CHM Files

CHM files, identified by their .chm extension, are compressed HTML documents primarily used for help documentation in older versions of the Windows operating system. They contain text, hyperlinks, and images, and their compression results in smaller file sizes. While CHM files have been largely replaced by web-based help documentation in recent Windows versions, they can still be opened natively on modern Windows systems.

[Shipbreaking in Developing Countries](#) Md Saiful Karim, 2017-12-06 This book explores the process of shipbreaking in developing countries with a particular focus on Bangladesh In the past shipbreaking the disposal of obsolete ships was a very common industrial activity in many developed countries However due to stringent domestic environmental and labour laws it

is almost impossible for the increasing number of vessels to be disposed of domestically and now developing nations including Bangladesh China India Turkey and Pakistan regularly participate in this activity The shipbreaking yards in these countries are not only detrimental to the marine and coastal environment but also represent significant health hazards to local people and workers Given the global importance of the issue an effective legal and institutional framework for a sustainable operation of the shipbreaking industry is desperately needed Sitting at the intersection of three distinct fields environmental justice international environmental law and international maritime law this book offers an innovative take on the issues surrounding the shipbreaking process Drawing on the case study of Bangladesh due to its prominence in the shipbreaking industry the author implements an environmental justice framework to examine the issues of sustainability surrounding shipbreaking and analyses the relationship between social development economic development and environmental protection Maritime perspectives of environmental justice will also be highlighted through a discussion of the International Maritime Organization s role in the implementation of the Hong Kong Convention in developing countries This book will be of great interest to scholars of environmental justice international maritime law and international environmental law
