For All People Global Theologies In Contexts:

For All People Else Marie Pedersen, Holger Lam, Peter Lodberg, 2002 Mortensen a Christian leader and teacher who has always tried to be a theologian for all people consciously open to the particularity and challenges of the times Thus in attempting to build bridges between different cultures in being open to the realities of the world and responsible in relation to the victims of the day s order and in keeping alive the idea of and working for a united humanity this volume not only represents a fitting tribute to Mortensen a highly respected friend and theologian but also suggests new ways of shaping a world for all people Book jacket *Theology in Global Context* Amos Yong, Peter G. Heltzel, 2016-10-06 Robert Cummings Neville has been a consistent advocate for the necessity of global theology Early in his career he realized that the philosophical framework of the West alone was inadequate for a truly global theology Since then he has sought to develop theology creatively and responsibly within the world context The original essays in this volume written in his honour by fellow theologians participate in and model the kind of dialogical global theology embodied in Neville s work **Theology in the Context of World Christianity** Timothy C. Tennent, 2009-05-26 Thinking more globally about the formation of theology enriches our understanding of what it means to be a Christian It s no secret that the center of Christianity has shifted from the West to the global South and East While the truths of the Christian faith are universal different contexts and cultures illuminate new questions understandings and expressions What does this mean for theology as Western theologians understand it Timothy Tennent argues that the Christian faith is culturally and theologically translatable Theology in the Context of World Christianity is written to expand our ecclesiastical cartography by highlighting within each of the major themes of systematic theology studies that are engaging the global church such as Anthropology with studies drawn from the different views of human identity between Eastern and Western cultures Christology with a focus on the emphases that African Christians place on the characteristics of Christ Pneumatology by looking at the role of the Holy Spirit in Latin American Pentecostalism Eschatology by focusing on how this branch of theology shapes world missions and evangelism Each of the ten chapters examines traditional theological categories in conversation with theologians from across the globe making this volume valuable for students pastors missionaries and theologians alike Theological reflection is active and exciting in the majority world church and Tennent invites you to your own reflection and celebration of Christ s global church These are perspectives that should be heard considered and brought into conversation with Western theologians Global theology can make us aware of our own blind spots and biases and has much to offer toward the revitalization of Western Christianity **Local Theology for the Global Church** Matthew Cook, Rob Haskell, Ruth Julian, 2010-06-01 As the church in the global south continues to grow at a rapid pace the question of how to develop local theologies becomes more and more urgent This book charts a path forward through exegetical theological and cultural analysis by scholars who are wrestling with the issues in their own situations around the globe The contents were developed under the auspices of the World

A Christian Theology of Suffering in the Context of Theravada Buddhism in Thailand Satanun Boonyakiat, 2020-06-30 In this book Satanun Boonyakiat elucidates a Christian theology of suffering relevant to the context of Theravada Buddhism in Thailand Grounding his work in a trinitarian comparative theology of religions Boonyakiat explores the ways in which Buddhist teachings on suffering specifically the Four Noble Truths can challenge enrich and deepen a Christian perspective Ultimately Dr Boonyakiat suggests a Christian theology of suffering relevant to the people of Thailand both Christian and Buddhist alike must move beyond a traditional western emphasis on theodicy to address a practical response to suffering s lived reality a response rooted firmly in Scripture and grounded in a theology of the cross

Theology without Words Wayne Morris, 2016-02-17 This book is a study of a Christian theology without words focussing on theology in the Deaf Community Deaf people s first and preferred method of communication is not English or any other spoken language but British Sign Language a language that cannot be written down Deaf people of faith attend church on a regular basis profess faith in God and have developed unique approaches to doing theology While most Western theology is word centred and is either expressed through or dependent on written texts theology in the Deaf Community is largely non written This book presents and examines some of that theology from the Deaf Community and argues that written texts are not necessary for creative theological debate a deep spirituality or for ideas about God to develop

Troubling (Public) Theologies Jione Havea, 2023-02-06 Theologies no matter their designations are public measures they disclose as well as gauge the publics near and far on which they stand sit lie or fall Because publics shift and mingle theologies require reimagining relocating and embracing fresh insights and energies The insights and energies embraced in this work are in three clusters spaces bodies and technologies The spotlighted spaces are in Africa Asia Black America the Caribbean and Pasifika beyond the eyes of mainline theologies the privileged bodies have survived with scars from empire and missionary positionings and the welcomed technologies include Dalit indigenous art poetry cyborg and the novel This collection is troubling in several ways first reimagining and relocating are troubling acts upon their subject matter here public theologies On that note what theology is not public Second this work takes theologies in general and not just the theologies that carry the public designation to be public theologies Third this work takes theologies in general to be inherently troubling In other words theologies that are not troubling are not public enough

