Faithful Generations Effective Ministry Across Generational Lines:

Faithful Generations John R. Mabry, 2013-03-01 *Faithful Generations* provides a hopeful and helpful guide to the different adult generations alive today discussing the events that formed them and the issues important to them. Most importantly, it describes their spiritual distinctions, the particular needs, gifts, and concerns that drive these different generations. With a basic understanding of how other generations think and what drives them spiritually, ministers and congregations can not only avoid conflict but also put those distinctions to work in order to minister more effectively and create harmony in our religious communities.

Renewing Communication Colleen R. Derr, 2020-02-04 How can we as Christian leaders make the most of our communication to help others become more like Christ? Colleen Derr draws on decades of experience in education and church ministry to offer a holistic strategy for transformational communication, showing that communication powered by the Spirit needn't be limited to the pulpit or classroom but can include everyday interactions and relationships.

Millennials and Media Ecology Anthony Cristiano, Ahmet Atay, 2019-07-03 *Millennials and Media Ecology* explores issues pertaining to millennials and digital media ecology and studies the cultural, pedagogical, and political environments such a heterogeneous generation populates. The book questions whether millennials are properly understood as a heterogeneous group, particularly by the institutions and agencies that target them, and whether they are demonstrating the ability to set out a path for themselves and take charge of their own life and future. A diverse team of expert authors review past and current studies with critical assessment of arguments and propositions and document actual experiences of members of the millennial generation through detailed studies. Engaging with topical subject matter and current research on millennials, the chapters question the misunderstanding that digital tools and Internet technologies are making the younger generation dumber and disengaging them from the real world. Underscore the legal and economic insights into the commodification of the younger generation as consumers rather than learners. Examine the historical trajectory of media technology and whether new practices are having an empowering effect or one of enslavement to an increasingly irreversible technological and socio-political regime. Shed light on issues of critical pedagogy emerging from digital environments in relation to one's mental abilities and degrees of wisdom. Discuss the cultural and political implications of millennials, new media trends, the changing relationship between millennials and legacy media which rely on the younger generation for survival. Offer new insights into the significance of current media trends in relation to issues of credibility and
