MY WEBSITE AT LAST! Michele Sanvico, I wish to set up my own website my own way I d like to invest no money at all Where can I start from And how can I do that This ebook provides an answer to the whole range of questions We are not going to use neither Office Word nor WordPress not even specialised sites such as 1and1 our website shall be precisely as we imagine it without using templates and with no mandatory graphical solutions The text blocks and the images shall be placed just where we wish them to be not courtesy of the tool we make use of Because the site is ours and we want to create it the way we like it In addition we wish to introduce changes in our website when and where we want to We want to be given a full hand on capability in total freedom and without asking for permission We want our site to be properly rendered on a PC on a smartphone on any other handheld device like a tablet And we want to be in full control as to what to render and how Finally we want to spend no money In fact our site is just the very beginning of a journey across the web if revealing itself a success then and then only we will invest our money on it Yet I definitely am not a computer nerd How can I achieve all that Sure you can We will achieve all that with a step by step approach keeping the tech jargon to a minimum and sticking to the essential with extensive use of cut and paste actions from this guidebook So no programming classes by cutting and pasting portions of code everybody will be able to build up their own sites right now and with no need for further insight simply learning how to place text blocks and pictures where it s required within the web page From a technical standpoint we will design a very simple website including no HTML tricks advanced CSS formatting and Javascript coding And yet our site will be ideal for showcasing and spreading our views or selling a product or service without turning to expensive business services for web development and management All the examples and methods presented in this ebook are easily replicated at will you will be able to customise all the available code chunks to create your own site with your graphical settings your preferred images and your edited text you will just have to change the instance