Method and Context as Problems for Contemporary Theology Hans Schwarz, 1991 A proposal for the need to concentrate on the basic and simple

art of doing theology in the context of a world which needs a word that is distinct from its own a world alienated from God and still yearning to overcome its primordial alienation Theology must be able to convey the ultimate message which is without equal to overcome being a minority voice in an overcrowded market TST 58 89 95 248pp 1991 **Wrestling with God in Context** M. P. Joseph, Po Ho Huang, Victor Hsu, 2018-12-01 Shoki Coe was among the first to speak of contextualization in theology Coe argued that theology is not a reiteration of past formulas or doctrines but a response to the self disclosing initiative of the living God in history and human experience Yet he remains little known outside his native Taiwan Wrestling with God in Context introduces Coe's work and social vision and evaluates his contributions to the field of missiology and ecclesiology Eager to offer a creative and critical witness to Christian faith Coe worked tirelessly to liberate theology from its Western captivity and shaped a generation of theological reflection on God culture and history For thousands of students and church members around the world Shoki Coe was the spiritual father that guided their contextual theological pursuit to the living reality of God In order to reflect on his legacy the chapters in this volume including original essays from Stephen Bevans Dwight Hopkins and Enrique Dussel tackle the critical methodological issues related to doing theology reading the Scriptures and being the church *New Catholicity* Robert J. Paeth, 2010 In these essays honoring ethicist Max Stackhouse leading Christian scholars consider the historical roots and ongoing resources of public theology as a vital element in the church's engagement with global issues Public Theology for a Global Society explores the concept of public theology and the challenge of relating theological claims to a larger social and political context The range of essays included here allows readers to understand public theology as both theological practice and public speech and to consider the potential and limits of public theology in ecumenical and international networks The essays begin by introducing the reader to the development of public theology as an area of study and to the historical interrelationship of religious legal and professional categories The later essays engage the reader with emerging problems in public theology as religious communities encounter shifting publics that are being transformed by

globalization and sweeping political and technological changes The breadth and scholarship of Public Theology for a Global Society make this volume a fitting tribute to Stackhouse a central figure in Christian ethics and pioneer in the church's study of globalization

Vondey **Neo-Pentecostalism** Nelson Kalombo Ngoy, 2019-05-23 For centuries Pentecostalism has played a significant role in oppressively shaping the life of formerly colonized people of Africa Moreover its theologies have perpetuated neocolonial policies developed through the lens of colonial legacies rooted in la mission civilisatrice mission to civilize However since the 1980s Neo Pentecostalism is increasingly reshaping the Congolese Christendom It sanctions the theologies of a prosperity gospel rooted in an uncritical reading of the Bible and self theologizing informed by a lack of literal contextual translation effects This book argues that the prosperity gospel bankrupts its adherents in this case the vulnerable impoverished sections of Sub Saharan Africa and particularly the Postcolonial Congo and instead offers a balanced theological reflection that broadens Neo Pentecostal studies with an African voice encouraging the rewriting and rereading of the story of redemptive mission The research engages a paradigm shift within global missions and world Christianity or the history of missions as the platform to negotiate literal prophetic and contextual translation and retransmission of the biblical gospel It is critical to reclaim and reestablish a hermeneutic of mixed methodologies and construct a contextual and critical interpretation of the Bible in the Congo To avoid the African assumption of cultural baggage which affects how the Congolese interpret the Bible the interpreter has to be neutral and experience the voice of Christ in the text instead of the voice of Congolese culture they must be a prophetic voice to reconstruct the authentic meaning of the salvific story

Global Dictionary of Theology William A. Dyrness, Veli-Matti Kärkkäinen, 2009-10-25 Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti Kärkkäinen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of the theological perspective and inquiry Here is a new launching point for doing theology in today's global context **Equipping for Global Mission** Linda P. Saunders, Gregory Mathias, Edward L. Smither, 2024-08-13 From Cognitive Teaching to Connected Learning Given the landscape of global Christianity and the variety of approaches to theological and missiological training today how do we equip the global church

for the mission of God Should mission organizations or sending churches conduct their own in house training What is the role of Bible colleges and seminaries in equipping for mission today What about informal approaches to theological and ministry training Equipping for Global Mission offers insights from seasoned scholars and practitioners Beginning with theological convictions and practical reflections our authors make a case for what equipping for mission could look like in the present global church Case studies from India China North America and Britain further challenge the reader to reflect on this critical issue The full scope of educating for mission is far too broad of a task for any single organization This is why the contributors serve the church so well by enlarging a much needed conversation This book is a clarion call to all who care about missions and the global church Join world leaders in reshaping missions education today by using the practical and strategic wisdom in these pages
