**Faith Versus Fact** Jerry A. Coyne, 2016-05-17 A superbly argued book Richard Dawkins author of *The God Delusion* The New York Times bestselling author of *Why Evolution is True* explains why any attempt to make religion compatible with science is doomed to fail In this provocative book evolutionary biologist Jerry A Coyne lays out in clear dispassionate detail why the toolkit of science based on reason and empirical study is reliable while that of religion including faith dogma and revelation leads to incorrect untestable or conflicting conclusions Coyne is responding to a national climate in which more than half of Americans don't believe in evolution members of Congress deny global warming and long conquered childhood diseases are reappearing because of religious objections to inoculation and he warns that religious prejudices in politics education medicine and social policy are on the rise Extending the bestselling works of Richard Dawkins Daniel Dennett and Christopher Hitchens he demolishes the claims of religion to provide verifiable truth by subjecting those claims to the same tests we use to establish truth in science Coyne irrefutably demonstrates the grave harm to individuals and to our planet in mistaking faith for fact in making the most important decisions about the world we live in Praise for *Faith Versus Fact* A profound and lovely book showing that the honest doubts of science are better than the false certainties of religion Sam Harris author of *The End of Faith*

*The Warfare between Science & Religion* Jeff Hardin, Ronald L Numbers, Ronald A. Binzley, 2018-10-15 A very welcome volume of essays questioning the presumption of irreconcilable conflict between science and religion British Journal for the History of Science The conflict thesis the idea that an inevitable irreconcilable conflict exists between science and religion has long been part of the popular imagination *The Warfare between Science and Religion* assembles a group of distinguished historians who explore the origin of the thesis its reception the responses it drew from various faith traditions and its continued prominence in public discourse Several essays examine the personal circumstances and theological idiosyncrasies of important intellectuals including John William Draper and Andrew Dickson White who through their polemical writings championed the conflict thesis relentlessly Others consider what the thesis meant to different religious communities including evangelicals liberal Protestants Roman Catholics Eastern Orthodox Christians Jews and Muslims Finally essays both historical and sociological explore the place of the conflict thesis in popular culture and intellectual discourse today Based on original research and written in an accessible style the essays in *The Warfare between Science and Religion* take an interdisciplinary approach to question the historical relationship between science and religion and bring much needed perspective to an often bitter controversy Contributors include Thomas H Aechtner Ronald A Binzley John Hedley Brooke Elaine Howard Ecklund Noah Efron John H Evans Maurice A Finocchiaro Frederick Gregory Bradley J Gundlach Monte Harrell Hampton Jeff Hardin Peter Harrison Bernard Lightman David N Livingstone David Mislin Efthymios Nicolaidis Mark A Noll Ronald L Numbers Lawrence M Principe Jon H Roberts Christopher P Scheitle M Alper Yal inkaya

Neglected Perspectives on Science and Religion Wayne Viney, William Douglas Woody, 2017-04-07 *Neglected Perspectives*

on Science and Religion explores historical and contemporary relations between science and religion providing new perspectives on familiar topics such as evolution and the Galileo affair The book also explores common differences in science and religion with respect to their various treatments of doubt curiosity and the methods by which truth claims are assessed The book includes discussions of religious and scientific treatments of the origins of males and females evolving views of sex and gender and contemporary tensions about topics such as same sex marriage Viney and Woody also include a chapter exploring the effects of social science research on religious topics such as prayer prejudice and violence The rise of social sciences such as psychology sociology and anthropology has resulted in discoveries that contribute to new ways of thinking about the relations of science and religion This book is ideal for graduate and upper level undergraduate students as well as anyone interested in science and religion

Thinking of Questions Peter Limm, 2015-09-23 This is not a conventional book It is designed to stimulate and challenge all people who are curious to find out about the world they inhabit and their place within it It does this by suggesting questions and lines of questioning on a wide range of topics The book does not provide answers or model arguments but prompts people to create their own questions and a reading log or journal To this end almost all questions have a list of books or articles to provide a starter for stimulating further reading Once you start you will be hooked Never stop questioning

**Redundant God? Christian Faith in the Light of Evolution** David de Pomerai, 2020-11-24 Does evolution make faith superfluous Part One of this book looks across the whole spectrum of biology from molecules to ecosystems to human societies and at the fossil history of life on earth concluding that evolution is the only explanatory concept that makes sense of it all Doesn't this demolish the core Christian claim that God created the entire universe Part Two explores whether God might instead embrace that universe with love and compassion without micromanaging or interfering Jesus bears witness to such a God in his kingdom teaching calling Christians to follow his example of humility serving others and valuing what the world considers unimportant This suggests paths of repentance and restraint that are urgently needed in a world facing rapid climate change and likely mass extinction

