Foursquare Disaster Relief Training Training Manual:

Re-Imagining Short-Term Missions Forrest Inslee,Angel Burns,2022-03-10 This book is for those who suspect that current practices of short term missions are in need of serious reform It is a book for those who recognize that in this decade of global upheaval and in light of the cultural political and demographic shifts affecting churches everywhere now is the time for change The essays here are intended to equip and inspire any who want to advocate for change but may not yet know what change looks like This book offers honest perspectives from people who care about the purposes of short term missions STM yet know that we must figure out better ways of achieving them Nearly all contributors are actively engaged in STM and many write from the perspective of those who host STM teams in places all over the world This book is a platform for visionaries who are calling for better ways for the church to engage the needs of the world In sharing their experiences they hope to promote critical rethinking and creative reimagination about the ways that the global church might learn to collaborate on a new basis of coequality and mutual respect for the good of the world and the glory of God Handbook of Big Geospatial Data Martin Werner,Yao-Yi Chiang,2021-05-07 This handbook covers a wide range of topics related to the collection processing analysis and use of geospatial data in their various forms This handbook provides an overview of how spatial computing technologies for big data can be organized and implemented to solve real world problems Diverse subdomains ranging from indoor mapping and navigation over trajectory computing to earth observation from space are also present in this handbook It combines fundamental contributions focusing on spatio textual analysis uncertain databases and spatial statistics with application examples such as road network detection or colocation detection using GPUs In summary this handbook gives an essential introduction and overview of the rich field of spatial information science and big geospatial data It introduces three different perspectives which together define the field of big geospatial data a societal governmental and governance perspective It discusses questions of how the acquisition distribution and exploitation of big geospatial data must be organized both on the scale of companies and countries A second perspective is a theory oriented set of contributions on arbitrary spatial data with contributions introducing into the exciting field of spatial statistics or into uncertain databases A third perspective is taking a very practical perspective to big geospatial data ranging from chapters that describe how big geospatial data infrastructures can be implemented and how specific applications can be implemented on top of big geospatial data This would include for example research in historic map data road network extraction damage estimation from remote sensing imagery or the analysis of spatio textual collections and social media This multi disciplinary approach makes the book unique This handbook can be used as a reference for undergraduate students graduate students and researchers focused on big geospatial data Professionals can use this book as well as practitioners facing big collections of geospatial data **Library as Safe Haven** Deborah D. Halsted,Shari C. Clifton,Daniel T. Wilson,2014-08-05 Libraries have always played a special role in times of disaster by continuing to provide crucial information and services The Stafford

Act of 2011 a federal government directive designates libraries as among the temporary facilities delivering essential services making a Continuity of Operations Plan imperative for libraries

Peppered with informative first person narratives from librarians recounting emergency situations Halsted Clifton and Wilson cover such topics as An eight step approach to developing a risk assessment plan How to draft a one page service continuity plan Information on how to use mobile devices and social media effectively in times of disaster Sample disaster plans along with model exercises manuals and customizable communications Published in cooperation with the Medical Library Association MLA this nuts and bolts resource will enable libraries of all kinds to do their best while planning for the worst
