This book integrates research from psychology, social work, medical anthropology, child life, specialty palliative care, public health and nursing to examine a wide variety of family, cultural and medical contexts. Human Behavior and the Social Environment, Macro Level Katherine van Wormer, Fred H. Besthorn, 2010-10-11 A timely revision in this global age, *Human Behavior and the Social Environment: Macro Level* develops a sophisticated and original view of the cultural, global, spiritual and natural worlds that people inhabit and the impact of these worlds on human behavior. Its major new theme, sustainability, emerges as a key characteristic of contemporary practice. What is sustainable social work? What are the characteristics of a sustainable community? How is the present exploitation of environmental resources unsustainable for future generations? Following the greatest economic upheaval since the Great Depression, how can we envision a sustainable economy that will benefit all the people, not only the wealthy few? Human behavior results from biological, psychological, socio-economic and cultural forces, but the mental health field has placed the most emphasis on intrapsychic factors to the near exclusion of socio-economic and cultural considerations. This significant collaboration seeks to correct this omission by helping students recognize patterns in the family, culture and value systems in order to create safe and sustainable environments for their future clients. The emphasis on sustainable and unsustainable social welfare programs is geared to helping readers engage in advocacy for social justice. Integrates up-to-date research findings, models and government statistics. Enhanced discussions of theory, group dynamics, family, community and the environment. Theoretical concepts and practice implications in each chapter. Highlights

the importance of the natural environment and ecology the community of the earth to human and group behavior Sets forth a refined understanding of the role of spirituality the community of faith in people s lives Focuses on evidence based theory and research Teaches from a global cross cultural perspective highlighting themes of empowerment and social justice Features dynamic readings personal narratives and photographs that highlight each chapter s topic Accompanied by an online instructor s manual with lecture presentations chapter summaries key terms suggested classroom activities and a test bank with essay and multiple choice questions at www.oup.com/us/HBSE Don t miss the companion volume Human Behavior and the Social Environment Micro Level Second Edition which offers an eye opening view of how biological psychological and cultural forces influence individuals behavior The School Services Sourcebook, Second Edition Cynthia Franklin,Mary Beth Harris,Paula Allen-Meares,2013-01-31 A state of the art revision of the sourcebook that is a must have for all school based social workers counselors and mental health professionals Contemporary Feminisms in Social Work Practice Sarah Wendt,Nicole Moulding,2016-01-29 Contemporary Feminisms in Social Work Practice explores feminism as core to social work knowledge practice and ethics It demonstrates how gender neutral perspectives and practices obscure gender discourses and power relations It also shows feminist social work practice can transform areas of social work not specifically concerned with gender through its emphasis on relationships and power Within and outside feminism there is a growing assumption that equality has been won and is readily available to all women However women continue to dominate the ranks of the poor in developed and developing countries around the world male perpetrated violence against women and children has not reduced women outnumber men by up to three to one in the diagnosis of common mental health problems and women continue to be severely underrepresented in every realm of power decision making and wealth This worrying context draws attention to the ways gender relations structure most of the problems faced by the women men and children in the day to day worlds in which social work operates Drawing together key contemporary thinking about feminism and its place in social work this international collection looks at both core curriculum areas taught in social work programs and a wide range of practice fields that involve key challenges and opportunities for future feminist social work This book is suitable for all social work students and academics It examines the nuanced nature of power relationships in the everyday and areas such as working with cross cultural communities mental health interpersonal violence and abuse homelessness child protection ageing disability and sexuality