**Why Believe?** Neil Shenvi, 2022-05-20 Chemist and Christian Apologist Neil Shenvi Explores the Evidence for Christianity For centuries skeptics have disputed the claims of Christianity such as belief in an eternal God and the resurrection of Jesus Christ arguing that they simply cannot be accepted by reasonable individuals Furthermore efforts to demonstrate the evidence and rational basis for Christianity through apologetics are often deemed too simplistic to be taken seriously in intellectual circles Apologist and theoretical chemist Neil Shenvi engages some of the best contemporary arguments against Christianity presenting compelling evidence for the identity of Jesus as portrayed in the Gospels his death and resurrection the existence of God and the unique message of the gospel Why Believe calls readers from all backgrounds not only to accept Christianity as true but also to entrust their lives to Christ and worship him alone Accessible without Being Simplistic Ideal for intellectuals and academics as well as high school and college students Well Researched Interacts with skeptical arguments against

Christianity and God's existence Biblical Grounded in Scripture and centered on the claims of the gospel      *Physical Universe - Virtual God* Ramesh Kushwaha, 2025-03-12 Discover the True Nature of God in Dr Ramesh Kushwaha's Groundbreaking Book Dr Ramesh Kushwaha's visionary book calls into question the stances of both theists and atheists suggesting that both miss a deeper truth by taking religious scriptures at face value Instead of debating God's existence Dr Kushwaha asks a deeper question What is the true nature of God Rethinking Eternity and the Concept of God Dr Kushwaha suggests the theory that if the universe is eternal as proposed by some religions and astrophysicists the traditional concept of God may not be needed This radical perspective could resolve the long standing arguments between theists and atheists while addressing questions often used to prove God's existence Bridging the Gap Between Science and Religion The book addresses the parallels between science and religion describing them as two distinct universes Science Anchored in the objective physical world Religion Rooted in the virtual subjective world created by the senses and the brain Dr Kushwaha posits that every individual is the creator God of their own Virtual Inner Universe of love hate greed and hope elements of human nature that science cannot fully explain The Theory of the Virtual Inner World Central to Dr Kushwaha's argument is the concept that human experiences are inherently virtual By focusing or withdrawing attention individuals can influence their inner world including pain and emotions This principle shines the torch on religious and mystical experiences such as the healing power of prayer and the impact of faith on physical well being Pure Consciousness The True God Within Dr Kushwaha identifies the Virtual Inner World as the space where the real God resides a form of Pure Consciousness present in all living beings He explains how evolved human brains tap into this consciousness to achieve awareness and phenomenal experiences Mystics have been practicing this for centuries and the author believes it is the access point to daily happiness This book invites readers to Analyze the intersection of science religion and human nature Understand how attention shapes emotions and inner experiences Learn about the transformative power of Pure Consciousness in achieving fulfillment Whether you are a theist atheist or seeker of truth Dr Kushwaha's perspectives will revolutionize how you view God the universe and yourself      *Talking with Your Kids about God* Natasha Crain, 2017-10-17 Christian parenting is hard work and it's getting harder Parents have a deep desire to pass on their faith but fear that today's increasingly skeptical and hostile world will eventually lead their kids to reject the truth of Christianity That leaves many parents feeling overwhelmed uncertain of what they can do to help their children given the difficulty and extent of the faith challenges they will face This practical and timely resource gives parents the confidence of knowing what to discuss with their children and how to discuss it in order to facilitate impactful conversations that will form the basis of a lifelong faith In a friendly parent to parent voice Natasha Crain identifies 30 specific conversations about God that parents must have with their children organizing them under the categories of the existence of God science and God the nature of God believing in God the difference God makes Chapters are sequenced in a curriculum oriented way to provide a cumulative learning experience making this book a flexible resource for

