The Lost Decade Chris Horn, 2023-10-19 Provides an analysis of Hollywood from a fresh viewpoint that shows the careers of Robert Altman Francis Coppola William Friedkin and others in the 1980s as far from conforming to a monolithic pattern of decline but rather as diverse and complex responses to political and industrial changes The 1980s are routinely seen as the era of the blockbuster and of Reaganite entertainment whereas the dominant view of late 1960s and early 1970s American film history is that of a Hollywood Renaissance a relatively brief window of artistry based around a select group of directors Yet key directors associated with the Renaissance period remained active throughout the 1980s and their work has been obscured or dismissed by a narrow singular model of American film history This book deals with industrial contexts that conditioned these directors' ability to work creatively but it is also very much about the analysis of individual films bringing to light a range of unheralded work from the visual experimentation of One from the Heart Coppola 1981 to the experimental production contexts of Secret Honor Altman 1984 and the stylistic lan of To Live and Die in L.A. Friedkin 1985 Behind the homogenous picture of the decline of the auteur in 1980s American cinema are films and careers that merit greater attention and this book offers a new way to perceive individual films American film history and the viability of sustained authorial creativity within post studio era Hollywood

Cambridge Companion to Sam Shepard Matthew Roudané, 2002-05-27 Few American playwrights have exerted as much influence on the contemporary stage as Sam Shepard. His plays are performed on and off Broadway and in all the major regional American theatres. They are also widely performed and studied in Europe, particularly in Britain, Germany, and France, finding both a popular and scholarly audience. In this collection of seventeen original essays, American and European authors from different professional and academic backgrounds explore the various aspects of Shepard's career: his plays, poetry, music, fiction, acting, directing, and film work. The volume covers the major plays, including *Curse of the Starving Class*, *Buried Child*, and *True West*, as well as other lesser-known but vitally important works. A thorough chronology of Shepard's life and career, together with biographical chapters, a note from the legendary Joseph Chaikin, and an interview with the playwright, give a fascinating first-hand account of an exuberant and experimental personality.

What is Theatre? John Brown, 2013-02-01 This major introductory textbook is from one of the leading educators working in theatre today. *What Is Theatre?* will make its reader a better playgoer, responding more fully to performance with a keener appreciation of all the resources of theatre: acting, design, direction, organization, theatre buildings, and audiences. By focusing on the best professional practice and the most helpful learning processes, Dr. Brown shows how to read a play text and to see and hear its potential for performance. Throughout this book, suggestions are given for student essays and class discussions to help both instructor and reader to clarify their thoughts on all aspects of theatre-going. While the main focus is on present-day theatre in North America, history is used to illuminate current practice. Theatres in Europe and Asia also feature in the discussion. A view is given of all contributors to performance, with special emphasis placed on actors and the plays they perform. This textbook is not tied to a few specific play texts but designed to be effective regardless of which play a student sees or reads. In Part Two, leading practitioners of different generations and cultural backgrounds describe their own work, providing a variety of perspectives on the contemporary theatre. All this is supplemented by nearly 100 black and white and color illustrations from productions, working drawings, and plans. This new text engages its readers in the realities of the theatre; it is up-to-date, comprehensive, and packed with practical advice for understanding how theatre works and how plays come alive in performance. John Russell Brown is professor of Theatre at the University of Michigan, Ann Arbor, and has taught at a variety of colleges, including New York and Stanford Universities. For 15 years, he was an associate director of the National Theatre in London, and he has directed plays in many other theatres, including Cincinnati Playhouse in the Park, the Empty Space in Seattle, and the Clurman Theatre in New York. Professor Brown has written extensively about theatre, especially about Shakespeare and contemporary theatre. He is editor of *The Oxford Illustrated History of Theatre*.
