MEMORY KEEPERS

Quilts are not only a wonderful way to write stories, they're also great at preserving them. The projects in this section are intended to help preserve memories of times gone by or to honor those things that are worthy of honor, and to help bring those stories to life as a practical and beautiful item. Once a story, an memory, or a tradition is captured in fabric, it comes back to life, to gather with it the past, and becomes a meaningful and thoroughly accessible part of our everyday lives. From family mementos and house traditions to special photos and meaningful stories, these projects record all of the people and places we cherish most.

For Keeps Amy Gibson, 2015-03 Sew projects you love for the people you love to use everyday Quilt for keeps Publisher **Muses India** Chetan Deshmane, 2013-05-04 With Salman Rushdie Arundhati Roy Jhumpa Lahiri V S Naipaul and Kiran Desai winning prestigious awards for their literary output Indian English literature has gained a voice of its own Yet as most readers of criticism of it agree there is a dearth of serious examination of its authors and their work This collection of essays attempts a contrapuntal reading of Indian English literature with what Ranjan Ghosh calls the infusionist approach Since a majority of readers are made to stay away from a branded author or work this book rejects any categorization such as postcolonial or Commonwealth It deals with a wide range of issues which human beings suffer from all over the world including those that may not have anything to do with the politicized side of the postcolonial or the Commonwealth

Security Unbound Jef Huysmans, 2014-05-09 Security concerns have mushroomed Increasingly numerous areas of life are governed by security policies and technologies Security Unbound argues that when insecurities pervade how we relate to our neighbours how we perceive international politics how governments formulate policies at stake is not our security but our democracy Security is not in the first instance a right or value but a practice that challenges democratic institutions and actions We are familiar with emergency policies in the name of national security challenging parliamentary processes the space for political dissent and fundamental rights Yet security practice and technology pervade society heavily in very mundane ways without raising national security crises in particular through surveillance technology and the management of risks and uncertainties in many areas of life These more diffuse security practices create societies in which suspicion becomes a default way of relating and governing relations ranging from neighbourhood relations over financial transactions to cross border mobility Security Unbound demonstrates that governing through suspicion poses serious challenges to democratic practice Some of these challenges are familiar such as the erosion of the right to privacy others are less so such as the post human challenge to citizenship Security unbound provokes us to see that the democratic political stake today is not our security but preventing insecurity from becoming the organising principle of political and social life
