Faith And Reason From Plato To Plantinga An Introduction To Reformed Epistemology:

Faith and Reason from Plato to Plantinga Dewey J. Hoitenga Jr.,1991-07-03 This book traces the historical lineages of Alvin Plantinga's religious epistemology from Plato through Augustine and Calvin. It focuses upon this epistemology as a philosophical interpretation of what is generally taken to be a narrow theological doctrine. The author provides a textually based and closely reasoned introduction to the epistemological ideas of Plato, Augustine, Calvin, Plantinga, and several other writers, and shows the continuity of a certain approach to the knowledge of God; it may be called the Platonic Augustinian Reformed or Calvinist approach. *Faith and Reason from Plato to Plantinga* Dewey J. Hoitenga,1991 *Faith and Reason from Plato to Plantinga* Dewey J. Hoitenga,1991-01-01 Analyse Contient un chapitre sur la connaissance de Dieu dans la thologie de Calvin **Tayloring Reformed Epistemology** Deane-Peter Baker,2007 In recent philosophical discourse there has been a proliferation of work in the field of philosophy of religion and in particular at the intersection between epistemology and philosophy of religion. Much of that interest has centred on the emergence of what has come to be known as Reformed Epistemology. The central claim of Reformed epistemologists is that belief in God is properly basic. The purpose of the arguments offered by Reformed epistemologists is to oppose what Plantinga calls the *de jure* objection to theistic belief: the idea that it is somehow irrational, a dereliction of epistemic duty or in some other sense epistemically unacceptable to believe in God. This objection is distinct from what Plantinga labels the *de facto* objection: the objection that whatever the rational status of belief in God, it is in fact a false belief. The primary goal of Reformed epistemology then is to defend Christian belief against the *de jure* objection, thereby showing that everything really depends on the truth of Christian belief. This book demonstrates the feasibility of combining the Reformed epistemologist's position with an argument for theism that the author draws from Charles Taylor's work. In it, he shows the value that would be added to the Reformed epistemologist's position by such a combination. *Epistemology as Theology* James Beilby,2017-09-29 Alvin Plantinga is arguably one of the most influential philosophers of our time. Much of his career has been devoted to explaining and defending the intellectual acceptability of Christian belief. Recently, he has developed a comprehensive, rigorous and distinctively Christian religious epistemology. This book presents the development of Plantinga's religious epistemology before considering Plantinga's mature religious epistemology in detail. Locating Plantinga's most recent work in the context of his theological assumptions, his previous work on religious epistemology and in the context of the current debate over how knowledge should be characterized, Beilby blends theological and philosophical discussion to offer a unique perspective on Plantinga's influential proposal. *Alvin Plantinga and Christian Apologetics* Keith A. Mascord,2007-01-01 The distinguished American philosopher Alvin Plantinga has had a career-long interest in the defense of Christian belief. There hasn't been a major contemporary challenge to such belief that Plantinga has not in some way addressed. This book draws together those contributions, highlighting particularly Plantinga's groundbreaking work in the areas of epistemology and the problem of evil. Historical and

biographical background information is included to give perspective to Plantinga's work His theory that both theistic and Christian belief is warranted and basic is explored and critiqued and an assessment is offered as to the significance of Plantinga's work for apologetic theory and practice **Faith, Reason, and Revelation in Theodore Beza, 1519-1605**

Jeffrey Mallinson, 2003 Faith Reason and Revelation in the Thought of Theodore Beza investigates the direction of religious epistemology under a chief architect of Calvinism 1519 1605 Mallinson contends that Beza consolidated his tradition by balancing the subjective and objective aspects of faith and knowledge Making use of new editions of Beza's class notes and correspondence and examining the theological ideas found in Beza's long neglected New Testament annotations this study clarifies the thought of Calvin's successor The nature of Protestant scholasticism and the relationship between faith and philosophy are observed in context rather than from the anachronistic perspectives of modern schools that seek to establish their own continuity with Calvinism **God, the Good, and the Spiritual Turn in Epistemology** Roberto Di

