Edible Memory Jennifer A. Jordan, 2015-04-14 Each week during the growing season farmers markets offer up such delicious treasures as brandywine tomatoes cosmic purple carrots pink pearl apples and chioggia beets varieties of fruits and vegetables that are prized by home chefs and carefully stewarded by farmers from year to year These are the heirlooms and the antiques of the food world endowed with their own rich histories While cooking techniques and flavor fads have changed from generation to generation a Ribston Pippin apple today can taste just as flavorful as it did in the eighteenth century But how does an apple become an antique and a tomato an heirloom In *Edible*

Memory Jennifer A Jordan examines the ways that people around the world have sought to identify and preserve old fashioned varieties of produce In doing so Jordan shows that these fruits and vegetables offer a powerful emotional and physical connection to a shared genetic cultural and culinary past Jordan begins with the heirloom tomato inquiring into its botanical origins in South America and its culinary beginnings in Aztec cooking to show how the homely and homegrown tomato has since grown to be an object of wealth and taste as well as a popular symbol of the farm to table and heritage foods movements She shows how a shift in the 1940s away from open pollination resulted in a narrow range of hybrid tomato crops But memory and the pursuit of flavor led to intense seed saving efforts increasing in the 1970s as local produce and seeds began to be recognized as living windows to the past In the chapters that follow Jordan combines lush description and thorough research as she investigates the long history of antique apples changing tastes in turnips and related foods like kale and parsnips the movement of vegetables and fruits around the globe in the wake of Columbus and the poignant perishable world of stone fruits and tropical fruit in order to reveal the connections the edible memories these heirlooms offer for farmers gardeners chefs diners and home cooks This deep culinary connection to the past influences not only the foods we grow and consume but the ways we shape and imagine our farms gardens and local landscapes From the farmers market to the seed bank to the neighborhood bistro these foods offer essential keys not only to our past but also to the future of agriculture the environment and taste By cultivating these edible memories Jordan reveals we can stay connected to a delicious heritage of historic flavors and to the pleasures and possibilities for generations of feasts to come

Wisdom of the Last Farmer David Mas Masumoto, 2010-06 It was when David Mas Masumoto's father had a stroke on the sprawling fields of their farm that the son looked with new eyes on the land where he and generations of his family have toiled for decades Masumoto an organic farmer working the land in California's Central Valley farms stories as he farms peaches In Wisdom of the Last Farmer an impassioned memoir of revitalization and redemption he finds the natural connections between generation and succession fathers and children booms and declines as he tells the story of his family and their farm He brings us to the rich earth of America's Fruit Basket under the vine trellises and canes

where grapes are grown and to the fruit orchards flush with green before harvest where he uncovers and preserves the age old wisdom that is fast disappearing in our modern information driven world and that is urgently needed in this time of food crises and social disruption Masumoto sees the price the family has paid to grow complex heirloom peaches when the market rewards tasteless big and red fruits and the challenges of maintaining traditions and integrity while working in the modern high pressure agricultural marketplace As his father's health declines along with the profitability of the family farm Masumoto has the further hard work of nursing his father back to health becoming master to the teacher who once schooled him and is driven beyond economic concerns to even larger questions of life death and renewal In his gorgeous lyrical prose Masumoto conjures the realities of farming life while weaving in the history of American agriculture over the past century encapsulating universal themes of work along with wisdom that could be gleaned only from the earth By the end of the workday he understands the feeling of accomplishment when you've done your best and discovers that it's when he lets go of both his father and control of nature that wisdom manifests itself And when Masumoto's daughter intends to return to the family farm hope is found in the generations In the quiet eloquence of *Wisdom of the Last Farmer* you will see how your own destiny is involved in the future of your food the land and the farm **Vegetarian Times**, 2003-07 To do what no other magazine does Deliver simple delicious food plus expert health and lifestyle information that's exclusively vegetarian but wrapped in a fresh stylish mainstream package that's inviting to all Because while vegetarians are a great vital passionate niche their healthy way of eating and the earth friendly values it inspires appeals to an increasingly large group of Americans VT's goal To embrace both [Going Away to Think](#) Scott Slovic, 2016-10-01 Scott Slovic has spent his life as a teacher writer environmental activist and leader in the field of ecocritical literary studies In *Going Away to Think* he reflects on the twin motivations of his life the commitment to do some good in the world and the impulse to enjoy life and participate fully in its most intense moments and he examines the tension created by his efforts to balance these two poles of his responsibility These essays reveal the complex inner life of one of this generation's most important environmental critics and literary activists They range from profound discussions of the role and responsibilities of scholarship to deeply personal ruminations on the impact of family crises and the influence of his wide ranging travels **Eating Asian America** Robert Ji-Song Ku, 2013-09-23 Examines the ways our conceptions of Asian American food have been shaped Chop suey Sushi Curry Adobo Kimchi The deep associations Asians in the United States have with food have become ingrained in the American popular imagination So much so that contentious notions of ethnic authenticity and authority are marked by and argued around images and ideas of food *Eating Asian America* A Food Studies Reader collects burgeoning new scholarship in Asian American Studies that centers the study of foodways and culinary practices in our understanding of the racialized underpinnings of Asian Americanness It does so by bringing together twenty scholars from across the disciplinary spectrum to inaugurate a new turn in food studies the refusal to yield to a superficial multiculturalism that naively celebrates

difference and reconciliation through the pleasures of food and eating By focusing on multi sited struggles across various spaces and times the contributors to this anthology bring into focus the potent forces of class racial ethnic sexual and gender inequalities that pervade and persist in the production of Asian American culinary and alimentary practices ideas and images This is the first collection to consider the fraught itineraries of Asian American immigrant histories and how they are inscribed in the production and dissemination of ideas about Asian American foodways *Faulkner and the Ecology of the South* Joseph R. Urgo, Ann J. Abadie, 2009-09-18 In 1952 Faulkner noted the exceptional nature of the South when he characterized it as the only really authentic region in the United States because a deep indestructible bond still exists between man and his environment The essays collected in *Faulkner and the Ecology of the South* explore Faulkner's environmental imagination seeking what Ann Fisher Wirth calls the ecological counter melody of his texts Ecology was not a term in common use outside the sciences in Faulkner's time However the word environment seems to have held deep meaning for Faulkner Often he repeated his abiding interest in man in conflict with himself with his fellow man or with his time and place his environment Eco criticism has led to a renewed interest among literary scholars for what in this volume Cecelia Tichi calls humanness within congeries of habitats and environments Philip Weinstein draws on Pierre Bourdieu's notion of habitus Eric Anderson argues that Faulkner's fiction has much to do with ecology in the sense that his work often examines the ways in which human communities interact with the natural world and Francois Pitavy sees Faulkner's wilderness as unnatural in the ways it represents reflections of man's longings and frustrations Throughout these essays scholars illuminate in fresh ways the precarious ecosystem of Yoknapatawpha County Fruitful Legacy Susan Dolan, 2009
