Internationally best selling author Todd Strasser has written his most impressive and personal novel to date ruthlessly yet sensitively exploring the terrifying what ifs of one of the most explosive moments in human history After the end David L. Pike, 2024-04-09 After the End argues that the cultural imaginaries and practices of the Cold War continue to deeply shape the present in profound but largely unnoticed ways across the global North and in the global South The argument draws examples from literature and literary criticism film music the historical and social scientific record and past and present physical sites to consider the bunker as a material form an image and as a fantasy that took shape in the global North in the 1960s and that spread globally into the twenty first century After the End reminds us not only that most of the world's peoples have lived with or died from apocalyptic conditions for centuries but that the Cold War imaginaries that grew from and fed those conditions continue to survive as well Home Learning Year by Year, Revised and Updated Rebecca

Spirituality in Young Adult Literature Patty Campbell, 2015-06-24 In a time when almost any gritty topic can be featured in a young adult novel there is one subject that is avoided by writers and publishers Faith and belief in God seldom appear in traditional form in novels for teens The lack of such ideas in mainstream adolescent literature can be interpreted by teens to mean that these matters are not important Yet a significant part of growing up is struggling with issues of spirituality The underlying problem of course is that there are so few writers who are willing to talk to teenagers about God even indirectly or who themselves have the religious literacy for the task Spirituality in Young Adult Literature The Last Taboo tackles a subject rarely portrayed in fiction aimed at teens In this volume Patty Campbell examines not only realistic fiction but young adult literature that deals with mysticism apocalyptic end times and even YA novels that depict the Divine Encounter Campbell maintains that fantasy works are inherently spiritual because the plots nearly always progress toward a showdown between good and evil As such the author surmises that the popularity of fantasy among teens may represent their interest in the mystical dimensions of faith and the otherworldly In this study Campbell examines works of fiction that express perspectives from Christianity Judaism Islam Buddhism Hinduism and Sikhism Distinguished YA novelist Chris Crowe provides a chapter on Mormon values and Mormon YA authors and how their novels integrate those values into their books By looking at how spirituality is represented in novels aimed at teens this book asks what progress if any has been made in slaying the taboo Although most of the books discussed in this study are recent an appendix lists YA books from 1967 to the present that have dealt with issues of faith A timely look at an important subject Spirituality in Young Adult Literature will be of interest to young adult librarians junior and senior high school teachers and students and instructors of college courses in adolescent literature as well as to parents of teens

Leave This Song Behind Adam

Halwitz, John Meyer, Stephanie Meyer, 2016-04-26 It's been 10 years since the last book in the Teen Ink series *Written in the Dirt* was published. Now a whole new batch of teen writers has emerged with their own unique voices. *Leave This Song Behind* features the best poetry submitted by those writers to Teen Ink over the last five years. The pieces in this book were chosen because they were so powerful that they stood out from the rest. Teen Ink editors took a deep look into each poem's strengths then divided *Leave This Song Behind* into seven sections based on the poetic techniques or qualities that moved them most. Vivid sensory details made some poems shine; others caught their attention with simple, sparse language. Still others were chosen because of their thoughtful use of form, compelling stories, strong figurative language, unexpected connections, and wit and fresh writing about familiar topics. Dig in and let these brave young voices capture your heart and mind with their passion, their pain, and their amazing poetry.

The Maker Cookbook Cindy Wall, Lynn Pawloski, 2014-08-28 The Maker Movement is hot, and librarians are eager to participate. Even if you feel restricted by budget, staff, or space, this step-by-step guide will help you turn your library into a creativity center. The Maker Movement is sweeping the nation because it is creative, educational, and a lot of fun. Nonetheless, some librarians have hesitated to incorporate the movement into their programming because their libraries do not have dedicated makerspaces. If that describes you, then take heart. Written by librarians for librarians, this cookbook proves that every library is already a MakerPlace and provides you with recipes to make your library come alive with creativity. Easy-to-use, step-by-step guidance helps you create engaging K-8 programs in science and technology, arts and crafts, and home skills that are perfect for the library setting. The menu of ideas is broken into four types of programming: Appetizers add a taste of the Maker movement to existing library programs; Entrees present full programs for a lengthy one-day event or a short series; Side Dishes are programs you can use if you have limited staff, budget, space, or any combination of those; Desserts are low-tech programs suitable for young children. Each recipe includes extensions, variations, and curriculum tie-ins that give you even more ways to present the program ideas, whether to a different audience or as part of other related activities. Programs that involve creating a Balloon Zip Line, a Zen Garden, or a Maker Marketplace will delight library users and generate activity and excitement in your library.

The Good War Todd Strasser, 2021-01-26 A middle school must-read that exposes antisemitism in our country today. From the author of *The Wave* comes a poignant and timely novel about a group of seventh graders who are brought together and then torn apart by an afterschool club that plays a video game based on WWII. There's a new afterschool club at Ironville Middle School. Ms. Peterson is starting a video game club where the students will be playing *The Good War*, a new game based on World War II. They are divided into two teams, Axis and Allies, and they will be simulating a war they know nothing about yet. Only one team will win. But what starts out as friendly competition takes an unexpected turn for the worst when one player takes the game too far. Can an afterschool club change the way the students see each other and how they see the world? By using a gaming lens to explore the students' entrance to prejudice and radicalization, he succeeds in lending immediacy and accessibility.
