Framing Fat Competing Constructions In Contemporary Culture

Samantha Kwan, Jennifer Graves

Framing Fat Competing Constructions In Contemporary Culture:

Framing Fat Samantha Kwan, Jennifer Graves, 2013-05-03 According to public health officials obesity poses significant health risks and has become a modern day epidemic A closer look at this so called epidemic however suggests that there are multiple perspectives on the fat body not all of which view obesity as a health hazard Alongside public health officials at the Centers for Disease Control and Prevention are advertisers of the fashion beauty complex food industry advocates at the Center for Consumer Freedom and activists at the National Association to Advance Fat Acceptance Framing Fat takes a bird s eye view of how these multiple actors construct the fat body by identifying the messages these groups put forth particularly where issues of beauty health choice and responsibility and social justice are concerned Samantha Kwan and Jennifer Graves examine how laypersons respond to these conflicting messages and illustrate the gendered raced and classed implications within them In doing so they shed light on how dominant ideas about body fat have led to the moral indictment of body nonconformists essentially framing them for their fat bodies

On the Politics of Ugliness Sara Rodrigues, Ela Przybylo, 2018-08-29 Ugliness or unsightliness is much more than a quality or property of an individual s appearance it has long functioned as a social category that demarcates access to social cultural and political spaces and capital The editors of and authors in this collection harness intersectional and interdisciplinary approaches in order to examine ugliness as a political category that is deployed to uphold established notions of worth and entitlement On the Politics of Ugliness identifies and challenges the harmful effects that labels and feelings of ugliness have on individuals and the socio political order It explores ugliness in relation to the intersectional processes of racialization colonization and settler colonialism gender making ableism heteronormativity and fatphobia On the Politics of Ugliness asks that we fight against visual injustice and imagine new ways of seeing

The Oxford Handbook of the Sociology of Body and Embodiment Natalie Boero, Katherine Mason, 2020-11-02 In popular debates over the influences of nature versus culture on human lives bodies are often assigned to the category of nature biological essential and pre social The Oxford Handbook of the Sociology of Body and Embodiment challenges that view arguing that bodies both shape and get shaped by human societies As such the body is an appropriate and necessary area of study for sociologists The Handbook works to clarify the scope of this topic and display the innovations of research within the field The volume is divided into three main parts Bodies and Methodology Marginalized Bodies and Embodied Sociology Sociologists contributing to the first two parts focus on the body and the ways it is given meaning regulated and subjected to legal and medical oversight in a variety of social contexts particularly when the body in question violates norms for how a culture believes bodies ought to behave or appear Sociologists contributing to the last part use the bodily as a lens through which to study social institutions and experiences These social settings range from personal decisions about medical treatment to programs for teaching police recruits how to use physical force from social movement tactics to countries understandings of race and national identity The Oxford Handbook of the Sociology of

the Body also prioritizes empirical evidence and methodological rigor attending to the ways particular lives are lived in particular physical bodies located within particular cultural and institutional contexts Many chapters offer extended methodological reflections providing guidance on how to conduct sociological research on the body and at times acknowledging the role the authors own bodies play in developing their knowledge of the research subject *Fat Planet* Eileen P. Anderson-Fye, Alexandra Brewis, 2017-04-01 The average size of human bodies all over the world has been steadily rising over recent decades The total count of people clinically labeled obese is now at least three times what it was in 1980 *Fat Planet* represents a collaborative effort to consider at a global scale what fat stigma is and what it does to people Making use of an array of social science perspectives applied in multiple settings the authors examine the interplay of weight wealth history culture and meaning to fat and its social rejection They explore the notion of symbolic body capital the power of non fat bodies to do what people need or want In so doing they illustrate the complex and quickly shifting dynamics in thinking about fat often considered personal yet powerfully influenced by and influential upon the broader world in which we live

