I, Livia Mary Mudd, 2005-06-30 A historical tradition of Roman origin represents Livia Drusilla the third and much beloved wife of Caesar Augustus as a conniving Borgia like criminal This view of Livia maintains that to promote the political career of her son by her former husband Livia killed or incapacitated Augustus descendants through his previous wife Author Robert Graves in his famous novel I Claudius based his fictitious rendering of Livia upon this malevolent representation of her The conceit is patently wrong and essentially all modern scholars of Roman history reject it But thanks to Graves immensely entertaining book and the British Broadcasting Corporation adaptation of it for television the image of Livia as a devious dynastic murderess prevails in the popular mind I Livia The Counterfeit Criminal aspires to correct the misconception and present an accurate assessment of this much maligned woman The study s comfortably readable style is intended for general audiences The first three chapters present a biographical sketch which focuses on Livia s public life Livia was accepted as an extraordinarily visible dynamic and influential political personage by a society and culture that maintained that women must confine their activities childrearing and other domestic pursuits The following two chapters demonstrate the absurdity of Livia s criminal reputation and offer explanation for its development Three subsequent chapters seek Livia s private side her habits tastes and interpersonal relationships Livia who suffered from colds and chronic arthritis was an amiable soul with a self deprecating sense of humor She was a loving supportive forbearant wife and mother an intellectual with profound political insights an enthusiastic traveller a connoisseur of art Although generally patient and demure she could also be impulsive assertive opinionated and especially in later life petulant The final chapter examines how Livia became and remained a symbol of Roman imperial power The brief epilogue describes the physical appearances of Livia and the members of her family Also included are relevant appendices a comprehensive bibliography and color images of surviving wall paintings from her homes

The Nation, 1923 **Transactions and Proceedings of the American Philological Association** American Philological Association, 1927 Bibliographical record of works published by members of the Association in v 28 1897 *Papers and Monographs of the American Academy in Rome* American Academy in Rome, 1955 The Anthropology of Complex Economic Systems Niccolo Leo Caldararo, 2013-11-14 Today we live in what Ulrich Beck has aptly characterized as a risk society shaped by intensifying crises outside of our control and seemingly outside of our comprehension The master narrative that was supposed to lead us to secular salvation economics has proved to be a large part of the problem rather than the much anticipated solution In *The Anthropology of Complex Economic Systems* Niccolo Caldararo offers a much more radical

and challenging answer that the fundamental assumptions on which the modern science of economics has been erected are false and that it is through the medium of anthropology particularly the relatively neglected field of economic anthropology that an alternative and sound basis for both the understanding of economic behavior and for the shaping of economic futures can be constructed Caldararo not only challenges the foundational assumptions of conventional economic theory but situates economic behavior something quite different and universal amongst human beings in both a historical and an ecological context Contemporary discussions of sustainability especially in the field of development studies have oddly neglected to look to anthropology Economic anthropology is the repository of a vast store of wisdom both about actual alternative and workable economic systems and about their evolution By drawing on this source Caldararo builds a model of the evolution of human economies which stir up substantial debate shows how economic anthropology provides a tool for the interrogation of economic theory and ties economics to ecology It has been the rupture of this fundamental relationship that lies at the basis of much of our present crisis and the unsustainable economic patterns that humans have created By bringing together in a new configuration economic anthropology ecology and culture history Caldararo not only proposes a new model of human social evolution but equally importantly creates a methodology for speaking to and against our present economic and environmental situation
