Family Life in the Seventeenth Century Miriam Slater, 2023-07-05 The great issues and conflicts of the early seventeenth century were played out not only on the stages of the Court and Parliament and latterly on the battlefield but within the confines of the family Originally published in 1984 in this pioneering study of the Verney family based on more than 10 000 family letters and papers Professor Miriam Slater shows how a family of country gentry lived and behaved in a time of political and social crisis Most of their energies were directed within the family their concerns with marriage and children with relationships between members of the Verney clan with managing their estates and property They emerge as real people with passions and hatreds made to live their lives by correspondence when the head of the family was forced to live abroad as an exile and casualty of the political tumults But their misfortunes have created a unique archive which allows the author to delve deep into the very heart of their personal lives and to create an extraordinary collective portrait of a family in times of troubles Professor Slater describes and analyses the way in which Verney family members actually treated each other and gives an account of their ideas on marriage from both the male and female points of view on the roles of children and parents on the relationships among adult siblings on the place of servants within the family She offers a detailed and systematic examination of family psychological dynamics and the values attitudes and goals which affected individual behaviour She also moves beyond individual idiosyncrasies by linking the nature of personal interaction within the family to the wider social structures of the society including laws of inheritance patriarchal control the different treatment of men and women and financial arrangements and family strategies Family Planning Methods and Practice , 1999 **Annual Editions** , 1981 Vols for 80 81 include a study guide *The Power of Inclusion in Family Business* Rosa Nelly Treviño-Rodríguez, Miguel Ángel Gallo, 2022-02-14 The Power of Inclusion in Family Business is a guide for grooming the next generation of responsible women owners in family businesses so they can thrive achieve and become leaders and wealth stewards in their multigenerational family firms and family offices Annual Editions Jacqueline Scherer, 1981 **Family in Transition** Arlene S. Skolnick, 1997 Similarity in Difference Christer Lundh, Satomi Kurosu, 2014-12-12 A study of marriage in preindustrial Europe and Asia that goes beyond the Malthusian East West dichotomy to find variation within regions and commonality across regions Since Malthus an East West dichotomy has been used to characterize marriage behavior in Asia and Europe Marriages in Asia were said to be early and universal in Europe late and non universal In Europe marriages were supposed to be the result of individual choices but in Asia decided by families and communities This book challenges this binary taxonomy of marriage patterns and family systems Drawing on richer and more nuanced data the authors compare the interpretations based on aggregate demographic patterns with studies of individual actions in local populations Doing so they are able to analyze simultaneously the influence on marriage decisions of individual demographic

features socioeconomic status and composition of the household and local conditions and the interactions of these variables. They find differences between East and West but also variation within regions and commonality across regions. The book studies local populations in Sweden, Belgium, Italy, Japan, and China. Rather than a simple comparison of aggregate marriage patterns, it examines marriage outcomes and determinants of local populations in different countries using similar data and methods. The authors first present the results of comparative analyses of first marriage and remarriage and then offer chapters each of which is devoted to the results from a specific country. *Similarity in Difference* is the third in a prizewinning series on the demographic history of Eurasia following *Life under Pressure* (2004) and *Prudence and Pressure* (2009), both published by the MIT Press. *The Cumulative Book Index*, 1989. A world list of books in the English language.
