Naval Air Systems Command, 1975 Embodying the Soul Meg Leja, 2022-04-26 Embodying the Soul explores the possibilities and limitations of human intervention in the body's health across the ninth century Carolingian Empire Early medieval medicine has long been cast as a superstitious degraded remnant of a vigorous rational Greco Roman tradition Against such assumptions Meg Leja argues that Carolingian scholars engaged in an active debate regarding the value of Hippocratic knowledge a debate framed by the efforts to define Christian orthodoxy that were central to the reforms of Charlemagne and his successors From a subject with pagan origins that had suspicious links with magic medical knowledge gradually came to be classified as a sacred art This development coincided with an intensifying belief that body and soul the two components of individual identity cultivated virtue not by waging combat against one another but by working together harmoniously The book demonstrates that new discussions regarding the legitimacy of medical learning and the merits of good health encouraged a style of self governance that left an enduring mark on medieval conceptions of individual responsibility The chapters tackle questions about the soul's material occupation of the body the spiritual meaning of illness and the difficulty of diagnosing the ills of the internal bodily cavity Combating the silence on dark age medicine Embodying the Soul uncovers new understandings of the physician the popularity of preventative regimens and the theological importance attached to dietary regulation and bloodletting In presenting a cultural history of the body the book considers a broad range of evidence theological and pastoral treatises monastic rules court poetry capitularies hagiographies biographies and biblical exegesis Most important it offers a dynamic reinterpretation of the large numbers of medical manuscripts that survive from the ninth century but have rarely been the focus of historical study Subject Guide to Books in Print , 1984 *The Manual of Linotype Typography* Mergenthaler Linotype Company, William Dana Orcutt, Edward Everett Bartlett, 1923 Backpacker , 2001-03 Backpacker brings the outdoors straight to the reader's doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world's first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker's Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured **Subject Guide to Children's Books in Print** , 1987 **Guide to Reprints 2007** K.