Ceglie, 2022-08-18 In this book Roberto Di Ceglie offers an historical theological and epistemological investigation exploring how commitments to God and or the good generate the optimum condition to achieve knowledge Di Ceglie criticizes the common belief that to attain knowledge one must always be ready to replace one's convictions with beliefs that appear to be proven He defends a more comprehensive view historically exemplified by outstanding Christian thinkers whereby believers are expected to commit themselves to God and to related beliefs no matter how convincing the evidence contradicting such beliefs appears to be He also argues that both believers and unbelievers can commit themselves to God and the good respectively thereby creating a spiritual turn in epistemology that enables them to generate the best possible condition for conducting rational enquiries and discussion The Noetic Effects of Sin Stephen K. Moroney, 2000-01-01 Stephen Moroney's fascinating study examines the frequently neglected topic of the noetic effects of sin a phenomenon in which sin distorts human thinking Drawing on the detailed models formulated by John Calvin Abraham Kuyper and Emil Brunner Moroney sets forth a more contemporary model of the subject He extends beyond all previous views by relating the noetic effects of sin to the complex and unpredictable interaction between the object of knowledge and the knowing subject Moroney also further examines some of the implications of the noetic effects of sin for the rationalist theology of Wolfhart Pannenberg and the Reformed epistemology of Alvin Plantinga and Nicholas Wolterstorff Lastly Moroney undertakes an interdisciplinary study of what social psychology and Christian theology contribute to our understanding of the noetic effects of sin An invaluable addition to current conversations on theology and epistemology The Noetic Effects of Sin will be of interest to scholars of theology religion and social psychology **The Cambridge Handbook of Religious Epistemology** Jonathan Fuqua, John Greco, Tyler McNabb, 2023-08-17 The first handbook on the topic of religious epistemology introduces and discusses topics fundamental to the epistemology of religious belief *Disability in Judaism, Christianity, and Islam* Darla Schumm, Michael J. Stoltzfus, 2011-10-24 This edited collection of essays examines how religions of the world represent understand theologize

theorize and respond to disability and chronic illness Contributors employ a variety of methodological approaches including ethnography historical cultural or textual analysis personal narrative and theological philosophical investigation

Hermeneutics as Epistemology William C. Roach, 2015-07-24 Historic Protestantism and evangelicalism has always been committed to the authority of Scripture and interested in the proper interpretation of the Bible They uphold the motto As Scripture says God says and as God says Scripture says Many today claim this type of reasoning is faulty since individuals can no longer know the true meaning of Scripture because there are no stable metaphysical or epistemological frameworks Moreover they claim that approaches such as the one presented by Carl F H Henry no longer provide adequate grounds to address the pressing hermeneutical issues This study responds to these types of claims showing each of these proposals is based upon faulty first principles or misrepresentations This book surveys hermeneutical innovations and Henry's epistemological hermeneutic to show that Henry's epistemology is foundational to his hermeneutic offering present day evangelicals an epistemologically justified approach to hermeneutics as epistemology and methodology The book will be of importance to those with interest in evangelical hermeneutics or philosophical hermeneutics in general It provides a clear assessment of the impact of Carl F H Henry's epistemology and hermeneutic and strives to respond to criticisms raised against his Augustinian Reformed revelational cognitive propositional hermeneutic

Faith and Modernity Philip Sampson, Vinay Samuel, Chris Sugden, 2011-08-05 The distinctive social and cultural developments of recent years are so familiar to us as to become invisible So write the editors in the introduction Although no missionaries worth their salt would try to evangelize without first studying the cultural and spiritual background of their hearers the church in the late twentieth century often does not begin to understand modern and postmodern thinking At the second conference of the Lausanne Committee for World Evangelization in Manila 1989 Dr Os Guinness gave a paper on Faith and Modernity which provoked great interest As part of the response to his paper a conference was held in Uppsala Sweden in 1993 at which an international group of experts probed more deeply into the questions of modernity and post-modernity Participants represented the United States Canada India Norway Sweden and the United Kingdom They included

such well known experts as Os Guinness James Hunter Lesslie Newbigin Vinay Samuel Elaine Storkey and David Wells Each of them has contributed to this volume covering such topics as What is Modernity Truth and Authority in Modernity Information Technology and Christian Faith New Age Modernity and Spirituality Modernity and Morality This collection of papers is offered as a resource and a challenge to the church for its mission in the context of the modern world *Tracing the Lines* Robert Sweetman,2016-08-23 *Tracing the Lines* takes on the project of what Christian scholarship is and should be today It does so however with an eye to locating similarities in the rich tradition the last nearly two thousand years of Christian scholarship has given birth to With humility and a sympathetic ear Sweetman traces the way certain lines of thought have developed over time showing their strengths their weaknesses and their motivation for shaping Christian scholarship in particular ways Though he locates his own thought within a particular one of these streams he shows how all of them have contributed in different ways to the formation of the work of Christian scholarship Offering in the end an understanding of Christian scholarship as scholarship attuned to the shape of our Christian hearts this book reaches across disciplines to connect Christians engaged in scholarship in all areas of the academy whether at public or private institutions

