**Multidisciplinary Research in Arts, Science & Commerce (Volume-11)** Chief Editor- Biplab Auddya, Editor- Dr. B. Deepa, Dr. Navanath Wajage, Prof. Dr. Alok Satsangi, Vidwan Manjesh M, Dr. Savitha V, Kera Ram,2024-11-05

**Environmental Change, Adaptation, and Security** S. Lonergan,2012-12-06 The chapters in this volume are edited versions of papers presented at the NATO Advanced Research Workshop on Environmental Change Adaptation and Security held in Budapest Hungary from October 16 18 1997 As is evident in this volume the papers ranged from descriptions of environmental and health issues in Russia and Eastern Europe to models of sustainable land use This diversity of perspectives on environment and security is indicative of both the breadth of this new area of research as well as the varied background of the researchers involved The discussions at the NATO workshop were remarkably animated and exciting not surprising given the interest in the topic I think this vitality is reflected in the papers in this volume as well The main purpose of the NATO ARW is to foster research links among researchers from NATO countries and Central and Eastern European States Russia and the Newly Independent States In editing this volume a decision was made to keep to the spirit of this purpose and if at all possible include all papers prepared for the workshop This required extensive editing and rewriting of some of the papers and consequent delays in production A determination was made early in the process by the workshop steering committee that the value of publishing the entire collection of articles outweighed the advantages of accepting only

a limited number      **Global Environmental Change** R E Hester,R M Harrison,2007-10-31 Few people today are unaware of the far reaching effects of global environmental change and it is now generally accepted that human activities are the root cause of the changes in climate Global Environmental Change provides a balanced overview of the problems associated with global warming Commencing with a chapter on the evidence for global warming presented by Sir John Houghton the book then goes on to discuss the many problems associated with air pollution Subsequent chapters cover rising sea levels the effect of climate change on human health and the role of environmental performance in industry This readable and factually detailed book will have wide appeal but will be of particular interest to environmental scientists industrial managers policy makers and students      **Human Rights and Climate Change** Stephen Humphreys,2010 This inquiry into the human rights dimensions of climate change identifies future perspectives concerns and dilemmas for law and policy      **Climate Change 2014 - Impacts, Adaptation and Vulnerability: Regional Aspects** Christopher B.
