Seeing in Spanish Ryan Prout, Tilmann Altenberg, 2011-05-25. Seeing in Spanish brings together 22 chapters which share a focus on aspects of visual cultures from the Spanish speaking world. Together these chapters address film, photography, cover art, body art, posters, television, architecture, ekphrasis, biography, murals, graffiti, and digital photo montage. Between Don Quixote and Daddy Yankee, the essays move from the seventeenth century to the present and traverse Europe, the Americas, and cyberspace. The book is divided into five sections. The first of these on Spain includes chapters on the representation of women on LP covers in Spain in the 60s and 70s, portrayals in Spanish cinema of Saint Teresa, Luis Buñuel's adaptation of *Tristana*, urban and rural space in recent Spanish documentary film, Catalan television, fine art in Don Quixote, and visions of adoption in three narratives by Spanish writers and filmmakers. The second section on Mexico and Peru includes chapters on the fragmentary body in images of Mexico, the art of Abraham Angel, Jesús Ruiz Durand's agrarian reform posters, Diego Rivera's murals, and the role of artistic production in staging the 2006 Oaxaca conflict. The third section on Cuba looks at the portrayal of women and of children in recent cinema from the island. It also examines Nancy Morejon's celebration of the life and art of exiled Cuban artist Ana Mendieta. Section four includes chapters on Chile and Argentina. It addresses street art and graffiti, new forms of publishing, Chilean cinema after Pinochet, and Violeta Parra's appliqué and collage works. Section five embraces Colombia, Bolivia, and virtual spaces. The contributions to this last section of the book examine childhood in Colombian cinema, the online creativity of pro and anti fans of reggaeton, and the photographic diaries of Tifor Rees, the UK's first ambassador to Bolivia. In addition to the geopolitical structure which underpins the book's five sections, the introduction suggests pathways through the contributions focussed on public art and graffiti, women, children, cyberspace, and diplomacy and reconstruction. Seeing in Spanish includes 50 illustrations, stills from films, photographs, reproductions of paintings, and screen grabs from the internet which complement the chapters' analyses of aspects of Hispanic visual cultures. To aid accessibility, footnotes throughout the book provide English translations of all references from texts in other languages. Taken together, the book's 22 chapters make a valuable contribution to the existing literature on figures like Don Quixote and Saint Teresa. They also break new ground in approaches to novel areas of scholarship such as sleeve design, artisanal book production, and digital image manipulation. The book will appeal to students and scholars of Spain and Latin America, as well as to a general readership with an interest in the visual cultures of the Spanish speaking world. [A History of Ecology and Environmentalism in Spanish American Literature](#) Scott M. DeVries, 2013-09-05 A History of Ecology and Environmentalism in Spanish American Literature undertakes a comprehensive ecocritical examination of the region's literature from the foundational texts of the nineteenth century to the most recent fiction The book begins with a

consideration of the way in which Argentine Domingo Faustino Sarmiento's views of nature through the lens of the categories of civilization and barbarity from *Facundo* 1845 are systematically challenged and revised in the rest of the century. Subsequently this book develops the argument that a vital part of the cultural critique and aesthetic innovations of Spanish American modernismo involve an ecological challenge to deepening discourses of untamed development from Europe and the United States. In other chapters many of the well established titles of regional and indigenista literature are contrasted to counter traditions within those genres that express aspects of environmental justice, deep ecology, the relational role of emotion in nature protectionism and conservationism, even the rights of non human nature. Finally the concluding chapters find that the articulation of ecological advocacy in recent fiction is both more explicit than what came before but also impacts the formal elements of literature in unique ways. Textual conventions such as language, imagery, focalization, narrative sequence, metafiction, satire and parody represent innovations of form that proceed directly from the ethical advocacy of environmentalism. The book concludes with comments about what must follow as a result of the analysis including the revision of canon, the development of literary criticism from novel approaches such as critical animal studies and the advent of a critical dialogue within the bounds of Spanish American environmentalist literature.

A History of Ecology and Environmentalism in Spanish American Literature attempts to develop a sense of the way in which ecological ideas have developed over time in the literature, particularly the way in which many Spanish American texts anticipate several of the ecological discourses that have recently become so central to global culture, current environmentalist thought and the future of humankind.

Romantic Prose Fiction Gerald Ernest Paul Gillespie, Manfred Engel, Bernard Dieterle, 2008. In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross cultural and interdisciplinary perspectives. The work treats the appearance of major themes in characteristically Romantic versions, the power of Romantic discourse to reshape imaginative writing and a series of crucial reactions to the impact of Romanticism on cultural life down to the present both in Europe and in the New World. Through its combination of chapters on thematic, generic and discursive features, *Romantic Prose Fiction* achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism but as data of cultural history that shed important light on an evolving civilization.

The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves into Modernism. A glance at the index of each volume quickly reveals the extraordinary richness of the series' total contents. *Romantic Irony* sets the

broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age