The Doctrine of God in Reformed Orthodoxy, Karl Barth, and the Utrecht School R.T. te Velde,2013-06-27 In *The Doctrine of God* Dolf te Velde examines the interaction of method and content in three historically important accounts of the doctrine of God Does the method of a systematic theology affect the belief content expressed by it Can substantial insights be detected that have a regulative function for the method of a doctrine of God This two way connection of method and content is investigated in three phases of Reformed theology The first seeks to discover inner dynamics of Reformed scholastic theology The second part treats Karl Barth s doctrine of God as a contrast model for scholasticism understood in the framework of Barth s theological method The third part offers a first published comprehensive description and analysis of the so called Utrecht School The closing chapter draws some lines for developing a Reformed doctrine of God in the 21st century

In Defense of the Eschaton William Dennison,2015-10-22 *In Defense of the Eschaton* is an anthology of William D Dennison s essays on the Reformed apologetics of Cornelius Van Til Written over the course of Dennison s many years of study the chapters in this volume investigate Van Til s theory of knowledge revelation common grace antithesis Christian education and the history of ideas as well as examine key Scriptures to identify the redemptive historical structure of a biblical apologetic method In the end Dennison finds that Reformed apologetics must take eschatology seriously According to the New Testament the believer has been transferred by faith in Christ into the final stage of history As a citizen of heaven the Christian apologist must defend the eschaton of the age to come against the satanic attacks of this present world

Faith and Reason Through Christian History Grant Kaplan,2022-08-29 It is impossible to understand the history of Christian theology without taking into account the relationship between faith and reason Many works give an overview of faith and reason or outline key principles while others put forward a thesis about how one should understand the relationship

between faith and reason In this theological essay Grant Kaplan revisits the key figures and debates that shape how faith and reason relate Divided into three parts Kaplan invites readers into a conversation rather than a drive by Readers will encounter the words and arguments of some of Christianity's greatest thinkers some well known Augustine Aquinas Newman and others nearly forgotten Readings of these figures bring them to life in an accessible manner In Faith and Reason through Christian History the roughly fifty figures treated are given sufficient room to breathe Rather than simply summarizing their thought Kaplan traces their arguments through key texts This book will appeal to a range of audiences theologians and philosophers instructors graduate students seminarians lay study groups and undergraduate theology majors No book today accomplishes what this book does

W. K. Clifford and "The Ethics of Belief" Timothy Madigan, 2008-12-18 W K Clifford 1845-1879 was a noted mathematician and popularizer of science in the Victorian era Although he made major contributions in the field of geometry he is perhaps best known for a short essay he wrote in 1876 entitled The Ethics of Belief in which he argued that It is wrong always everywhere and for any one to believe anything upon insufficient evidence Delivered initially as an address to the august Metaphysical Society whose members included such luminaries as Alfred Lord Tennyson William Gladstone T H Huxley and assorted scientists clerics and philosophers of differing metaphysical views The Ethics of Belief became a rallying cry for freethinkers and a bone of contention for religious apologists It continues to be discussed today as an exemplar of what is called evidentialism a key point in current philosophy of religion debates over justification of knowledge claims In this book Timothy J Madigan examines the continuing relevance of The Ethics of Belief to epistemological and ethical concerns He places the essay within the historical context especially the so called Victorian Crisis of Faith of which Clifford was a key player Clifford's own life and interests are dealt with as well along with the responses to his essay by his contemporaries the most famous of which was William James's The Will to Believe Madigan provides an overview of modern day critics of Cliffordian evidentialism as well as examining thinkers who were positively influenced by him including Bertrand Russell who was perhaps Clifford's most influential successor as an advocate of intellectual honesty The book ends with a defense of The Ethics of Belief from a virtue theory approach and argues that Clifford utilizes an as if methodology to encourage intellectual inquiry and communal truth seeking The Ethics of Belief continues to provoke and stimulate controversy which was perhaps Clifford's own fondest hope although he had no right to believe it would do so
