Theologizing in Black Celucien L. Joseph, 2020-04-15

Theologizing in Black is a creative and rigorous comparative study on black theological musings and liberative intellectual contemplations engaging the theological ethics and anthropology of both continental African theologians Tanzania Kenya Democratic Republic of the Congo and black theologians in the African Diaspora Haiti Trinidad Jamaica Antigua and Barbuda United States Using the pluralist approach to religion promoted by the philosopher of religion and theologian John Hick the book is also an attempt to bridge an important gap in the comparative study of religion Africana Studies and Liberation theology both in Africa and its diaspora The book provides an analytical framework and intellectual critique of white Christian theologians who deliberately disengage with and exclude black and Africana theologians in their theological writings and conversations From this vantage point Africana critical theology is said to be a theology of contestation as it seeks to deconstruct white supremacy in the theological enterprise This book not only articulates a rhetoric of protest about the misrepresentation and underrepresentation of the humanity of African and black people in white theological imagination it also enunciates a positive image of black humanity and congruently promulgates a constructive representation of blackness The paramount goal of Africana theological anthropology and ethics is the preservation of life and promotion of human dignity and the sheer acknowledgement that the African people and people of African descent are bearers of the image of God

A History of Catholic Moral Theology in the Twentieth Century James F. Keenan, 2010-01-17 This is an historical survey of 20th Century Roman Catholic Theological Ethics also known as moral theology The thesis is that only through

historical investigation can we really understand how the most conservative and negative field in Catholic theology at the beginning of the 20th could become by the end of the 20th century the most innovative one The 20th century begins with moral manuals being translated into the vernacular After examining the manuals of Thomas Slater and Henry Davis Keenan then turns to three works and a crowning synthesis of innovation all developed before during and soon after the Second World War The first by Odon Lottin asks whether moral theology is adequately historical Fritz Tillmann asks whether it is adequately biblical and Gerard Gilman whether it is adequately spiritual Bernard Haering integrates these contributions into his Law of Christ Of course people like Gerald Kelly and John Ford in the US are like a few moralists elsewhere classical gate keepers censoring innovation But with *Humanae vitae* and successive encyclicals bishops and popes reject the direction of moral theologians At the same time moral theologians like Josef Fuchs ask whether the locus of moral truth is in continuous universal teachings of the magisterium or in the moral judgment of the informed conscience In their move toward a deeper appreciation of their field as forming consciences they turn more deeply to local experience where they continue their work of innovation Each continent subsequently gives rise to their own respondents In Europe they speak of autonomy and personalism in Latin America liberation theology in North America Feminism and Black Catholic theology and in Asia and Africa a deep post colonial interculturism At the end I assert that in its nature theological ethics is historical and innovative seeking moral truth for the conscience by looking to speak crossculturally

Applied Afro-Communitarian Ethics and Foreign Armed Intervention Danny Singh, 2024-10-10 Just war theory concerns the morality of engaging in warfare the conduct in war and justice including democratization and reconstruction in the aftermath to end war The morality of war can be measured from a variety of military and philosophical ethics that include theological consequentialist and realist schools of thought Various military interventions such as Bosnia Afghanistan and Iraq have been analyzed and evaluated and criticized from a Western and especially liberal point of view In this book Danny Singh addresses foreign interventions from a different normative paradigm Namely he addresses the morality of foreign military interventions in light of Afro communitarianism a dominant philosophical approach in sub Saharan Africa According to Afro communitarianism positive communal relationships social harmony are the greatest good that can be achieved to form friendship which can be understood as the combination of shared identity and goodwill Even though Afro communitarianism prioritizes peaceful communal relations enmity behavior and violence are morally permissible if it either leads to a less disharmonious state of affairs or to a harmonious state of affairs or there are no friendly alternatives to achieve any of both desired outcomes but the initiator of conflict desires to promote them Moreover Afro communitarianism prescribes dialogue as a guiding action to avoid military conflict The book provides an alternative and non Western approach to the morality of war and efforts to promote sustainable peace in the aftermath of conflict between warring belligerent parties

Love, Joy, and Sex Stan Chu Ilo, 2019-07-30 There is no papal document that has generated as much interest controversy and debate in recent times as

