Fixing the Musical Douglas L. Reside, 2023. Thousands of shows have opened on Broadway. Why do we remember some and not others? The musical theatre repertory is not composed of titles popular in the theatre but by those with successful cast recordings, movie versions or even illegal bootlegs on YouTube. The shows audiences know and the texts and music they expect to hear when they attend a production are defined by media consumed at home more than by memories of performances witnessed in the theatre. For example, author Doug Reside shows that it is no accident that the serious book musical with a fixed score developed in the 1940s when commercially pressed and marketed record albums made it possible to record most of the score of a new musical in a fixed medium. And *Hamilton*, a musical with dense lyrics and revolutionary musical style, would not have been as easily accessible to world audiences if most hadn't already had the opportunity to learn the score by listening to free digital streams of the original cast recording. The technologies that made these media possible developed concurrently with and shaped the American musical as an art form. Reside uncovers how the affordances and limitations of these technologies established a repertory of titles that are most frequently performed and defined by the texts used in these performances. *Fixing the Musical* argues that the musicals we most remember are those which most effectively used their era's best recording and distribution technologies to document and share the work with those who would never see the original production on Broadway. Careful the Spell You Cast Ben Francis, 2023-02-09 Stephen Sondheim is one of

the best known and most loved musical theatre composers but also one of the most misunderstood often being labelled as distant or cynical Careful the Spell You Cast instead argues that Sondheim firmly belongs to the Broadway aspirational tradition in that many of his characters are defined by their dreams to abandon one's dream as Ben does in Follies Frank does in Merrily We Roll Along and Addison does in Road Show is to lose one's soul Rather than take the established view of Sondheim as a cynic this book contends that throughout Sondheim's work letting go of one's illusions is a process that his characters need to go through that they must cast off illusions and false dreams without becoming cynical and destroying their genuine dreams in the process In turn this view aligns Sondheim's work as being aspirational and a logical continuation from the work of his mentor Oscar Hammerstein II Following the trajectory of Sondheim's career Careful the Spell You Cast shows how Sondheim has dramatized this process throughout his writing life alongside different collaborators From his work as a lyricist with the musicals Gypsy and West Side Story through to his later collaborations with Hal Prince Company Follies and James Lapine Into the Woods Sunday in the Park with George this book reframes the established view through lyrical and structural analysis in relation to the characters within each of these celebrated works of musical theatre arguing that Sondheim is in the popular sense of the word a romantic within the tradition of the Broadway musical

The Theater of Terrence McNally Raymond-Jean Frontain, 2019-10-04 Terrence McNally's canon of plays books for musicals and opera libretti possesses such a breadth of subject matter and diversity of dramatic modes that critics have had difficulty assessing his accomplishment This book is the first critical study to identify the four major stages of McNally's development in terms of his understanding of how theater helps the modern person trapped in a seemingly profane existence to find a gateway to the transcendent Drawing upon such diverse religious thinkers as Martin Buber Mircea Eliade Ilia Delio and Carter Heyward Frontain analyzes the evolution of McNally's understanding of grace not as a gift bestowed by an all-powerful deity upon a desperate soul but as the unwarranted and thus all the more unusual act of devotion McNally's phrase that one person performs for another By seeking to foment community most importantly at the height of the AIDS pandemic McNally's theater itself proves to be a channel of grace McNally's greatest success is shown to be the creation of a theater of empathy and compassion in contradistinction to Artaud's theater of cruelty and Albee's Americanization of the theater of the absurd
