*Elements of Self-Destruction* Brent Potter, 2018-04-17 The stated purpose of this phenomenological psychoanalytic study is to make the phenomenon of self destruction and its vicissitudes intelligible It presents the nature of the relationship between the essence of technology and the essence of self destructiveness

**Elements of Self-Destruction: A Thematic Hermeneutic Study** Brent Curtis Potter, 2005 This phenomenological study examined the ontic and ontological vicissitudes of self destruction Why are humans who are motivated by self preservation motivated to engage in behaviors that threaten and even extinguish their existence The present study has given thought to this question and examined the phenomenon of self destruction through the perspectives of empirical psychology psychoanalysis analytical psychology as well as existential phenomenological psychology A thematic hermeneutic method was employed to explore the phenomenon of self destruction as the subject matter asks for a method in which reflection and dialectic can increase awareness and understanding Regarding the hermeneutic aspect of this study I first presented the predominant themes of the study Each theme was a chapter revolving around the central theme of self destructiveness These themes included 1 the emerging understanding of self destructiveness in culture religion philosophy and psychology 2 Bion s investigation into the self destructive capacity of the mind 3 Heidegger s ontology of Being and the Enframing of technology 4 identifying and delineating the who who most experiences the impact of human to human destructiveness in our contemporary culture The phenomenon of disposable children was delineated as well as other ways children suffer from contemporary self destructiveness such as child trafficking A case vignette presented a case of one such disposable child to offer a more salient understanding of what such children often have to endure to survive This study then presented the nature of the relationship between the essence of technology and the essence of self destructiveness The dissertation outlined the ways Heidegger and Bion may benefit from each other s perspectives on this score It also delineated the shadow of Being and the seduction of self destructiveness The study presented three examples of this pornography manifest destiny and the holocaust The notation X was suggested as another way to give thought to the phenomenon of self destruction and as an organizing sign for the many elements explored in the study This dissertation concluded by discussing the necessity of having a relationship to the phenomenon of self destructiveness without it holding sway

**Self-Destruction of Complex Systems** Kirill Postoutenko, 2025-01-27 This book is the first attempt to provide a general theory of self destruction in complex systems applicable to natural social and cultural phenomena The contributors work collaboratively to prove that many of the nondistributed complex systems in nature and society sooner or later experience critical development leading to unintended and irreversible self annihilation The individual chapters also show that the relations of such systems to their own distinctiveness and other systems may result in specific communicative pathologies such as redundancy inflation and noisy signalling which tend to mitigate or reinforce each other depending on circumstances Finally the volume updates some popular models of systemic self destruction from autoimmunity

and self organized criticality to imperial overstretch and discusses some prominent cases from supernova explosions to the civil war following the Russian Revolution of 1917 The interdisciplinary style of narration ensures the accessibility of the materials and theories presented for the specialists and students from different fields As such it will appeal to those interested in complexity studies from the areas of sociology history media and communication studies immunology computer science literary criticism cultural studies political science and international relations **Dr. Handand's Mind On** Dr. Allen K. Hand Sr.,2020-09-02 Book Delisted Journal of the Franklin Institute ,1851 Journal of the Franklin Institute Franklin Institute (Philadelphia, Pa.),1851 Vols 1 69 include more or less complete patent reports of the U S Patent Office for years 1825 59 **The Arena** ,1908 *Proceedings of the Institution of Mechanical Engineers* Institution of Mechanical Engineers,1851 **Systematic Theology** Paul Tillich,2012-11-30 A great voyage of discovery into a rich and deep and inclusive vision and understanding of human life in the presence of the mystery of God H Richard Niebuhr author of Christ and Culture This is the first part of Paul Tillich s three volume Systematic Theology one of the most profound statements of the Christian message ever composed and the summation and definitive presentation of the theology of the most influential and creative American theologian of the twentieth century In this path breaking volume Tillich presents the basic method and statement of his system his famous correlation of man s deepest questions with theological answers Here the focus is on the concepts of being and reason Tillich shows how the quest for revelation is integral to reason itself In the same way a description of the inner tensions of being leads to the recognition that the quest for God is implied in finite being Here also Tillich defines his thought in relation to philosophy and the Bible and sets forth his famous doctrine of God as the Ground of Being Thus God is understood not as a being existing beside other beings but as being itself or the power of being in everything God cannot be made into an object religious knowledge is therefore necessarily symbolic Beyond doubt the richest most suggestive and most challenging philosophical theology our day has produced John Herman Randall Jr author of The Making of the Modern Mind Laura Barbara L. Estrin,1994-12-15 How do men imagine women In the poetry of Petrarch and his English successors Wyatt Donne and Marvell the male poet persistently imagines pursuing a woman Laura whom he pursues even as she continues to deny his affections Critics have long held that in objectifying Laura these male authored texts deny the imaginative intellectual and physical life of the woman they idealize In Laura Barbara L Estrin counters this traditional view by focusing not on the generative powers of the male poet but on the subjectivity of the imagined woman and the imaginative space of the poems she occupies Through close readings of the Rime sparse and the works of Wyatt Donne and Marvell Estrin uncovers three Lauras Laura Daphne who denies sexuality Laura Eve who returns the poet s love and Laura Mercury who reinvents her own life Estrin claims that in these three guises Laura subverts both genre and gender thereby introducing multiple desires into the many layers of the poems Drawing upon genre and gender theories advanced by Jean Fran ois Lyotard and Judith Butler to situate female desire in the poem s framework Estrin shows

how genre and gender in the Petrarchan tradition work together to undermine the stability of these very concepts Estrin s Laura constitutes a fundamental reconceptualization of the Petrarchan tradition and contributes greatly to the postmodern reassessment of the Renaissance period In its descriptions of how early modern poets formulate questions about sexuality society and poetry Laura will appeal to scholars of the English and Italian Renaissance of gender studies and of literary criticism and theory generally *The History of Democracy; Or, Political Progress Historically Illustrated, from the Earliest to the Latest Periods ...
