Food Traceability and Authenticity Didier Montet, Ramesh C. Ray, 2017-11-22 Food traceability is a growing consumer concern worldwide Traceability is undertaken primarily at the administrative level where the use of advanced analytical tools is not available Nevertheless the determination of geographical origin is a requirement of the traceability system for the import and export of foodstuffs EU regulation 178 2002 The topics covered in this book include the history of traceability legislations and rules the actual traceability techniques and the potential analytical techniques for food traceability such as molecular methods e g DGGE SSCP next generation sequencers NGS bio captors chromatographic techniques isotopic analysis that are used for discrimination of organic food fish oils The chromatographic techniques help in the use of volatile compounds analysis The isotope analysis helps in distinguishing between chicken meat and vegetable oils Ambient mass spectrometry is used for studying mycotoxins and alkaloids in foodstuffs and their management food and feed authentication in olive and other plant oils and wine Vibrational methods e g NMR and NIRS are used to trace food by global spectrum The book reviews the current and future techniques including metabolomic techniques **Sustainability in Food**

Consumption and Food Security József H.c. Popp, Zoltán Lakner, Judit Oláh, 2020-12-15 The transformation of food chains towards sustainability in food consumption and food security is a global issue connected with the global challenges of poverty reduction employment and urbanization Combating malnutrition undernutrition and micronutrient deficiencies as well as overweight and obesity is an increasing problem The main topics to be examined are the following Ensuring sustainable food production land and sea sustainable diets and sustainable communities including issues for agricultural transformation in face of increasing competition for land use promoting healthy food systems and increasing the focus on nutrition with multiple implications for diet quality vulnerable groups and informed choice biotechnology could play an important role in climate change mitigation e g nutrient efficient plants and adaptation e g drought tolerant plants renewable energies biodegradable products rural development and global food security identifying the means to promote resilience including resilience in ecosystems and in international markets responding to climate change and other environmental and social change The focus should also cover issues for vulnerable groups such as mothers and children the elderly patients and

migrants to understand the general aspects of consumer behavior Sustainability related to product standards and reactions of consumers to these standards are also of great importance **The SAGE Encyclopedia of Food Issues** Ken Albala,2015

The SAGE Encyclopedia of Food Issues explores the topic of food across multiple disciplines within the social sciences and related areas including business consumerism marketing and environmentalism In contrast to the existing reference works on the topic of food that tend to fall into the categories of cultural perspectives this carefully balanced academic encyclopedia focuses on social and policy aspects of food production safety regulation labeling marketing distribution and consumption A sampling of general topic areas covered includes Agriculture Labor Food Processing Marketing and Advertising Trade and Distribution Retail and Shopping Consumption Food Ideologies Food in Popular Media Food Safety Environment Health Government Policy and Hunger and Poverty This encyclopedia introduces students to the fascinating and at times contentious and ever so vital field involving food issues Authenticity of Foods of Animal Origin Ioannis Sotirios Arvanitoyannis,2016-01-05 Over the last 20 30 years the number of food poisoning incidents has increased considerably and this has had disastrous effects both on consumers and the food industry Several food industries went bankrupt due to huge amounts of money paid to compensate consumers family relatives These unfortunate incidents triggered consumer and governmental aw Food Processing Technology P.J.