Fat Oppression around the World Ariane Prohaska, Jeannine A. Gailey, 2021-08-12 This book offers cutting edge intersectional and interdisciplinary research in the blossoming field of fat studies The aim is to generate discussion about the complexity of fat oppression as a phenomenon and social force that permeates interactions both at an institutional and interpersonal level impacting the lived experiences of fat people Each chapter has been carefully selected to create a space to showcase the engaging intersectional and interdisciplinary fat studies scholarship that is taking place globally This engaging book will take the reader around the world by examining weight loss classes in Ireland Jamaican women s views of health and fatness the difficulties of immigrating while fat to New Zealand fat activism in Finnish media being fat and pregnant in Australia a girls camp in the United States and the experiences of fat hatred felt by queer fat women in Canada This book will inspire fat studies scholars globally to incorporate intersectional approaches and qualitative methods in future work The chapters in this book were originally published in *Fat Studies An Interdisciplinary Journal of Body Weight and Society* Schooled on Fat Nicole Taylor, 2015-12-22 Winner of the Reader Views Literary Award Societal Issues and the Reviewers Choice Best Non fiction Book of the Year Specialty Awards *Schooled on Fat* explores how body image social status fat stigma and teasing food consumption behaviors and exercise practices intersect in the daily lives of adolescent girls and boys Based on nine months of fieldwork at a high school located near Tucson Arizona the book draws on social linguistic and theoretical contexts to illustrate how teens navigate the fraught realities of body image within a high school culture that reinforced widespread beliefs about body size as a matter of personal responsibility while offering limited opportunity to exercise and an abundance of fattening junk foods Taylor also traces policy efforts to illustrate where we are as a nation in addressing childhood obesity and offers practical strategies schools and parents can use to promote teen wellness This book is ideal for courses on the body fat studies gender studies language and culture school culture and policy public ethnography

deviance and youth culture **The Future Is Fat** Jen Rinaldi, May Friedman, Emily R.M. Lind, Crystal Kotow, Tracy Tidgwell, 2021-08-12 Fat bodies of today are commonly assumed to have no future at all In this line of thinking a fat life is framed as failure and a fast track towards death itself Meanwhile the histories of modern fat existence communities activists and artists have been essentially unknown written out of origins and existence Most medical and cultural evaluations of fat have rendered the fat body more and more visible and yet the lived experiences of fat people are continually erased At a moment when scholars from various disciplines are contending with the question of who has a future this book explores the relationship between fat experience and the social construction of time The works in this volume draw from fields as diverse as social geography women and gender studies critical race theory disability studies cultural studies visual art and craft social work communication studies and queer theory generating renewed understandings of the relationship between fatness and temporality The Future Is Fat reimagines understandings of time to allow for new expressions of fat experience The chapters in this book were originally published as a special issue of Fat Studies An Interdisciplinary Journal of Body Weight and Society *The Routledge International Handbook of Fat Studies* Cat Pausé, Sonya Renee Taylor, 2021-04-18 The Routledge International Handbook of Fat Studies brings together a diverse body of work from around the globe and across a wide range of Fat Studies topics and perspectives The first major collection of its kind it explores the epistemology ontology and methodology of fatness with attention to issues such as gender and sexuality disability and embodiment health race media discrimination and pedagogy Presenting work from both scholarly writers and activists this volume reflects a range of critical perspectives vital to the expansion of Fat Studies and thus constitutes an essential resource for researchers in the field **Deviance** Leon Anderson, 2017-08-22 Deviance Social Constructions and Blurred Boundaries draws on up to date scholarship across a wide spectrum of deviance categories providing a symbolic interactionist analysis of the deviance process The book addresses positivistic theories of deviant behavior within a description of the deviance process that encompasses the work of deviance claims makers rule breakers and social control agents Students are introduced to the sociology of deviance learn to analyze several kinds of criminal deviance that involve unwilling victims such as murder rape street level property crime and white collar crime learn to examine several categories of lifestyle and status deviance develop skills for critical analysis of criminal justice and social policies Overall students gain an understanding of the sociology of deviance through cross cultural comparisons historical overview of deviance in the U S and up close analysis of the lived experience of those who are labeled deviant as well as responses to them in the U S today Instructor Resources are available to easily help with lecture and exam preparation *Watching Our Weights* Melissa Zimdars, 2019-02-07 Watching Our Weights explores the competing and contradictory fat representations on television that are related to weight loss and health medicalization and disease and body positivity and fat acceptance Melissa Zimdars establishes how television shapes our knowledge of fatness and how fatness helps us better understand contemporary television The Bloomsbury Handbook of