Pope Francis's *Amoris Laetitia* This document which came out of two very divisive synods of Catholic bishops and leaders in Rome in 2014 and 2015 will probably be the most discussed document ever produced by a pope in modern Catholicism on marriage and family life This volume has gathered seminal commentaries on *Amoris Laetitia* by African Catholic theologians, social scientists and pastoral workers They offer African theological and pastoral responses to the principles and practices proposed by Pope Francis and the Synod on the family on such contested issues as same sex relations, divorce and remarriage and reception and denial of Holy Communion in the church among other divisive issues These important essays and commentaries show the strengths and weaknesses of this papal commentary and point out the missing link in the global conversation on marriage, family and same sex relations Their argument for the inclusion of African perspectives and moral traditions in the search for a third way in finding an inclusive and integrated pastoral art of accompaniment is very compelling The authors here also call for the inclusion of Africa's own unique challenges like polygamy, childless marriages and the impact of migration, civil conflict, diseases, ecological and population crises and the rights of African women in the global discussion on marriage and family life They also challenge uncritical clichés in world Christianity that Africa's opposition to same sex marriages or Western propaganda about population or birth control and contraception are conservative while showing diverse African conversations on these topics in the search for abundant life on this beautiful continent

From Twitter to Tahrir Square Bala A. Musa, Jim Willis, 2014-06-24 This timely guide examines the influence of social media in private, public and professional settings particularly the ethical implications of the cultural changes and trends created by their use In the quest for quick dissemination of information, web users and content providers find both opportunity and liability in digital broadcasts Examples abound Twitter members tap into news reports well in advance of traditional print media but stories are prone to inaccuracies and misinformation Facebook shares useful data mined from member profiles but this sharing often compromises privacy It is no surprise that use of social media gives rise to a host of moral dilemmas never before encountered This book sheds light on the effects of this new medium on the individual and society Through two volumes chock full of topics found in news headlines everyday the authors look at evolving trends in social media and their impact on privacy, politics and journalism The first volume explores the role of this technology on national and international security Volume 2 focuses on the individual as both a producer and consumer of internet content

showing how the media itself is changing notions of self identity relationships and popular culture The book s content covers such topics as individual and community psychology citizen journalism and corporate technology

The Role of the Congolese Catholic Church Hermann-Habib Kibangou,2024-11-26 In what follows I will be raising the issue of the role of the Congolese Catholic Church to promote an economic and social justice in relation to oil Indeed it should be noted that the Congolese Catholic Church is becoming more and more present in pivotal areas such as human rights democracy justice and peace the social and intellectual apostolate partnership management of natural resources common good etc It is mainly on the management of oil that this study will be sketching the outlines shaping the attitude of the Congolese Catholic Church for greater transparency What role may be played by the Congolese Catholic Church in a country where more than 42 percent of the population is Catholic and where Catholics have played an important role in the public realm This study comes within the scope of social ethics and will also address political as well as theological historical philosophical economic religious data socio anthropological biblical data etc I argue that the Congolese Catholic Church might play at the national level an important role based on the promotion of both economic and social justice in order to move the Congo to move forward

Work Out Your Salvation D. Glenn Butner Jr.,2024-04-09 In Work Out Your Salvation D Glenn Butner Jr demonstrates that participation in markets forms our moral character perceptions actions and ideas Drawing on experimental economics and

moral theology he argues that the nature of such formation varies based on the design of the market and our interactions within it How he asks does formation of the market relate to the formation of grace providence justification and sanctification Are these forces at war for our souls Through a detailed analysis of these three doctrines and the theology of common grace and concurrent divine human action Work Out Your Salvation argues that God can work through the social context of markets through human identity and through economic incentive structures to foster providentially the created basis for the supernatural gifts of justification and sanctification Careful and theologically guided participation in a market can by common grace provide the occasion for positive spiritual formation through concurrent divine action However such formation is not guaranteed Maladaptive practices ideas and identities can also be fostered by markets not oriented toward a supernatural end Butner provides detailed evidence backed by extensive experimental and empirical research as to which market practices allow Christians to work out their salvation Phil 2 12 and which practices resist such moral transformation Work Out Your Salvation undermines simplistic endorsements or rejections of capitalism in favor of more nuanced analysis and lays bare which features of markets make us better and which make us worse *Philosophical Perspectives on Land Reform in Southern Africa* Erasmus Masitera, 2020-11-27 This edited collection explores a variety of philosophical perspectives on land reform in Southern Africa Presenting an innovative focus on the philosophical themes in land reform the contributors reflect on traditional African conceptualisations of the land as well as Western interpretations introducing specifically Southern African approaches to a wide range of debates Rooted in questions of colonization and decolonization the chapters examine what reform ought to do for the people of Africa providing contemporary reflections on the different racial and cultural facets of the land Notably ideas of reconciliation compensation justice development emancipation Ubuntu and empowerment are explored Vigorous and interdisciplinary in their approach the fifteen original chapters tackle a range of questions such as What does land mean in Africa What ethical considerations are relevant Which mechanisms should be used in addressing injustice regarding land reform and redistribution Providing a comprehensive engagement with philosophical and political issues of land reform in Southern Africa this volume is an invaluable resource to scholars not only in Africa but wherever similar questions of land dispossession and justice arise **Morality Truly Christian, Truly African** Paulinus Ikechukwu Odozor C.S.Sp., 2014-11-15 Given the largely Eurocentric nature of moral theology in the history of the Roman Catholic Church what will it take to invest the theological community in the history and moral challenges of the Church in other parts of the world especially Africa What is to be gained for the whole Church when this happens in a deep and lasting way In this timely and important study Paulinus Ikechukwu Odozor brings greater theological clarity to the issue of the relationship between Christianity and African tradition in the area of ethical foundations He also provides a constructive example of what fundamental moral theology done from an African and Christian especially Catholic moral theological point of view could look like Following a brief history of the development of African Christian theology Odozor

