**American Politics and the Environment, Second Edition** Byron W. Daynes, Glen Sussman, Jonathan P. West, 2016-03-01 Examines the role of politics in the environmental policy making process Changing our environmental policy has been at the forefront of many political discussions But how can we make this change come about In American Politics and the Environment Second Edition Byron W Daynes Glen Sussman and Jonathan P West argue it is critical that we must understand the politics of environmental decision making and how political actors operate within political institutions Blending behavioral and institutional approaches each chapter combines discussion of an institution along with sidebars focusing on a particular environmental topic as well as a personal profile of a key decision maker A central focus of this second edition is the emergence of global climate change as a key issue Although the scientific community can provide research findings to policy makers politics can create conflicts tensions and delays in the crafting of effective and necessary environmental policy responses Daynes Sussman and West help us understand the role of politics in the policy making process and why institutional players such as the president Congress and interest groups succeed or fail in responding to important environmental challenges

*Environmental Politics* Norman Miller, 2017-12-19 At every stage environmental policy is the result of the combat of stakeholders interested in and affected by the problem being addressed and the range of possible solutions The combatants include any or all of the following the federal government environmental advocacy groups and business the media the scientific community think tanks NGOs of every stripe trade associations and professional organizations and even state and local governments each of whom have their own interests in the resulting policy Environmental Politics Interest Groups the Media and the Making of Policy discusses political battles over the environment from ground level as they are fought in legislative chambers the daily newspaper on television and increasingly on the Internet The text explores environmental politics as a clash of interests not ideologies and environmental policy as a result of the reconciliation of those interests The author covers not only the conventional aspects of the policymaking process but more recent and less recognized elements and developments such as Proliferation of legislative riders and monument designations as major environmental strategies Evolving role of the media from science popularizer to

agenda setter Growing influence on both Congress and the public of conservative and libertarian foundations and think tanks Devolution of environmental power from the Federal to state governments Metamorphosis of EPA in a business driven regulatory revolution Effect of globalization on US environmental policy Newly emerging role of the precautionary principle in marrying science and politics Increasing role of the Internet in promoting populist issues and promoting the decentralization of the environmental power structure No other book covers the politics of the environment the way this one does Written by an expert with 25 years of experience in environmental policymaking Environmental Politics Interest Groups the Media and the Making of Policy gives you an insider s view of how policies are forged By examining these issues through an interest group lens this book not only accounts for what policies have been adopted but also shows how you can influence policy and effect change

**Global Political Economy** John Ravenhill,2014 Dealing with the central themes and issues of the subject this text outlines the different theoretical approaches of the global political economy as well as engaging key contemporary debates such as worldwide trade and production Environmental Change and Globalization: Double Exposures Robin Leichenko,Karen O'Brien,2008-08-28 This book explores the connections between two of the most transformative processes of the twenty first century namely climate change and globalization In this book Leichenko and O'Brien present a conceptual framework for analyzing the interactions between these two processes and illustrate through case studies how these interactions create situations of double exposure Drawing upon prominent recent and current climate related events Hurricane Katrina in New Orleans recurring droughts in India and the melting of Arctic sea ice the case studies each demonstrate a different pathway of interaction between globalization and global environmental change Through exploration of these pathways of double exposure the book also shows how broader human security concerns including growing inequalities growing vulnerabilities and unsustainable rates of development are integrally connected to both processes of global change The double exposure framework not only sheds light on the challenges raised by these two global processes but also reveals possibilities for using the interactions to generate positive opportunities for action
