Foundations For A Practical Theology Of Ministry:

Foundations for a Practical Theology of Ministry James Newton Poling, Donald Eugene Miller, 1985 The pastoral ministry is in danger of losing its focus say the authors of this perceptive and timely study Specialization in preaching counseling evangelism administration and education has diffused the impact of practical theology And because of competing ideas as to what now is central the very image of ministry may be breaking down Foundations for a Practical Theology of Ministry responds to the problem by introducing a specific method for doing practical theology which will be welcomed by concerned church leaders everywhere Presenting a realistic workable answer to those who call for a revival of this vital discipline Drs James N Poling and Donald E Miller propose that the unifying image for ministry becomes the formation of the community of faith After developing this as the most appropriate base for the practice of theology they carefully outline their method and show how it will work by demonstrating its success in the actual experiences of typical congregations For Christian leaders who seek to renew the integrity of ministry and restore the character of pastoral leadership this significant book will provide a solid foundation And for individuals interested or involved in education for the future of the church this important resource will prove invaluable

Taking on Practical Theology Courtney Goto, 2018-08-20 In *Taking on Practical Theology* Courtney T Goto explores the regnant paradigm that shapes knowledge production and that preserves power privilege and historic communal injury even as scholars intend to enlighten and transform communities Approaching context as a case study Goto illumines how this commonly used taken for granted concept is idolized Though practical theologians are sensitive to context researchers often fail to consider how their own assumptive world dictates and influences their practices of research teaching and engaging in scholarly conversations These practices unwittingly validate scholars who enjoy the most social capital while inflicting harm on both communities they research and on colleagues and students who do not fit or fit less well the norms of the majority

Nicole L. Johnson, 2009-06-01 Despite a plurality of doctrinal statements on war peace and nonviolence some United Methodists sustain a commitment to nonviolence Through qualitative research *Practicing Discipleship* draws out lived theologies of nonviolence in order to understand how nonviolent United Methodists define ground and practice nonviolence and to give that voice opportunity to challenge church doctrine and thereby the wider church An analysis of statements from the Book of Disciplines and the Book of Resolutions reveals the plurality of Methodist teachings on moral issues related to war and peace While such plurality is indicative of the inclusive tradition of United Methodism Johnson shows that it also causes confusion thus hindering the vitality and authority of the church's witness This study's qualitative analysis of in depth interviews with twelve nonviolent United Methodists reveals a lived theology rooted in Scripture and theological reflection it points particularly to a christocentrism that posits nonviolence as central to Christ's teachings and example While study participants affirm the tradition of openness in the United Methodist Church they also call for more tangible and extensive support for and education about nonviolence as a faithful option for Christians Through amicable and constructive practical theological dialogue doctrinal plurality and ecclesial openness are affirmed as appropriate and possible only within the context of the church's profound commitment to serious discipleship which includes transformation toward nonviolence Implications of this interaction include developing and adopting a more truthful conception of a nonviolent ethics moving toward broadly conceived Christian formation in nonviolence and fostering ongoing ecclesial dialogue about difficult moral issues of war peace and nonviolence Practical Theology Gerben Heitink, 1999 This work by a leading figure in the field offers one of the first attempts to formulate a complete theory of practical theology for scholars teachers students and those directly involved in pastoral ministry Designed to serve as a reference tool this volume provides the necessary theoretical discussion for work in the entire discipline of practical theology Gerben Heitink first surveys the historical development of practical theology from the thought of Schleiermacher to the present He then outlines the theoretical aspects of practical theology looking especially at the hermeneutical empirical and strategic points of view Finally Heitink discusses the various contexts in which practical theology takes place *Opening the Field of Practical Theology* Kathleen A. Cahalan, Gordon S. Mikoski, 2014-04-10 *Opening the Field of Practical Theology* introduces students to practical theology through an examination of fifteen different approaches ranging from feminist to liberationist Roman Catholic to evangelical Asian American to Latino a After an introduction to the field of practical theology and its broad range of practice today the book features chapters written by leading experts in the discipline Each chapter has an identical structure to facilitate comparison covering historical context key features and figures norms and sources of authority theory practice contexts interdisciplinary considerations areas of current and future research and suggested readings *Opening the Field of Practical Theology* is an ideal introduction to the field highlighting the diverse ways practical theology is engaged today Ministry on the Fireline

Ray S. Anderson, 2011-07-12 The best theory for fighting fires comes from actually engaging in the battle against the flames Ray Anderson writes For the thousands of pastors and church leaders who are on the firelines of God's mission in the world we need a theology that sings even as it stings igniting the mind and stirring the heart In these pages then Anderson passionately sets forth a vision of the church's work and mission based on its birthday Pentecost At Pentecost Christians were given the Holy Spirit in order to understand the incarnation and come alive to God So this key event directs and empowers the church in its service to the world In the light of Pentecost we learn that we can come to know God only in praxis truth discovered through action In the process of elucidating this praxis Anderson seeks to construct a theology that not only truly respects and aids ministers on the firelines but will also heal the breach between Pentecostal and mainline church theology

Practical Theology in Church and Society Joseph E. Bush Jr., 2016-07-20 The church exists in the world and our ministry is inextricably social in nature Practical theology takes this seriously and asks us to reflect on our practice of ministry in both church and society This book attends to our practice as individuals in ministry to our corporate practice as congregations in

ministry and to our practice as Christians within the wider social and natural world Practical Theology in Church and Society brings into sharper focus two perspectives on practical theology One is the view through the wide angle lens of justice oriented action which hopes for liberation This view encompasses a broad vista of social forces for justice and injustice when evaluating local movements and local ministries The other perspective takes the narrower focus of the action reflection model as it is used to zoom in on individual actions and particular practices of ministry such as pastoral care The purpose of the book is to integrate these two perspectives on practical theology It explicates a cyclical method for doing theology that has corollaries within the disciplines of practical theology liberation theology missiology congregation studies and ministerial leadership The volume provides resources for developing more socially and ecologically engaged ministries and it draws implications for ministerial education
