The Development of the Perineum in the Human S.C.J. van der Putte, 2006-03-30 For over a century the development of the perineum has received ample attention because of the striking complexity of its formation and malformation In the prolonged disputes at this subject normal and abnormal development became intricately interwoven and ideas about the normal process were often directed by the anomalies The unexpected results from an investigation into hereditary congenital anorectal malformations of pig embryos demonstrated the weakness of such interpretations and constructions and underlined the need for a new inquiry into the normal development of the area in human embryos They showed that although data from malformations may offer extra information about the normal development of the area great care has to be taken in using that information for the reconstruction of its normal development which should be based first and foremost on the observation of the evolving microscopic anatomy of the region To avoid the inconsistencies caused by fragmented research in the past such an investigation should comprise the whole structure of the region from its incipience to birth The present study offers such a survey It contradicts current opinion on major developmental events and gives new insights into the origin of the urinary

bladder the subdivision of the cloaca the transformation of the cloacal mantle into the erectile fascial and muscular structures of the female and male perineum and also corrects existing ideas about the formation of the vagina urethra and vestibulum in the female and the urethra penis and scrotum in the male These new findings will be indispensable in unravelling the pathogenesis of challenging perineal malformations not yet copy edited March 16 2004 *Hormone Research*, 1997

Critical Perspectives on Indo-Caribbean Women's Literature Joy Allison Indira Mahabir, Mariam Pirbhai, 2013 This book is the first collection on Indo Caribbean women's writing and the first work to offer a sustained analysis of the literature from a range of theoretical and critical perspectives such as ecocriticism feminist queer post colonial and Caribbean cultural theories The essays not only lay the framework of an emerging and growing field but also critically situate internationally acclaimed writers such as Shani Mootoo Lakshmi Persaud and Ramabai Espinet within this emerging tradition Indo Caribbean women writers provide a fresh new perspective in Caribbean literature be it in their unique representations of plantation history anti colonial movements diasporic identities feminisms ethnicity and race or contemporary Caribbean societies and culture The book offers a theoretical reading of the poetics politics and cultural traditions that inform Indo Caribbean women's writing arguing that while women writers work with and through postcolonial and Caribbean cultural theories they also respond to a distinctive set of influences and realities specific to their positioning within the Indo Caribbean community and the wider national regional and global imaginary Contributors visit the overlap between national and transnational engagements in Indo Caribbean women's literature considering the writers response to local or nationally specific contexts and the writers response to the diasporic and transnational modalities of Caribbean and Indo Caribbean communities