examines responses of African theologians to African tradition and Christian responses to the reality of non Christian religions In a context where the African religious experience and heritage are powerful sources of meaning and identity Christian evangelization raises questions both about the African primal religions and about Christianity itself and its claims Odozor takes up the subject of moral reasoning in an African Christian theological ethics and concludes with case studies that show how the African Church has tried to inculturate moral discourse on a religiously pluralistic continent and relate the healing gospel message to African situations Students and scholars of moral theology and ethics and church leaders will profit from the issues raised in *Morality Truly Christian Truly African* **Before the Vows** Jules Komi Adator,2025-03-31 It is clear that many young people today are sexually active and almost none of them hold this reality as a matter of concern Youth whether Christian or otherwise seem not to have heard the words of Solomon who wrote There is an appointed time for everything and a time for every affair under the heavens Ecclesiastes 3 1 They take for granted that it is good and even advisable to experience sex before marriage The purpose of this book is to promote among young people a culture of virginity and chastity until marriage Disciplined and well behaved youth are the gauge of a good society I therefore propose human dignity and Christian values as an exemplary paradigm for young people to imitate **The Ethics of Internet Research** Heidi A. McKee,James E. Porter,2009 Drawing from interviews with Internet researchers from across the globe who work in diverse disciplines and in a wide array of online venues this book examines ethical issues and questions that Internet researchers may encounter throughout the research process Although the ethics of Internet research are complex the aim of the book is to provide a rhetorical case based process to aid researchers in ethical decision making In doing so the book provides Internet researchers with useful resources and heuristics for engaging in ethical practices interactions and problem solving for their research **The Palgrave Handbook of African Social Ethics** Nimi Wariboko,Toyin Falola,2020-03-30 This Handbook provides a robust collection of vibrant discourses on African social ethics and ethical practices It focuses on how the ethical thoughts of Africans are forged within the context of everyday life and how in turn ethical and philosophical thoughts inform day to day living The essays frame ethics as a historical phenomenon best examined as a historical movement the dynamic ethos of a people rather than as a theoretical construct It thereby offers a bold incisive and fresh interpretation of Africa s ethical life and thought [African Ethics](#) Jonathan O. Chimakonam,Luis Cordeiro-Rodrigues,2022-08-25 This is the first comprehensive exploration of African ethics covering everything from normative ethics and applied ethics to meta ethics and methodology as well as the history of its evolution African Ethics provides an in depth exploration of Ubuntu ethics which is defined as a set of values based on concepts such as reciprocity mutual respect and working towards the common good Ubuntu ethics also strongly emphasize the place of human dignity The book engages with both theory and practice and how these ethical ideas impact upon the actual lived experience of Africans It also includes important political considerations such as the impact of imperialism colonialism and capitalism on

African ethics as well as the negative impact of apartheid and the renaissance made possible by the The Truth and Reconciliation Commission whose work was premised heavily on African ethical ideas This book is not just a wide ranging and incisive introduction but also a reformulation of key concepts and current debates in African ethics Crucially African Ethics is an inclusive text one that speaks from an African perspective and contributes to the decolonizing of contemporary ethics Intercultural Philosophy and Environmental Justice Between Generations Hiroshi Abe,Matthias Fritsch,Mario Wenning,2024-03-21 This book draws on a spectrum of philosophical cultures to provide new perspectives on environmental ethics and intergenerational justice
