tandem even if in protest to one another Religion is a topic worthy of engagement not least because the symbolized terrain in the history of religion was so often deployed as a vehicle for motivating disciplining or editing out a member of the psychoanalytic community in publication This book offers an interdisciplinary approach to religion and psychology including a compelling denouement that reveals new narratives about longstanding rumours in the early history of the psychoanalytic movement Above all this volume demonstrates that the first generation of psychoanalysts succeeded in writing themselves into the history of religious thought and sacralizing the origins of psychoanalysis

Eternal Youth and the Myth of Deconstruction Bret Alderman,2023-12-06 In Eternal Youth and the Myth of Deconstruction Bret Alderman puts forth a compelling thesis Deconstruction tells a mythic story Through an attentive examination of multiple texts and literary works he elucidates this story in psychological and philosophical terms Deconstruction the method of philosophical and literary analysis originated by Jacques Derrida arises from what Carl Jung called a kind of readiness to produce over and over again the same or similar mythical ideas In the case of deconstruction such ideas bear a striking resemblance to a figure that Jungian and Post Jungian writers refer to as the puer aeternus or eternal youth To make his case in addition to a careful analysis of numerous Derridean texts he offers readings of literary works by Milan Kundera J M Barrie Dante Apuleius and others These texts help illustrate that deconstruction's preoccupations over questions of presence deferral authority limits time and representation are also recurrent issues for the eternal youth as described by Marie Louise Von Franz and James Hillman Judith Butler's deconstruction of sex and gender reflects similar patterns and she features in this work as a contemporary exemplar of the deconstructive approach Eternal Youth and the Myth of Deconstruction will be a compelling read for both students and teachers of depth psychology and continental philosophy The clarity of its style will be appealing to advanced scholars and educated laypersons alike

The Byzantine Warrior Hero Chrysovalantis Kyriacou,2020-12-16 Chrysovalantis Kyriacou examines how memories of the pre Christian past Christian militarism power struggles and ethnoreligious encounters have left their long term imprint on Cypriot culture One of the most impressive examples of this phenomenon is the preservation and transformative adaptation of Byzantine heroic themes motifs and symbols in Cypriot folk songs By combining a variety of written sources and archaeological material in his interdisciplinary examination the author reconstructs the image of the Byzantine warrior hero in the songs recovering the mentalities of overshadowed social protagonists and stressing the role of subaltern communities as active agents in the shaping of history
