

GENERAL DESCRIPTION

Effective January 1977 2.0 litre engine Transit vehicles are available with C3 automatic transmission as an optional extra.

Apart from minor modifications this transmission will be similar to the C3 transmission assembly already fitted to passenger cars, Fig. 1.

The selector lever is located in an instrument panel gear shift gate, with the drive positions required being selected by appropriate lever operation.

Position sequence and symbols are shown on the selector escutcheon.

In the event of impact the selector lever will engage in the gear shift gate. It may subsequently be withdrawn again and a clearly audible clicking noise will indicate proper lever engagement (in the absence of such noise it may be necessary for the lever to be moved slightly to the right or left).

For identification of transmission provision is made for a metal tag on extension housing.
