

A person stands on a mossy rock, looking up at a massive, powerful waterfall cascading down a dark, craggy cliff. The water is white and turbulent, creating a misty spray at the base. The foreground is a lush, green, mossy landscape with a small pool of water. The overall scene is dramatic and emphasizes the scale of nature.

The Inclusion of Environmental Education in Science Teacher Education Alec Bodzin, Beth Shiner Klein, Starlin Weaver, 2010-08-13 In the coming decades the general public will be required ever more often to understand complex environmental issues evaluate proposed environmental plans and understand how individual decisions affect the environment at local to global scales Thus it is of fundamental importance to ensure that higher quality education about these ecological issues raises the environmental literacy of the general public In order to achieve this teachers need to be trained as well as classroom practice enhanced This volume focuses on the integration of environmental education into science teacher education The book begins by providing readers with foundational knowledge of environmental education as it applies to the discipline of science education It relates the historical and philosophical underpinnings of EE as well as current trends in the subject that relate to science teacher education Later chapters examine the pedagogical practices of environmental education in the context of science teacher education Case studies of

environmental education teaching and learning strategies in science teacher education and instructional practices in K 12 science classrooms are included This book shares knowledge and ideas about environmental education pedagogy and serves as a reliable guide for both science teacher educators and K 12 science educators who wish to insert environmental education into science teacher education Coverage includes everything from the methods employed in summer camps to the use of podcasting as a pedagogical aid Studies have shown that schools that do manage to incorporate EE into their teaching programs demonstrate significant growth in student achievement as well as improved student behavior This text argues that the multidisciplinary nature of environmental education itself requires problem solving critical thinking and literacy skills that benefit students work right across the curriculum **Putting the Local in Global Education** Neal W.

Sobania,2023-07-03 The position taken in this volume is that domestic off campus study can be just as powerful a transformative learning experience as study overseas and that domestic programs can equally expand students horizons their knowledge of global issues and processes their familiarity and experience with cultural diversity their intercultural skills and sense of citizenship This book presents both the rationale for and examples of study away an inclusive concept that embraces study abroad while advocating for a wide variety of domestic study programs including community based education programs that employ academic service learning and internships With the growing diversification regionally demographically culturally and socio economically of developed economies such as the US the local is potentially a doorstep to the planet and presents opportunities for global learning Moreover study away programs can address many of the problematic issues associated with study abroad such as access finance participation health and safety and faculty support Between lower costs the potential to increase the participation of student cohorts typically under represented in study abroad the lowering of language barriers and the engagement of faculty whose disciplines focus on domestic issues study at home can greatly expand the reach of global learning The book is organized in five sections the first providing a framework and the rationale for domestic study way programs addressing administrative support for domestic vs study abroad programs exploring program goals organization structure assessment and continuous improvement and considering the distinct pedagogies of experiential and transformative education The second section focuses on Semester Long Faculty Led Programs featuring examples of programs located in a wide variety of locations from investigations into history immigration culture and the environment through localities in the West and the Lowcountry to exploring globalization in L A and New York Section three highlights five Short Term Faculty Led Programs While each includes an intensive immersive study away experience two illustrate how a 7 10 day study away experience can be effectively embedded into a regular course taught on campus The fourth section on Consortium Programs describes programs that are either sponsored by a college that makes its program available to consortium members and non members or is offered by an independent non for profit to which institutions send their students The final section on Community Engagement and Domestic Study Away addresses the place of community based

Heidebrecht, 2014-03-10 A quick scan of any newsstand is enough to confirm the widespread preoccupation with

technological change As a myriad of articles and advertisements demonstrate not only are we preoccupied with technology but we are bombarded with numerous reminders that the cutting edge is in constant motion Most often the underlying assumption of Christians is that we have no choice but to find ways to cope with the latest and greatest Indeed it is often assumed that the church has no choice but to find ways to cope with its new technological context This book does not make the same assumptions Building on the work of Mennonite theologian John Howard Yoder it argues that the practices of the church make it possible for Christians to conscientiously engage technology This happens when we recognize that marks of the church such as patience vulnerability and servanthood can put technological ideals such as speed control and efficiency in their proper place In the course of grappling with three examples of morally formative technologies automobiles genetically modified food and the Internet this book goes beyond Yoder s thought by emphasizing that the church also plays a crucial role in our moral formation Revitalizing the World Trading System Alan Wm Wolff,2023-07-06 Considers the

history of trade the current state of the World Trade Organization and how it should be reformed **U.S. Geological Survey Activities Related to American Indians and Alaska Natives** ,2001 **Governance, Natural Resources and Post-Conflict Peacebuilding** Carl Bruch,Carroll Muffett,Sandra Nichols,2016-04-07 When the guns are silenced those who have survived armed conflict need food water shelter the means to earn a living and the promise of safety and a return to civil order Meeting these needs while sustaining peace requires more than simply having governmental structures in place it requires good governance Natural resources are essential to sustaining people and peace in post conflict countries but governance failures often jeopardize such efforts This book examines the theory practice and often surprising realities of post conflict governance natural resource management and peacebuilding in fifty conflict affected countries and territories It includes thirty nine chapters written by more than seventy researchers diplomats military personnel and practitioners from governmental intergovernmental and nongovernmental organizations The book highlights the mutually reinforcing relationship between natural resource management and good governance Natural resource management is crucial to rebuilding governance and the rule of law combating corruption improving transparency and accountability engaging disenfranchised populations and building confidence after conflict At the same time good governance is essential for ensuring that natural resource management can meet immediate needs for post conflict stability and development while simultaneously laying the foundation for a sustainable peace Drawing on analyses of the close relationship between governance and natural resource management the book explores lessons from past conflicts and ongoing reconstruction efforts illustrates how those lessons may be applied to the formulation and implementation of more effective governance initiatives and presents an emerging theoretical and practical framework for policy makers researchers practitioners and students Governance Natural Resources and Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six books of case studies

and analyses with contributions from practitioners policy makers and researchers Other books in this series address high value resources land water livelihoods and assessing and restoring natural resources **Timber Harvesting** ,1993
