American Literature in Transition, 1950-1960 Steven Belletto,2017-12-28 American Literature in Transition 1950 1960 explores the under recognized complexity and variety of 1950s American literature by focalizing discussions through a series of keywords and formats that encourage readers to draw fresh connections among literary form and concepts institutions cultures and social phenomena important to the decade The first section draws attention to the relationship between literature and cultural phenomena that were new to the 1950s The second section demonstrates the range of subject positions important in the 1950s but still not visible in many accounts of the era The third section explores key literary schools or movements associated with the decade and explains how and why they developed at this particular cultural moment The final section focuses on specific forms or genres that grew to special prominence during the 1950s

Taken together the chapters in the four sections not only encourage us to rethink familiar texts and figures in new lights but they also propose new archives for future study of the decade

Anthropocosmic Theatre Nichos Nunez, 2005-06-28 First published in 1997 Routledge is an imprint of Taylor Francis an informa company Chicano Timespace Miguel R. López, 2001 The premature death of Ricardo Sánchez in 1995 marked the passing of an almost legendary figure in Chicano literature and in the Chicano political movement A troubadour of Chicano Movement poetry he established an anti aesthetic that became the norm Sánchez's autobiographical poetry forges a link between genres of the past and present and establishes him as the first great tragic figure of contemporary Chicano literature In a body of work that spanned spatial temporal and cultural boundaries Sánchez dealt with issues of power and of linguistic and cultural barriers between Anglo Native American and Mexican American peoples in the United States While he lived critics showed reluctance to engage Sánchez's work fully perhaps in part because of his reputation as a confrontational even outrageous individual Focusing on *Canto y grito mi liberación* and *Hechizospells* Miguel R López examines Sánchez's work and places him in the context of the past present and future of Chicano literature López explains clearly the relation of time and space in Sánchez's prolific work and shows him as a writer committed to his craft as well as to his political stance In the end the portrait that emerges is of a poet whose work was linguistically and thematically complex and one who was more passionate controversial and forthright in his expression than any other contemporary Chicano writer

Octavio Paz Oliver Kozlarek, 2015-07-15 Octavio Paz is one of the most recognized Latin American writers His essays offer a sophisticated critique of global modernity Although his work has advanced many of the arguments that orient our contemporary debates in the social sciences and in philosophy it has hardly ever been seriously taken into consideration in these disciplines The volume suggests that this may have been a mistake Its authors indicate ways in which Paz essays can be read as substantial contributions to the contemporary debates in various fields The aim of this book is to present to a non Spanish speaking audience some of the discussions about Paz offerings to the ongoing debates It also wants to make a clear statement a critique of our contemporary modernity must go hand in hand with a non exclusive intercultural understanding of Humanism

The Nigrescent Beyond Ricardo A. Wilson, 2020-07-15 Despite New Spain s significant participation in the early transatlantic slave trade the collective imagination of the Mexican nation evolved in the nineteenth and twentieth centuries to understand itself as devoid of a black presence In *The Nigrescent Beyond* Ricardo Wilson proposes a framework for understanding this psychic vanishing of blackness and thinks through how it can be used both to productively unsettle contemporary multicultural and postracial discourses within the United States and to further the interrogations of being and blackness within the larger field of black studies Wilson models a practice of reading that honors the disruptive possibilities offered by an ever present awareness of that which lies irretrievable beyond the horizon of vanishing itself In doing so he engages with historical accounts detailing maroon activities in early New Spain contemporary coverage of the push to make legible Afro Mexican identities the electronic archives of the Obama presidency and the work of Carlos de Sig enza y G ngora Octavio Paz Ivan Van Sertima Miguel Covarrubias Steven Spielberg and Colson Whitehead among others

Distant Relation Eoin S. Thomson, 2001-01-24 *The Distant Relation* breaks down the artificial division between philosophy and literature by weaving contemporary philosophic arguments through close readings of Carpentier Rulfo Paz and Garcia Marquez Thomson draws the reader into the largely uninhabited space between philosophy and literature providing new critical strategies that allow text and reader to respond to the very distance they share These strategies involve a reconceptualization of distance that recognizes the productive and affirmative nature of separation *The Distant Relation* will attract anyone interested in the ongoing struggle to overcome conventional interpretations of language time and identity within the broader context of philosophical trends and Spanish American
