rhetorical turn offers a rigorous way to look within and across the disciplines The Rhetorical Turn moves from biology to politics via excursions into the rhetorics of psychoanalysis decision science and conversational analysis Topics explored include how rhetorical invention guides scientific invention how rhetoric assists political judgment and how it integrates varying approaches to meta theory Concluding with four philosophical essays this volume of case studies demonstrates how the inventive and persuasive dimensions of scholarly discourse point the way to forms of argument appropriate to our postmodern age

Leading For Regeneration John Hardman, 2013-07-03 This book presents the regenerative leadership framework that has emerged from doctoral research and consulting work with successful sustainability leaders and their organizations in business education and community The framework synthesizes the levels of awareness the leadership styles and behaviours and the organizational arrangements that correlate most significantly across these domains Most importantly the overwhelming majority of the leaders in this work agree that individual and collective consciousness development is critical to transforming the culture of organizations for sustainability and beyond The term regenerative has not been chosen arbitrarily but to provide an alternative to the notion of sustainability which many of the leaders featured here indicate has become insufficient to describe what needs to be done economically socially and environmentally if we are to ensure a flourishing world for present and future generations This work in turn has led to the development of the Regenerative Capacity Index RCI a tool designed to assess an organization's readiness to engage in regenerative practice From this evaluation of an organization's regenerative capacity it becomes possible to design a strategy for regeneration that considers all levels of its environmental social and economic impact both internally and externally in the local and global community Among its major findings the book argues that the more evolved sustainability leaders are becoming increasingly dissatisfied with the construct of sustainability and indicate the need for a profound cultural shift towards regenerative human systems In this framework regenerative organizations are driven by a sense higher purpose and leadership is exercised horizontally and collaboratively Leaders and followers engage in generative conversations to create desirable futures which are then

backcasted to eliminate unanticipated consequences Throughout leaders emphasize the critical importance of engaging in personal and collective consciousness development or inner work in order to make regenerative practices possible

Children's Language K. E. Nelson, 2014-03-18 First published in 1983 This series Children's Language reflects the conviction that extensive work on entirely new fronts along with a great deal of reinterpretation of old front data will be necessary before any persuasive and truly orderly account of language For all volumes in the series there is a common scheme of operation with two tactics First to give authors sufficient planning time and freedom to arrive at a chapter length account of their area of thinking which vividly shows both the progress and the problems in that area with the author of each chapter free to find a workable proportion of new experimental contributions review and theory The second tactic concerns the selection of topics for each volume This is Volume 4 Structures about language and thought and children as employed in certain other fields may well be shaken and stimulated particularly in education sociology anthropology literature and language remediation

Ethics in Medicine Jennifer Jackson, 2006 How in a secular world should we resolve ethically controversial and troubling issues relating to health care Should we as some argue make a clean sweep getting rid of the Hippocratic ethic such vestiges of it as remain Jennifer Jackson seeks to answer these significant questions establishing new foundations for a traditional and secular ethic which would not require a radical and problematic overhaul of the old These new foundations rest on familiar observations of human nature and human needs Jackson presents morality as a loose anatomy of constituent virtues that are related in different ways to how we fare in life and suggests that in order to address

problems in medical ethics a virtues based approach is needed Throughout attention is paid to the role of philosophy in medical ethics and how it can be used to clarify key notions and distinctions that underlie current debates and controversial issues By reinstating such concepts as justice cardinal virtue and moral duty Jackson lays the groundwork for an ethics of health care that makes headway toward resolving seeming dilemmas in medical ethics today This penetrating and accessible book will be invaluable to students of sociology and health care as well as those who are interested in the ethical uncertainties faced by the medical world *An Integrated Approach to Communication Theory and Research* Don W.