use in multiple settings homes church classes youth groups small groups private Christian schools and homeschools Every chapter has a step by step conversation guide with discussion questions and tips and content is readily adaptable for use with kids of any age elementary through high school Endorsements My prayer is that God will use this book to both motivate and equip you to help your kids develop convictions about their faith From the foreword by Sean McDowell PhD Biola University professor speaker and author of more than eighteen books including A New Kind of Apologist I can't think of a more relevant or more needed book for parents raising kids in today's culture This book on apologetics will lead parents in critical conversations that will help grow and guide kids to be lifelong followers of Christ Kristen Welch author of Raising Grateful Kids in an Entitled World Hey parents Do you want to reduce the chances that your child will follow the crowd to the point of rejecting Christ and the values and truths you hold so dearly Then you need to have the conversations that Natasha Crain so brilliantly describes in this book Prevent heartbreak later by reading and heeding this book now Frank Turek PhD president of CrossExamined Ministries and author of I Don't Have Enough Faith to Be an Atheist and Stealing from God May this book lead to thousands more Moms and Dads engaging with their kids through an intelligent faith And may there be tens of thousands more kids who feel loved because the adults in their lives take their questions seriously Jeff Myers PhD president Summit Ministries

**Cross Examined** John W. Campbell, 2021-09-15 Christianity is more than just a religion It is a social organism that affects the lives of every person on earth in significant ways even if they are not Christians themselves In the United States its influence is pervasive with often profound influence on public policies but it is largely unchallenged as a belief system relegated to that quarantined area outside the zone of polite conversation Despite much academic ink being allotted to the weaknesses of Christianity as a valid belief system the general public remains unaware of these flaws In Cross Examined John Campbell applies his almost thirty years of experience as a trial lawyer to dissecting Christianity and the case of apologists for the Christian God He addresses the best arguments for Christianity those against it and the reasons people should care about these questions His purpose is to fill a void in books on atheism and Christianity by systematically taking Christian claims to task and making a full throated argument for atheism from the perspective of a trial lawyer making a case

**Islam's Encounter with Modern Science** Taner Edis, 2023-12-07 Within Muslim populations debates about the compatibility between science and religion tend to be framed by the long standing competition between modernizing reformers particularly westernizers and theological conservatives Much like their liberal Christian counterparts reformers propose to embrace technical knowledge and reinterpret traditional beliefs undermined by modern science Conservatives are more open to challenging the content of science especially when science appears to support materialist views Islamists promote an alternative non western style of modernity nurturing a more pious professional class that contrasts with westernized elites By scientific standards

westernizers appear to have the upper hand especially as conservative apologetics is drawn toward distortions of science such as creationism or fruitless attempts to Islamize science But conservatives can also point to some success in defusing tensions between scientific and religious institutions without adopting the full secularization of science seen in post Christian countries

**History, Philosophy and Science Teaching** Michael R. Matthews, 2017-08-30 This anthology opens new perspectives in the domain of history philosophy and science teaching research Its four sections are first science culture and education second the teaching and learning of science third curriculum development and justification and fourth indoctrination The first group of essays deal with the neglected topic of science education and the Enlightenment tradition These essays show that many core commitments of modern science education have their roots in this tradition and consequently all can benefit from a more informed awareness of its strengths and weaknesses Other essays address research on learning and teaching from the perspectives of social epistemology and educational psychology Included here is the first ever English translation of Ernst Mach s most influential 1890 paper on The Psychological and Logical Moment in Natural Science Teaching This paper launched the influential Machian tradition in education Other essays address concrete cases of the utilisation of history and philosophy in the development and justification of school science curricula These are instances of the supportive relation of HPS a subject long discussed in philosophy of education but inadequately in science education This book is a timely reminder of why history and philosophy of science are urgently needed to support understanding of science From major traditions such as the Enlightenment to the tensions around cultural studies of science the book provides a comprehensive context for the scientific endeavour drawing on curriculum and instructional examples Sibel Erduran University of Oxford UK The scholarship that each of the authors in this volume offers deepens our understanding of what we teach in science and why that understanding matters This is an important book exploring a wide set of issues and should be read by anyone with an interest in science or science education Jonathan Osborne Stanford University USA This volume presents new and updated perspectives in the field such as the Enlightenment Tradition Cultural Studies Indoctrination in Science Education and Nature of Science Highly recommended Mansoor Niaz Universidad de Oriente Venezuela This volume provides an extremely valuable set of insights into educational issues related to the history and philosophy of science Michael J Reiss University College London UK