Food and Popular Culture Kathleen Lebesco, Peter Naccarato, 2017-12-14 The influence of food has grown rapidly as it has become more and more intertwined with popular culture in recent decades The Bloomsbury Handbook of Food and Popular Culture offers an authoritative comprehensive overview of and introduction to this growing field of research Bringing together over 20 original essays from leading experts including Amy Bentley Deborah Lupton Fabio Parasecoli and Isabelle de Solier its impressive breadth and depth serves to define the field of food and popular culture Divided into four parts the book covers Media and Communication including film television print media the Internet and emerging media Material Cultures of Eating including eating across the lifespan home cooking food retail restaurants and street food Aesthetics of Food including urban landscapes museums visual and performance arts Socio Political Considerations including popular discourses around food science waste nutrition ethical eating and food advocacy Each chapter outlines key theories and existing areas of research whilst providing historical context and considering possible future developments The Editors Introduction by Kathleen LeBesco and Peter Naccarato ensures cohesion and accessibility throughout A truly interdisciplinary ground breaking resource this book makes an invaluable contribution to the study of food and popular culture It will be an essential reference work for students researchers and scholars in food studies film and media studies communication studies sociology cultural studies and American studies **Foodies** Josee Johnston, Shyon

Baumann, 2014-12-19 This important cultural analysis tells two stories about food The first depicts good food as democratic Foodies frequent hole in the wall ethnic eateries appreciate the pie found in working class truck stops and reject the snobbery of fancy French restaurants with formal table service The second story describes how food operates as a source of status and distinction for economic and cultural elites indirectly maintaining and reproducing social inequality While the first storyline insists that anybody can be a foodie the second asks foodies to look in the mirror and think about their relative social and economic privilege By simultaneously considering both of these stories and studying how they operate in tension a delicious sociology of food becomes available perfect for teaching a broad range of cultural sociology courses Corpus,

Discourse and Mental Health Daniel Hunt, Gavin Brookes, 2020-05-28 Shortlisted for the 2021 BAAL Book Prize for an outstanding book in the field of Applied Linguistics Situated at the interface of corpus linguistics and health communication Corpus Discourse and Mental Health provides insights into the linguistic practices of members of three online support communities as they describe their experiences of living with and managing different mental health problems including anorexia nervosa depression and diabulimia In examining contemporary health communication data the book combines quantitative corpus linguistic methods with qualitative discourse analysis that draws upon recent theoretical insights from critical health sociology Using this mixed methods approach the analysis identifies patterns and consistencies in the language used by people experiencing psychological distress and their role in realising varying representations of mental illness diagnosis and treatment Far from being neutral accounts of suffering and treating illness corpus analysis illustrates

that these interactions are suffused with moral and ideological tensions sufferers seek to collectively negotiate responsibility for the onset and treatment of recalcitrant mental health problems Integrating corpus linguistics critical discourse analysis and health sociology this book showcases the capacity of linguistic analysis for understanding mental health discourse as well as critically exploring the potential of corpus linguistics to offer an evidence based approach to health communication research

Social Justice in Physical Education Daniel B. Robinson, Lynn Randall ,2016-04-25 The physical education classroom can be a site of discomfort for young people who occupy marginalized identities and a place where the normative beliefs and teaching practices of educators can act as a barrier to their inclusion This timely edited collection challenges pre service and in service teachers to examine the pedagogical practices and assumptions that work to exclude students with intersecting and diverse identities from full participation in physical and health education The contributors to this volume who consist of both experienced and emerging scholars from Canada the United States the United Kingdom Australia and New Zealand approach their topics from a range of social justice perspectives and interpretations Covering a variety of areas including disability gender sexuality race social class and religion *Social Justice in Physical Education* promotes a broader understanding of the sociocultural political and institutional practices and assumptions that underlie current physical education teaching Each chapter encourages the creation of more culturally relevant and inclusive pedagogy policy and practice and the discussion questions invite readers to engage in critical reflection Mapping a better way forward for physical and health education this text will be an invaluable resource for courses on social justice diversity inclusive education and physical education pedagogy

