

manual is intended to provide the means for a State civil aviation authority to qualify a flight simulator, subsequent to a request by an applicant, through initial and recurrent evaluations. Further, the manual is intended to provide the means for the civil aviation authorities of other States to accept the qualifications granted by the State that conducted the initial and recurrent evaluation of a flight simulator, without repetitive evaluations, when considering approval of the use of that flight simulator by applicants from their own State.

4.12.3 In the event that training is accomplished using some other operator's facilities, it will be necessary to specify a system of checking that the training, both ground and airborne, is compatible with the operator's own requirements, and to the standard required. It is essential to ensure that the training given at some other facility meets with requirements laid down by the State of the Operator. A physical check should be made to ensure that any differences between the flight simulator and an operator's own aeroplane are not operationally significant. In the event that the other operator's training personnel are utilized, it is essential to get the approval of the operator's own State authority for this and the training manuals should list, by name, the training personnel approved. In the event that all initial, recurrent, and proficiency training is done at some other operator's training facility, the training manual should specify any additional route training and checking considered necessary to ensure that there is an adequate exposure of flight crew to the operator's own operational philosophy and training procedures.

4.13 SECURITY TRAINING

4.13.1 Annex 6, Parts I and III, requires that an operator establish and maintain a training programme which enables crew members to act in the most appropriate manner to minimize the consequences of acts of unlawful interference. Annex 17 — *Security — Safeguarding International Civil Aviation against Acts of Unlawful Interference* — states that States shall require operators to establish security programmes and to apply them in proportion to the threat. It is advisable, when establishing a programme, to seek the advice and guidance of the national civil aviation security committee or the authority responsible for the national civil aviation security programme. The annex also recommends that States require operators to include in their security programmes measures and procedures to ensure safety on board an aeroplane when persons are being carried in the custody of law enforcement officers or other authorized persons. Annex 6, Parts I and III, requires that an operator establish

and maintain a training programme which enables crew members to act in the most appropriate manner to minimize the consequences of acts of unlawful interference. Guidance is given in the *ICAO Training Manual* (Doc 7192), Part A-3.

4.13.2 Annex 6, Parts I and III, also requires that an operator ensure that there is on board a checklist of the procedures to be followed in searching for a bomb in case of a threat of sabotage, and that this checklist be supported by guidance on the course of action to be taken should a bomb or suspicious object be found.

Note. — Guidance on security training and related matters is given in the *ICAO Security Manual*.

4.14 DANGEROUS GOODS TRAINING PROGRAMME

The successful application of regulations concerning the transport of dangerous goods and the achievement of their objectives are greatly dependent on the appreciation by all individuals concerned of the risks involved and on a detailed understanding of the regulations. This can only be achieved by properly planned and maintained initial and recurrent training programmes for all persons concerned in the transport of dangerous goods. Annex 18 — *The Safe Transport of Dangerous Goods by Air* requires that dangerous goods training programmes be established. Part 6 of the *ICAO Technical Instructions for the Safe Transport of Dangerous Goods by Air* (Doc 9284) gives further details. The *ICAO Dangerous Goods Training Programme* (Doc 9375), Book 2 — *Load Planners and Flight Crew* and Book 3 — *Passenger Handling Staff and Flight Attendants* provide guidance on the content of the training programme. Dangerous goods training programmes must be subject to review and approval by the State of the Operator.

4.15 CABIN ATTENDANT TRAINING

4.15.1 The training manual should provide details of the necessary functions to be performed by cabin attendants in an emergency or in a situation requiring emergency evacuation. These functions shall be assigned for each aircraft type and should form the basis of the cabin attendant's initial and recurrent training. The basic subjects that should be addressed in the training programme are detailed in Annex 6, Parts I and III. An