*Faithful Science* Alistair J. McKitterick, 2022-03-17 This thesis studies the impact of teaching intelligent design to evangelical students Science is often presented as a reason why some find sharing their faith difficult in a secular culture teaching the science of intelligent design enables Christians to initiate conversations and overcome obstacles with those whose worldview is more Darwinian and materialist The professional doctoral research employs both action research and practical theology Lin Norton s pedagogical action research provides the structure for the qualitative research and thematic analysis showing that students find learning about intelligent design empowering for evangelism Richard Osmer s model of practical theology enables an interdisciplinary reflection on how intelligent design

challenges Western secular culture Intelligent design is seen as the most integrative of all the different ways of relating science and theology Theologically teaching intelligent design is like teaching a modern parable to contemporary society and just like the Gospel parables some respond with faith and some reject it Evangelical students find learning about it both liberating and empowering in their ability to share their faith more confidently with others especially in schools and youth groups

**Baby Dinosaurs on the Ark?** Janet Kellogg Ray,2021-09-09 A scientific look at creationism from a former creationist A significant number of Americans especially evangelical Christians believe Earth and humankind were created in their present form sometime in the last 10 000 years or so the rationale being that this is presumably the story told in the book of Genesis Within that group any threatening scientific evidence that suggests otherwise is rejected or when possible retrofitted into a creationist worldview But can this uncomfortable blend of biblical literalism and pseudoscience hold up under scrutiny Is it tenable to believe that the Grand Canyon was formed not millions of years ago by gradual erosion but merely thousands of years ago by the Great Flood Were there really baby dinosaurs with Noah on his ark Janet Kellogg Ray a science educator who grew up a creationist doesn't want other Christians to have to do the exhausting mental gymnastics she did earlier in her life Working through the findings of a range of fields including geology paleontology and biology she shows how a literal interpretation of the book of Genesis simply doesn't mesh with what we know to be reality But as someone who remains a committed Christian Ray also shows how an acceptance of the theory of evolution is not necessarily an acceptance of atheism and how God can still be responsible for having created the world even if it wasn't in a single momentary miraculous event

*A Thematic Access-Oriented Bibliography of Jesus's Resurrection* Michael J. Alter, 2019-12-31 The keystone of Christianity is Jesus's physical bodily resurrection Present day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus The literature measures well over seven thousand sources in English language books alone This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task Even when a specific book is relevant finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort A Thematic Access Oriented Bibliography of Jesus's Resurrection addresses these challenges in several ways First the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty four subcategories which are designed to help you find the most relevant literature quickly and efficiently Embedded are pro and con arguments which support efficient access through brief annotations and then annotate the diversity and complexity of the field of religion by including sources that represent a diverse range of views theistic e g Christian Jewish Muslim etc agnostic and nontheistic The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives allowing you to browse or find the one source accurately and with ease

**The New Biology** Michael J. Reiss, Michael Ruse, 2023-06-20 The New Biology argues that mechanical reductionism though helpful in answering many biological questions cannot on its own explain complex biological systems Promoting a more holistic approach the authors contend that both mechanistic and organicist views are invaluable frameworks for understanding life *Does Science Make God Irrelevant?* Hans Madueme, 2025-06-10 How Faith and Science Can Coexist to Glorify Our Creator Questions surrounding the origins of the universe and the accuracy of biblical accounts place science at the forefront of discussions between atheists and Christians alike Believers criticize the natural sciences as untrustworthy or even as an enemy of faith while atheists reprimand Christians for denying empirical facts of nature Is it possible to rightly love both God and science In this concise book author Hans Madueme offers a biblically informed perspective on science helping readers embrace both faith and science in a responsible and God glorifying way Does Science Make God Irrelevant addresses misconceptions explains how Christian assumptions make science possible clarifies the tension between science

and miracles and illustrates ways faith and science can coexist as allies In turn readers will see how good science glorifies God and helps us praise our Creator Optimistic Helps readers maintain a biblically sound worldview and a positive view of science Informed Perspective Author Hans Madueme s medical and theological background informs his thoughts on the topic of faith and science Short Accessible Format Explains science from a biblical perspective using 4 simple steps Part of the TGC Hard Questions Series Equips readers with answers to difficult questions facing today s church     **A Naturalistic Afterlife** David Harmon,2017-08-01 This book provides a fresh look at one of the most enduring absorbing and universal questions human beings face What happens to us after we die In secular thought the standard answer is simple we disappear into oblivion David Harmon takes us in a different direction by making the case that a nonconscious portion of our personality survives death literally not figuratively and explains how this kind of naturalistic afterlife can be emotionally relevant to us while we are still living Combining insights from the arts history philosophy and science a compelling argument takes shape for an afterlife without God
