Anarchism and utopianism Laurence Davis, Ruth Kinna, 2024-06-04 This collection of original essays examines the relationship between anarchism and utopianism exploring the intersections and overlaps between these two fields of study and providing novel perspectives for the analysis of both The book opens with an historical and philosophical survey of the subject matter and goes on to examine antecedents of the anarchist literary utopia anti capitalism and the anarchist utopian literary imagination free love as an expression of anarchist politics and utopian desire and revolutionary practice Contributors explore the creative interchange of anarchism and utopianism in both theory and modern political practice debunk some widely held myths about the inherent utopianism of anarchy uncover the

anarchistic influences active in the history of utopian thought and provide fresh perspectives on contemporary academic and activist debates about ecology alternatives to capitalism revolutionary theory and practice and the politics of art gender and sexuality Scholars in both anarchist and utopian studies have for many years acknowledged a relationship between these two areas but this is the first time that the historical and philosophical dimensions of the relationship have been investigated as a primary focus for research and its political significance given full and detailed consideration *Anarchafeminism* Chiara Bottici, 2021-11-18 How can we be sure the oppressed do not become oppressors in their turn How can we create a feminism that doesn't turn into yet another tool for oppression It has become commonplace to argue that in order to fight the subjugation of women we have to unpack the ways different forms of oppression intersect with one another class race gender sexuality disability and ecology to name only a few By arguing that there is no single factor or arche explaining the oppression of women Chiara Bottici proposes a radical anarchafeminist philosophy inspired by two major claims that there is something specific to the oppression of women and that in order to fight that we need to untangle all other forms of oppression and the anthropocentrism they inhabit Anarchism needs feminism to address the continued subordination of all femina but feminism needs anarchism if it does not want to become the privilege of a few Anarchafeminism calls for a decolonial and deimperial position and for a renewed awareness of the somatic communism connecting all different life forms on the planet In this new revolutionary vision feminism does not mean the liberation of the lucky few but liberation for all living creatures from both capitalist exploitation and an androcentric politics of domination Either all or none of us will be free **After the Crisis** James G. Carrier, 2016-02-12 After the Crisis Anthropological Thought Neoliberalism and the

Aftermath offers a thought provoking examination of the state of contemporary anthropology identifying key issues that have confronted the discipline in recent years and linking them to neoliberalism and suggesting how we might do things differently in the future The first part of the volume considers how anthropology has come to resemble as a result of the rise of postmodern and poststructural approaches in the field key elements of neoliberalism and neoclassical economics by rejecting the idea of system in favour of individuals It also investigates the effect of the economic crisis on funding and support for higher education and addresses the sense that anthropology has lost its way with uncertainty over the purpose and future of the discipline The second part of the book explores how the discipline can overcome its difficulties and place itself on a firmer foundation suggesting ways that we can productively combine the debates of the late twentieth century with a renewed sense that people live their lives not as individuals but as enmeshed in webs of relationship and obligation

interested in how people confront the challenges of racial exclusion and historical inequality and how a few bold agents of transformation seek to create new social spaces to cross old barriers Richard A Wilson author of *The Politics of Truth and Reconciliation in South Africa* Cape Town and anthropology come alive in Besteman's work Insightful dynamic and well written this book opens a space of trust to understanding the pains and creative innovations of transition of people politics and daily survival in a new light Carolyn Nordstrom author of *Global Outlaws and Shadows of War* Besteman navigates and illuminates post apartheid Cape Town with uncommon skill She brings to bear an anthropologist's training a reporter's eye and ear for the choice remark the telling detail and a candid sympathy for the disenfranchised whose lot in South Africa has not necessarily improved under democracy It's a distressing picture she draws the persisting mutual ignorance even reciprocal demonization across old ethnic and racial lines alongside the ongoing economic injustice The revolution in South Africa has been a piecemeal affair and Besteman's descriptions of the difficulties that even the best intentioned individuals encounter as they struggle toward creating a general social transformation ring painfully true William Finnegan author of *Crossing the Line* Dateline Soweto A Complicated War and Cold New World Transforming Cape Town is a fascinating account of how people in this divided city engage with democracy transformation and the legacies and ongoing realities of radical inequalities Through conversations with ordinary people Besteman explores the ways in which apartheid's legacies continue to shape interactions both intimate and public In doing so she restores a sense of faith in anthropology as a tool for understanding and critiquing social worlds Fiona Ross author of *Bearing Witness Women and Truth and Reconciliation*

Against Anarchy Cord-Christian Casper, 2020-08-24 Against Anarchy investigates the function of Anarchism in Early Modernist political fiction The study explains how political novels from 1886 to 1911 narrate and evaluate the function of Anarchists as embodiments of a radical space beyond politics The literary prevalence of Anarchists has so far not been connected systematically to its literary and political functions The study addresses this research gap in detailed analyses of a radical theme in narratives by Joseph Conrad Henry James and G K Chesterton It shows that each novel presents strategies of demarcation that allow turn of the century Britain to project its cultural anxieties upon an imagined other the dreaded figure labelled Anarchist The political radical is set up as the foil against which comforting self descriptions can be maintained Rather than merely reproducing this boundary work however the novels also evaluate its function both for the respective political system and for their own narrative capabilities and present the consequences incurred by the loss of an anarchist outside Against Anarchy is a thorough cultural historiography of the politically other and marginal At the same time the study demonstrates that close attention to the specific literary image of Anarchism allows for a re evaluation of political thought beyond its immediate historical moment a literary political theory in its own right
