Parricide and Violence against Parents Marianna Muravyeva, Phillip Shon, Raisa Maria Toivo, 2020-12-30 Parricide and Violence Against Parents takes a historical and criminological approach to the research on parricide and violence against parents placing the research in the context of social development from the 1500s to contemporary society and giving a global overview and comparison The book examines parricide and violence against parents as historically and culturally sensitive phenomena It offers evidence on a seemingly rare subject from different eras areas and cultures and then uses the cross disciplinary data to produce a new systematic insight for the reader Case studies shift the discussion from the contemporary focus on adolescent to parent abuse to examining the sources of conflict during life cycles of parents and their offspring A historical approach illuminates the variations in conflicts between

parents and their offspring that are shaped by the life stages of the victims and offenders themselves across time The book argues that parental authority has been marked by property ownership and tax paying responsibilities throughout history The continued possession of property resulted in power the reluctance to part with it becoming a notable source of conflict across generations within families Parental authority was protected by means of heavy penalties and punishments and didactic teachings in almost every society at every stage of historical development It was also challenged constantly by children as a part of their coming into adulthood The abuse of parents has often been connected to situations where adult children were prevented from gaining the amount of independence appropriate to their position in life This led to disputes over authority and the legitimate grounds for that authority Offering an insight into complicated and interconnected histories of generational conflicts and how they affect modern families in different parts of the world this book will be of great interest to students and scholars of criminology history of crime history of the family family violence homicide studies gender studies history of emotions political violence and social work

**Race and Family** Roberta L. Coles, 2006 The author provided interesting original examples which I found engaging I think the biggest strength is avoiding the one ethnicity per chapter approach found in so many books on family diversity I like the structural approach Hilary A Rose Concordia University A very useful book as a companion text for courses on race and ethnicity The chapters are easy to follow for undergraduate students Renxin Yang Northern Michigan University I think the book is needed because there are limited choices currently available and this book is moving in the right direction A strength is that it is not an edited book like so many other books on this topic There is a need for detailed study of ethnic minority families and I am excited about making this book my required text for my Ethnic Families Course Cheryl Burgan Evans Miami University I find the emphasis on social structure particularly appealing To date I have used Taylor s edited book which depends on the instructor to provide all of the integration Gretchen Cornwell Pennsylvania State University In *Race and Family A Structural Approach* author Roberta L Coles looks at ethnic minority families in a novel way through a structural lens Unlike many texts on race and family this book offers an approach that illustrates overarching structural factors affecting all families as opposed to examining each ethnicity in isolation from one another By focusing on various structural factors such as demographic economic and historical aspects this book analyzes various family trends in a cross cutting manner to exemplify the similarities and distinctions among all racial and ethnic groups

the strong Black woman African American women are more plagued by domestic violence than any other racial group in the United States In fact African American women experience intimate partner violence at a rate 35% higher than white women and about two and a half times more than women of other races and ethnicities This common portrayal can hinder black women seeking help and support simply because those on the outside don't think help is needed Yet as Hillary Potter argues in *Battle Cries Black Women and Intimate Partner Abuse* this stereotype often helps these African American women to resist and to verbally and physically retaliate against their abusers Thanks to this generalization Potter observes black women are less inclined to label themselves as victims and more inclined to fight back *Battle Cries* is an eye opening examination of African American women's experiences with intimate partner abuse the methods used to contend with abusive mates and the immediate and enduring consequences resulting from the maltreatment Based on intensive interviews with 40 African American women abused by their male partners Potter's analysis takes into account variations in their experiences based on socioeconomic class education level and age and discusses the common abuses and perceptions they share Combining her remarkable findings with black feminist thought and critical race theory Potter offers a unique and significant window through which we can better understand this understudied though rampant social problem