Cyberbullies, Cyberactivists, Cyberpredators Lauren Rosewarne,2016-01-25 Written by an expert in media popular culture gender and sexuality this book surveys the common archetypes of Internet users from geeks nerds and gamers to hackers scammers and predators and assesses what these stereotypes reveal about our culture s attitudes regarding gender technology intimacy and identity The Internet has enabled an exponentially larger number of people individuals who are members of numerous and vastly different subgroups to be exposed to one other As a result instead of the simple jocks versus geeks paradigm of previous eras our society now has more detailed stereotypes of the undesirable the under the radar and the ostracized cyberperverts neckbeards goths tech nerds and anyone with a non heterosexual identity Each chapter of this book explores a different stereotype of the Internet user with key themes such as gender technophobia and sexuality explored with regard to that specific characterization of online users Author Lauren Rosewarne PhD supplies a highly interdisciplinary perspective that draws on research and theories from a range of fields psychology sociology and communications studies as well as feminist theory film theory political science and philosophy to analyze what these stereotypes mean in the context of broader social and cultural issues From cyberbullies to chronically masturbating porn addicts to desperate online daters readers will see the paradox in popular culture s message that while Internet use is universal actual Internet users are somehow subpar less desirable less cool less friendly than

everybody else **Using Corpus Methods to Triangulate Linguistic Analysis** Jesse Egbert, Paul Baker, 2019-09-17 This book builds on Baker and Egbert's previous work on triangulating methodological approaches in corpus linguistics and takes triangulation one step further to highlight its broader applicability when implemented with other linguistic research methods. The volume showcases research methods from other linguistic disciplines and draws on ten empirical studies from a range of topics in psycholinguistics, applied linguistics and discourse analysis to demonstrate how these methods might be most effectively triangulated with corpus linguistic methods. A concluding chapter synthesizes these findings as a means of pointing the way toward future directions for triangulation and its implications for future linguistic research. The combined effect reveals the potential for the triangulation of these methods to not only enhance rigor in empirical linguistic research but also our understanding of linguistic phenomena and variation by studying them from multiple perspectives, making this book essential reading for graduate students and researchers in corpus linguistics, applied linguistics, psycholinguistics and discourse analysis.

US Print Media Representations of Donald Trump and Hillary Clinton during the 2016 Election Boutheina Ben Ghazlen, 2022-09-21 This book presents a corpus-based study of the US print media representations of Donald Trump and Hillary Clinton during the 2016 election. It highlights substantial discrepancies in their media portrayals, essentially motivated by partisanship, journalistic norms, candidate-related attributes and the unfolding global changes. It offers new theoretical and practical insights into research on political communication, research corpus linguistics, systemic functional linguistics, critical discourse analysis and pragmatics.

Challenging Myths of Masculinity Lee F. Monaghan, Michael Atkinson, 2016-04-15 Many myths surround male bodies and associated bodywork, especially when such bodywork is labelled culturally or socially atypical or problematic. Bodybuilding, for example, has been explained in terms of gender inadequacy and an Adonis complex akin to reverse anorexia, while men electing to undergo aesthetic cosmetic surgery are deemed too concerned about their appearance and thus woman-like. Myths also discredit men and boys who do not engage in appropriate bodywork when this is expected. For instance, amidst public health concerns surrounding a so-called obesity epidemic, men and boys who resist physical activity and/or attempts to promote a healthy weight are deemed ignorant, apathetic and in need of correction. Drawing on extensive field research conducted in North America and Britain over a twenty-year period, this book challenges such masculine myth-making. Mindful of a rich sociological tradition that seeks to understand the social world as lived and experienced, the authors provide insights that are likely to challenge common perceptions of various groups of men and boys, their diverse physical cultures, shared ways of being and identities. Presenting empirically grounded understandings of diverse bodily practices and discourses, including bodybuilding, cosmetic surgery, dieting and nightclub security, *Challenging Myths of Masculinity* will appeal to scholars of sociology, geography and cultural studies with interests in gender embodiment and masculinities.

Beauty and the Norm Claudia Liebelt, Sarah Böllinger, Ulf Vierke, 2018-08-24 Recent decades have seen the rise of a global beauty boom with profound effects on perceptions of bodies

worldwide Against this background *Beauty and the Norm* assembles ethnographic and conceptual approaches from a variety of disciplines and across the globe to debate standardization in bodily appearance Its contributions range from empirical research to exploratory conversations between scholars and personal reflections Bridging hitherto separate debates in critical beauty studies cultural anthropology sociology the history of science disability studies gender studies and critical race studies this volume reflects upon the gendered classed and racialized body normative regimes of representation and the global beauty economy *Interpreting the Body* Ben Spatz, 2024-03-12 Written by leading social scientists this ambitious volume asks what individuals handling of bodies reveal about inequality social order and cultural change in societies

Framing Fat Competing Constructions In Contemporary Culture Book Review: Unveiling the Magic of Language
